PREFACE

TO THE MEMBERS OF THE CLASS:

I submit for your consideration the Fourth Class Report. This Report is somewhat different in form from its predecessors in that it contains a list of all men who were at any time enrolled in the Class of '96 and has in the Records of the Class certain facts concerning each man preceding his autobiographical sketch.

You will note that the list of names of those who were at one time or another enrolled in the class exceeds in number those who are shown in our Address List. This is because it includes some men who have joined another class and some Temporary Members who have not expressed interest enough to be retained on our active list, and also some men who were enrolled in our class the senior year simply for graduate work.

Our real organization is made up of those whose names are shown in the Records of the Class and in the Address List at the end of this Report. Of this list twenty-eight have failed to return their Report, the majority from procrastination and a small minority from apathy. Your Class Officers are working to bring the Members of '96 closer together and to remove any such feeling, but to achieve the best results it is necessary for each one of you to coöperate with them. Take an

interest in the work of your classmates. Keep in touch with your Secretary. Reply to your Class Notices with the same dispatch that it is your custom to consider your business correspondence, and above all remember that the Class of '96 is an organization representing Harvard College, and each one of you is a link in its chain, otherwise our Reunions stand for nothing and our Organization will amount to one in name only.

I wish to thank those of you who returned promptly the circulars for this Report and also our classmate, Philip Richardson, for his work in drawing the design for its front cover. I trust that those of you who have been delinquent will live and learn as a result of our Quindecennial.

JOHN J. HAYES

ALLAN ABBOTT

Born	<i>at Brooklyn, N. Y., Feb. 15, 1876.</i>
Parents	<i>Albert Allen, Susan Wildes (Hayes) Abbott.</i>
School	<i>Polytechnic (Brooklyn); Watertown (Mass.) High School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A. B.</i>
Married	<i>Mary Allen Rand, Dec. 27, 1900, Watertown, Mass.</i>
Children	<i>Elizabeth, Oct. 21, 1903 (died Oct. 21, 1903).</i>
Occupation	<i>Teacher.</i>
Address	<i>(business) Horace Mann School, 551 West 120th St., New York City. (home) 13 Garfield St., Watertown, Mass.</i>

My life since leaving college has been spent mainly in the schoolroom. For four years after graduation I taught in a little boarding-school in the South. At that time I was thought competent to teach about everything, from kindergarten through sophomore college work, in addition to performing the duties of chaplain, dramatic coach and marketer. Now, however, my powers have declined to the single task of directing the English work in the Horace Mann High School, a school of observation connected with Teachers College, Columbia University. I have written nothing of the dignity of a book; my collected works would include six or eight pedagogical articles in "The School Review" and other journals, two plays for amateurs, and the editorial equipment of four "English classics" for schools. I was for several years vestryman of St. Mary's church, Manhattanville.

The present year (1910-11) was given me as a sabbatical, and after carefully considering the opportunities for study abroad, I concluded there was more for me at Harvard than anywhere else.

EDWARD WINSLOW AMES

Born *at Wakefield, Mass., Oct. 29, 1874.*
Parents *Azel, Sarah Dering (Thomas) Ames.*
School *Phillips Andover.*
Years in College *Four.*
Admission Date *September, 1892.*
Degrees *A. B.*
Married *Katherine Millicent Johnson, Dec. 30, 1905, West New Brighton, Staten Island, New York.*
Children *Edward Winslow, Jr., July 3, 1907; Millicent Elizabeth, Nov. 4, 1909.*
Occupation *Lumbering.*
Address *(business) Corrientes, Argentine Republic, or care of American Legation, Buenos Aires.*
 (home) 24 Yale Ave., Wakefield, Mass.

In the fall of 1896 I went to Staten Island to tutor a family of three boys, all of whom I might say *en passant* eventually went to Harvard. Having found teaching agreeable I went the next year to the Powder Point School at Duxbury, Mass., and the year 1898-99 I taught at the Hill School, in Pottstown, Pa. By this time I had reached the conclusion that teaching was *too* agreeable. On looking about for real *work* I decided to go in for diplomacy, believing that our increased international prestige — the war with Spain was just over — would drive us into developing a thoroughly organized and permanent diplomatic service. In the fall of 1899 I therefore entered the School of International Law and Diplomacy of the Columbian University — as it was then called — at Washington. I had been there only a few weeks when I had — and seized — an opportunity to go to Brazil as private secretary to our minister there, and

I acted in that capacity as clerk of the legation and, during the latter end of the period, as vice consul at Rio de Janeiro from January of 1900 to May of 1902. In April of 1902 I was appointed secretary of legation at Buenos Aires and in May went direct to my new post, where I remained — Chargé d'Affaires March to December, 1903 — until January, 1904. While at home on leave I was transferred to our legation in Chile with the understanding that I was to have a long term as Chargé d'Affaires. As a matter of fact I was in charge for fourteen months. Soon after the arrival of a new minister, November, 1905, I went home to be married, having become engaged during my previous leave of absence.

At this time various reasons conspired to make me think it advisable for me to leave the diplomatic service. I won't go into them except to say that the service had *not* developed as I had hoped it would and as it since has, to a certain extent. While still in the service I had traveled pretty extensively in the south of Chile and had been much impressed with its forests and, on leaving the service, I made some long timber "cruising" trips there — they constituted a part of my "honeymoon" — and eventually took a billet as head of the lumber department of a big cattle and mercantile company operating in the south of Chile and the Argentine. For this company I went to the United States and England to buy steamers and machinery and then returned to Chile and erected a saw-mill not far from the town of Puerto Montt. I might say parenthetically that between the end of November, 1905, and the end of November, 1906, I traveled nearly fifty thousand miles.

The "panic" of 1907 that so seriously affected business at home was even more disastrous in Chile; business went to pieces, the bottom dropped out of the Exchange — I could write convincingly on the undesirability of inconvertible paper currency — and I was glad to get myself and my family out of Chile unaccompanied by any assets other than a considerable stock of experience.

This I determined to utilize in a better field and so came over into Argentina. Early in 1908 I made a trip in search

of timber up the Paraná river into the timberland of the Brazilian State of Paraná. Here I had some interesting experiences, particularly in an effort to reach the famous Iguazú river by working down one of its branches. The killing of an anta (South American tapir) at a critical period replenished my commissariat just enough to permit of my getting back to the main trail. As a result of this expedition I formed my present connection with the Upper Paraná Lumber Company and in September and October of the same year I explored a considerable section of their six hundred thousand acres in Paraná with one companion, taking an Oldtown canoe up one hundred miles of unexplored river, living principally on tapir and *jacutinga* (a kind of wild turkey).

In December of 1908 I went back to the United States to see my family, to buy some necessary machinery and to study the most approved methods of putting streams into shape for logging, and in March, 1909, returned to the tall timber of Brazil. There I spent just a year building dams, flumes, etc., and experimenting with the floatability of Brazilian pine (*Arancaria Brasiliensis*). Returned to Buenos Aires in April of 1910 and in May was joined there by my family. We are now living at Corrientes, where I am just completing the erection of the first real American saw-mill in this part of the world, and where any '96 man who comes to these parts will be received with open arms.

Occupation	<i>Corresponding secretary, Society for the Preservation of New England Antiquities.</i>
Address	<i>(business) 20 Beacon St., Boston, Mass. (home) Union Club, 8 Park St., Boston, Mass.</i>

My memory is a little hazy as to the exact sequence of events, but as near as I can remember the story goes this way. Immediately after graduating I went to Europe and stayed most of the rest of the year. During 1897 I worked in a real estate office and studied in a business school. Towards

the end of that year or the beginning of '98 I opened a real estate office with Mr. Lombard Williams under the firm name of Williams & Appleton. This continued until about August, 1900, when my health broke down, nervous prostration being brought on as the result of hypermetropic eye strain. From December, 1900, to May, 1901, was spent in Camden, S.C., in the vain hope that rest and a change of climate would work an improvement. The last part of 1901 and the whole of 1902 were spent at home and finally my health took a decided turn for the better. This was directly and solely due to the fact that Dr. Lewis Dixon, Clarendon Street, Boston, correctly diagnosed my troubles as being due to eye strain, my case being a bad one of astigmatic hypermetropia. Under his care improvement was immediate and I am now pretty much on my feet again. My father dying in 1903, I found myself involved in the management of a large suburban farm. This accounted in large part for my entering the Bussey in the fall of 1905. The upshot of it all was an early and final decision that farming only pays for a farmer, and I decided I wasn't a farmer. My next shot was at the fine arts and in the fall of 1906 I registered as a first year student in the Graduate School for the purpose of studying Architecture 7A, under Dr. Denman Ross. This course proved very attractive and I did my best for the scholastic standards of '96 to the tune of a "B," if memory serves me correctly. In the winter of 1907 I had another try at the Graduate School, this time in the School of Mining and Metallurgy. This was extremely interesting and more or less instructive, but I found myself handicapped by ignorance of chemistry, which caused me to fight shy of final exams. Right there is where I lost an A, or an E.

The following summer, 1907, was spent out West making the rounds of several Colorado and Nevada mining camps, in company with Prof. Charles H. White of the Department of Mining and Metallurgy. This was a fascinating experience, and as I didn't buy a solitary acre of sage-brush or a single share of mining stock, I came out of it all much better than many others.

1908 was spent in Cambridge and in Boston, and since then my home has been at 28 Mt. Vernon Street, Boston, my office at 20 Beacon Street, and my club at 8 Park Street. The spring of 1909 was spent in a four months' tour of Europe in France, England, Ireland, Switzerland, and Italy.

Ever since leaving College I have been becoming more and more interested in patriotic, historic, antiquarian and similar societies. Last year I took the initiative in founding one more society, namely, the Society for the Preservation of New England Antiquities, to which my entire time has since then been devoted. The object of the society is to preserve from destruction the best of the old 17th and 18th century houses still left to us. The means are found in membership dues and income of funds. From time to time the society publishes a bulletin, which is sent to all members. Life members pay \$50. Active members pay \$5 per year, and associate members \$2 per year. Associates may not vote or hold office. There are no cut rates for '96 men, but I can promise any of them who care to join a particularly cordial welcome, and shall gladly send our bulletins and circulars to those interested.

Other activities from time to time have been: Board of managers and vice-president, Massachusetts Society Sons of the Revolution; member of Council and Heraldic Commission of the New England Historic Genealogical Society; director, General Theological Library, Boston; financial secretary, Paul Revere Memorial Association; chairman, Civic Conference of Boston, 1915; visiting committee, Bussey Institution, etc.

RAYMOND CLARE ARCHIBALD

Born	<i>at Stewiacke, Colchester Co., Nova Scotia, Canada, Oct. 7, 1876.</i>
Parents	<i>Abram Newcomb, Mary (Mellish) Archibald.</i>
School	<i>Mount Allison Academy.</i>
Years in College	<i>One.</i>
Admission Date	<i>September, 1895.</i>
Degrees	<i>A. B. ; A. M., 1897 ; A. B., 1894 (Mt. Allison) ; Ph. D., 1900 (Strassburg).</i>
Unmarried	

Occupation*Assistant professor mathematics, Brown University.***Address***Brown University, Providence, R.I.*

After leaving Harvard in the spring of 1898 I spent a year studying mathematics at Berlin University under Schwarz, Fuchs, Schlesinger. I also carried on violin study. As a doctor's degree was not available at Berlin without three years of residence, I went to Strassburg and followed up mathematics and astronomical work under Reyr, Weber, Becker. In August, 1900, I received the degree of Ph.D. "cum laude." I was the first English speaking person to get this degree in mathematics from Strassburg, E. V. Huntington, '97 (Harvard), was the second. From 1900 to 1907 I was professor of mathematics and librarian at the Mount Allison Ladies' College, Sackville, N.B. I also had charge of the violin department in the Conservatory. During 1907-08 I was professor of mathematics and head of the department at Arcadia University, Wolfville, N.S. In 1908 I was appointed instructor in mathematics at Brown University with the understanding that I might spend the year following, 1909-10, in study at Paris. This plan I carried out. I returned to Brown last fall and I am now assistant professor of mathematics here and expect to return next year. I share graduate as well as undergraduate instruction with two of the four other members of the mathematical department.

I am a member of the Nova Scotia Historical Society, the Edinburgh Mathematical Society, the Société Mathématique de France, the Mathematical Association (England), a life member of the American Mathematical Society, the Deutscher Mathematiker Vereinigung; a fellow of the American Association for the Advancement of Science.

I have published numerous notes and problems in "The Educational Times" (London), "Mathematical Gazette" (London), "Notes and Queries" (London), "L'Intermédiaire des Mathématiciens" (Paris), "American Mathematical Monthly." Short articles have appeared in "Bulletin of the American Mathematical Society," "Proceedings of the Edinburgh Mathematical Society," "Annals of Mathematics." Long papers: "Bibliography of the Life and Works of Simon

Newcomb," "Mathematical Instruction in France" have appeared in the "Trans. of the Royal Society of Canada."

In September, 1909, John Lane, London, published my book entitled "Carlyle's First Love, Margaret Gordon, Lady Bannerman. An account of her life, ancestry, and homes — her family and friends . . . with twenty-one illustrations, including one in colour." The first edition of one thousand and twenty copies is now pretty well exhausted. Margaret Gordon was a Canadian, born near my home. I became interested in her career because a former student at the Mount Allison Ladies' College was a relative of Margaret's.

Born	<i>at Landonville, Albany County, New York, Nov. 13, 1874.</i>
Parents	<i>William Frothingham, Sarah M. (Sterry) Aspinwall.</i>
School	<i>Albany Academy, Albany, N. Y.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>

Degrees	<i>A.B.; Pd.B., 1900, and Pd.M., 1901 (State Normal College, Albany, N.Y.); A.M., 1901, and Ph.D., 1902 (Illinois Wesleyan University, Bloomington, Ill.); Ph.D., 1904 (University of Paris, Paris, France).</i>
Married	<i>Aurelia Hyde, April 8, 1908, Albany, N.Y.</i>
Occupation	<i>Teacher Professor of History and Principles of Education and Assistant to the President.</i>
Address	<i>(business) New York Normal College, Albany, N.Y. (home) 325 Washington Ave., Albany, N.Y.</i>

The history of my life since graduation is not conspicuous. After one year devoted to the business of publishing educational text-books, I entered the profession of teaching and for fourteen years have been engaged in this work, in which I have gained some success and much satisfaction. Except for the first two years when I taught various subjects in the South, I have directed my attention to the more professional work of education, that of training teachers, and have been continuously connected with the State Normal College at Albany, N.Y. Here I am now at the head of the Department of Education, and in addition perform various administrative duties as assistant to the President or "dean." My studies and pleasure have led me three times to Europe, first to pursue courses at the Universities of Grenoble and of Paris, from the latter of which I received my doctorate in 1904; and second, for travel, visiting, during the years 1902 to 1904, the British Isles and the various countries of Western Europe, and for nearly four months in the summer of 1910 "doing" Greece and the near East, incidentally making a study of the American educational institutions in Turkey-in-Asia, Turkey-in-Europe, Syria, Palestine, and Egypt. As a professional pastime, I have been connected with several educational associations, before which I have on occasions read papers of more or less merit; have contributed articles from time to time to educational magazines, editing one under the name of "Monographs," a publication of the Faculty of my own college; and have given a fair number of public lectures on subjects of education and travel. At present I have in preparation a volume of studies in the History

of Education. My interest in the University and in the Class of 1896 is stronger than ever, and I eagerly and regularly read all the news found in the pages of the "Bulletin" and the "Graduates' Magazine."

Born	<i>at Johnston, R.I., June 22, 1874.</i>
Parents	<i>Henry Harrison, Emma F. (Fenner) Atwood.</i>
School	<i>Johnston High School, Johnston, R. I.</i>
Years in College	<i>Three.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.; M.D., 1900.</i>
Married	<i>Adah C. Gorton, June 26, 1900, Providence, R. I.</i>
Children	<i>Boy, Aug. 20, 1906 (stillborn); Charles Tillinghast, June 14, 1908; Westcott Gorton, Jan. 20, 1910.</i>
Occupation	<i>Physician.</i>
Address	<i>687 Massachusetts Ave., Arlington, Mass.</i>

In the fall of 1896 I entered the Harvard Medical School and graduated *cum laude* in 1900. The day before my graduation I was married. After a vacation in Europe, I began practice in the fall in Hyde Park, Mass., and spent a little over three years there. Becoming convinced that Arlington offered a better field of labor I removed there early in 1904. The change proved a wise one and I still retain my original office at 687 Massachusetts Avenue. Beside my regular practice, I have contrived to keep busy with examinations for life insurance, holding of town offices, etc. In 1905 I was appointed Town Physician and held the office for two years. In 1906 I was elected a member of the local Board of Health and served three years, the last year being chairman. The same year I became Medical Inspector of Schools, which office I still retain.

During the past five years we have had three children, all boys. Two are now living and I trust one day they will be able to inscribe themselves as alumni of Harvard. Otherwise the past five years have been uneventful but busy.

I am looking forward with much pleasure to the quinquennial reunion and hope to renew many old friendships then.

Occupation	<i>Banker.</i>
Address	<i>(business) 53 State St., Boston, Mass.</i> <i>(home) Pond St., Jamaica Plain, Mass.</i>

Since leaving College I have been connected with Parkin-son & Burr, where I have been endeavoring to save money or make money for my friends.

Apart from amassing a fortune for others, there is nothing eventful which has taken place in my life since the good old days of '96.

CHARLES EDWARD BACON

Born	<i>at New York City, Dec. 12, 1873.</i>
Parents	<i>George A., Susan Lyman (Hillman) Bacon.</i>
School	<i>Medford High.</i>
Years in College	<i>1891-93, 1894-96.</i>
Admission Date	<i>September, 1891.</i>
Degrees	<i>A.B.</i>
Unmarried	
Occupation	<i>Publisher.</i>
Address	<i>172 Tremont St., Boston, Mass.</i>

In August, 1896, I entered the Chicago office of my father's business (publishers of college and school text-books), and

remained there for ten years. I went to Europe in the summers of 1902 and 1904. In September, 1906, I went around the world by way of Vancouver and Yokohama. On reaching home in July, 1907, I went into the Boston office of the same business, remaining for two years. In September, 1909, I went to Russia and Turkestan, thence to Turkey, Greece, Palestine, and from Port Said by boat to China and Japan. Returned to Switzerland in June via Trans-Siberian, and left there in September for Paris. After an autumn there, in Monte Carlo and Algiers, I went to St. Moritz for the winter sports of January and February.

Since the last report I have married, the lady being Jeanne M. Kirby, of Newark, N.J. I have one daughter, now a little over two years old. Aside from the above nothing unusual has occurred.

FRANK MARCELLUS BAILEY

Born	<i>at Framingham, Mass., July 2, 1873.</i>
Parents	<i>Marcellus, Harriet Webster (Page) Bailey.</i>
School	<i>Private tutors.</i>
Years in College	<i>Three.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>B.B.L. (Lake Forest University).</i>
Married	<i>Katharine Robeson Bowen, June 28, 1899, Haverford, Pa.</i>
Children	<i>Harriet Sewall, Chicago, Ill., Aug. 16, 1900; Robeson, Chicago, Ill., May 3, 1906.</i>
Occupation	<i>Fruit farmer.</i>
Address	<i>Eagleville P.O., Pa.</i>

On leaving Harvard I entered the wholesale dry goods firm of Jno. V. Farwell & Sons, Chicago, Ill. Soon after I commenced the study of law, was admitted to the Illinois Bar, and commenced active practice shortly after my marriage. Then became manager of two large estates in Chicago. In 1904 I had an illness which compelled me to leave office work for all time. I rented a small place outside of Chicago and started a squash farm, which I conducted successfully until about two years ago (1908), when I sold out and came east, buying a forty-acre farm five miles out of Morristown, Pa., and twenty-five miles from Philadelphia, Pa., on the Pennsylvania railroad. I am now raising fruit exclusively, peaches and apples. I have two thousand peach trees and about three hundred apples, besides a lot of small fruit and berries. I still stick to the simple life, and am still in love with it. My family get many luxuries, which cost early in the cities, but only come from work on the farm.

Mine has not been an eventful life from an outside standpoint, but I can say that, although ill for the most of the last six years or so, and suffering some, I have enjoyed it so far, and have been happy and content in my family and friends, a thing which I trust a majority of '96 can say.

FRANCIS NOYES BALCH

I sent in my record pretty fully for our decennial report,

and see no need of reprinting it. Since then I have followed the same lines of activity — real property, trust and probate law mixed with “reform” politics, with my old love, biology, as a “side line.” The family record herewith sufficiently indicates certain other preoccupations.

I took some interest in the construction and putting through of the (so-called) “new charter” for Boston, and when it was adopted the Governor sentenced me to a three-year term on the Finance Commission, which the charter provides as a permanent feature. This was June 23, 1909. This is interesting but strenuous work, as the Commission is supposed to attend to all the unpopular but necessary civic “house cleaning,” its scope being much wider than its title. It takes about one-third of my time and is unpaid.

On top of my professional work it proved a bit too much for me so that in April, 1910, I had fair warning of a serious breakdown and knocked off for a rest. I got the use of the laboratory at the Station for Biological Research at Agar’s Island, Bermuda, and there spent, with Mrs. Balch, six never-to-be-forgotten weeks, largely on or in the water, biologizing to my heart’s content. Coming back much better but still a little seedy I took six weeks more vacation, this time down in Maine where I set up a complete miniature laboratory and working library of my own, putting my time, as at Bermuda, on my favorite group, the Nudibranchs. Returning to work early in September apparently in good condition I soon found it necessary, however, to have a severe, but not serious, surgical operation which laid me up for six weeks more. Now I am back in harness — I trust “as good as new.”

Without wishing to trench on the field of Phil Stockton, Grew, Stillman and other high financiers of the Class, I have got some fun, and expect sometime to get a moderate money return, out of the organization of a small (but solid!) bank in our “North End,” called the Paul Revere Trust Company. It has an interesting sociological side to its work since it takes care of much money for comparatively recent immigrants who have scarcely banked before. Any classmate who cares to help us grow is welcome to give us his account! The

executive committee and legal work of this undertaking uses up some of my leisure. Other large parts have gone into work as chairman or member of legislative committees for four or five different organizations, private and public, *e.g.*: the Abstract Club (an incorporated organization of Massachusetts conveyancers), the Jamaica Plain Citizens' Association, the United Improvement Association of Boston, etc.

As for publications, besides the official publications of the Boston Finance Commission and occasional newspaper letters or articles on allied subjects, I continue to get out from time to time a technical paper on Nudibranchs or some other group of "bugs" which could only interest a fellow crank. The last one is in the Proceedings of the United States National Museum for 1910. I continue to serve on the "Committee to Visit the University Museum" and for the last two years also on the "Committee on Zoölogy." Am vice-president of the Boston Malacological Club which I helped found last year (about thirty members).

Twice, of recent years, I have hugely enjoyed cruises down the Maine coast with Robert B. Stone, '98, closely associated with me in the Good Government Association work and now my brother-in-law. Besides this I have usually had a little gunning or fishing trip each year. As I never amounted to anything in athletics myself I point with pride to my reflected glory in having had three cousins in the boats which defeated Yale in 1909, and two in 1910.

This is all I can think of. By tacking it on to the decennial report and the family record herewith any friend interested can bring me well down to date.

Children	<i>Ira Buckingham, July 2, 1907.</i>

Occupation *Physician.*
Address *(business) 403-404 Title & Trust Bldg., Decatur, Ill.*
(home) Decatur, Ill.

My life since leaving College has been devoted to the study and the practice of medicine, with very few startling events, except those already covered by the statistical questions. For the first few years after leaving the Medical School I was quite active in Masonic work and was High Priest of the Chapter for one year, but was obliged to give up the work as my business increased. The only other office I have held is that of member of the city Board of Health, which I have held for four years.

In August, 1909, fire destroyed the greater part of the block in which I had my office and I was forced to move because of dangerous walls.

Parents	<i>Daniel Thomas, Flora (Pike) Belmore.</i>
School	<i>Phillips Exeter Academy.</i>
Years in College	<i>Three.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B. ; LL.B., 1898.</i>
Unmarried	
Occupation	<i>Lawyer and Secretary.</i>
Address	<i>1246 Grand St., Brooklyn, N. Y.</i>

Upon leaving Cambridge I spent a year on the Pacific Slope. Then I entered a law office in New York City, where I was admitted to the Bar. After being in New York about two years I was called to my home in Maine by the death of my father and I remained there about a year. I then went to Boston where I practised law for four years until the spring of 1905, when I returned to New York City and connected myself with Cross, Austin & Ireland Lumber Company as secretary and general counsel, and I am still with this company in the same capacity. I do very little general practice outside of the work for the company. I live in that part of Rockaway Peninsula known as Hewlett in Nassau County, New York. I am a member of the University Club of Brooklyn, N.Y.

Parents	<i>James Hoyt, Isabel Pillsbury (Robinson) Benedict.</i>
School	<i>Groton School, Groton, Mass.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B. ; LL.B., 1900 (Columbia).</i>
Married	<i>Catherine Van R. Bissell, July 11, 1899, New York City.</i>
Occupation	<i>Lawyer.</i>
Address	<i>(business) Hall of Records, Borough of Manhattan, New York City.</i> <i>(home) 144 East 56th St., New York City.</i>

After leaving Harvard I attended the Columbia Law School for three years, and believe I have somewhere a degree from that institution as Bachelor of Laws. Since the fall of 1899 I have been practising the profession of which I obtained a rudimentary knowledge in those three years. In June of 1908 I was appointed an assistant corporation counsel for the city of New York. I believe it is considered an office, but whether of honor or trust opinions seem to differ. I know it keeps me busy, so that I have written nothing in the way of books or pamphlets, and have little time for outside activities. My particular work is in connection with the employment and removal of other city employees, and their rights as defined by the civil service and kindred statutes. My name has not been associated with any history-making cases or events, and I have not even bought a farm.

MONTEFIORE BIENENSTOK

Born	<i>at St. Louis, Mo., June 25, 1873.</i>
Parents	<i>Charles, Saraphine (Davis) Bienenstok.</i>
School	<i>St. Louis High School.</i>
Years in College	<i>Two.</i>
Admission Date	<i>September, 1892.</i>
Unmarried	
Occupation	<i>Writer for newspapers and magazines.</i>
Address	<i>(business) 210 Olive St., care of the "Modern View," St. Louis, Mo.</i> <i>(home) 3949a Pine St., St. Louis, Mo.</i>

For awhile after leaving College I was a reporter. I was

on the St. Louis "Star" about two years, then went with the "Chronicle," and after that went to New Orleans as editor of the "Owl," a monthly publication. I held this office for some years, and then went back to St. Louis to be assistant secretary of the Jewish Charitable and Educational Union of that city, where I remained for over eight years. Owing to a foolish and fatuous penchant for literary work (which I cannot get out of my blood) and because I had overworked and needed a good rest, I resigned a good position for the precarious life of what some call a journalist, but which in reality is that of a hack. I did dramatic criticism, special articles, and book reviews for the St. Louis "Mirror" for awhile. Also wrote occasional Sunday stuff for the St. Louis "Globe Democrat," the "Republic," and other newspapers. During all this time I wrote a weekly editorial column, running from three to four comments on current topics, for the St. Louis "Modern View." I still continue this stunt. This winter I won a second prize for a story called "The Gray Miss Grimm," which was submitted with a number of others by a local St. Louis weekly, to the Dean of the School of Journalism at Columbia, Mo. An article of mine in the "American Israelite," referring to the work of Montague Glass in the "Saturday Evening Post," was copied in part and commented on generously by the "Literary Digest." The "Reform Advocate," a Chicago weekly, published two stories of mine recently: (1) "An International Crime;" (2) "Breadth." I am now in Chicago trying to make arrangements for some newspaper connections, and in the current issue of a Chicago paper called the "Sentinel" will have a sketch called "Mockery and the Man." I have not collected all my stuff, but have some thirty-five short stories which I am anxious to publish in book form, though have not been able to secure a publisher in St. Louis or Chicago. Later on I may try them on some one in the East. My present plans are rather indefinite. I may locate permanently in Chicago, but it is very uncertain.

During my connection with the charities in St. Louis I held a number of offices in philanthropic work, but the thing

of which I am most proud is the establishment of two milk stations for the distribution of modified milk for babies in the poor districts of that city, carried out by two Jewish lodges of that city on my suggestion and recommendation as chairman of a committee appointed to investigate local conditions. These two milk depots have sold for a very nominal price over one hundred and fifty thousand bottles of pure milk received from the St. Louis Pure Milk Commission, a ramification of the great work done by Nathan Straus, of New York, since they were organized a few years ago.

Married	<i>Mary Parker, April 12, 1902, Honolulu, H.I.</i>
Occupation	<i>Professor of Law.</i>
Address	<i>Law School, University of Chicago, Chicago, Ill.</i>

Graduated from Harvard Law School, 1899; taught in the school first half of school year, 1899-1900; March, 1900, went to Honolulu, Hawaii, to practise law; became member of the firm of Kinney, MacClanahan & Bigelow. Left Honolulu in September, 1903, to accept position on the faculty of the Law School of the University of Chicago and have been there ever since. Published, 1905, an edition of "Mays Criminal Law."

In 1910 appointed delegate from Illinois to the American Prison Congress, and the International Prison Congress at Washington.

NEWTON HENRY BLACK

Born	<i>at Putney, Vt., May 3, 1874.</i>
Parents	<i>Newton Horace, Frances (Blanchard) Black.</i>
School	<i>Worcester Academy and Phillips Exeter Academy.</i>
Years in College	<i>Three.</i>
Admission Date	<i>September, 1893.</i>
Degrees	<i>A.B. ; A.M., 1906.</i>
Unmarried	

Occupation	<i>Schoolmaster.</i>
Address	<i>(business) Roxbury Latin School, Boston, Mass.</i> <i>(home) 15 Ellery St., Cambridge, Mass.</i>

Since 1900 I have been teaching Physics and Chemistry at the Roxbury Latin School. For some years now I have been greatly interested in educational problems, especially those connected with the teaching of science in our schools. From time to time I have contributed short articles to the reports of the Eastern Association of Physics Teachers. For the last four years I have served as one of the New England representatives on the college entrance examination board, which is a sort of "trust" or coöperation made of most of the Eastern colleges and preparatory schools for the purpose of giving *uniform* entrance examinations.

My hobby just now is electrical engineering. Spent a summer in Westinghouse Electric and Manufacturing Company, at Pittsburg. However, my job is that of the schoolmaster.

Occupation	<i>Banker and broker.</i>
Address	<i>(business) 111 Broadway, New York, N. Y.</i> <i>(home) 18 East 36th St., N. Y.</i>

Upon graduating from College I entered the Harvard Law School and remained at the school for about two and one-half years. I was afterwards admitted to the New York Bar and became associated with the law firm of Robinson, Biddle & Ward, and at a later period became engaged in the practice of Patent Law, being associated with the New York office of Fish, Richardson, Herrick & Neave. In April, 1910, I became a member of the firm of McGraw, Blagden & Draper, bankers and brokers, having offices at 111 Broadway, New York City. I am not married and reside with my mother at 18 East 36th Street, New York City.

Married	<i>Marion Fox, April 18, 1906, Taunton.</i>
Children	<i>Beatrice, March 6, 1907.</i>
Occupation	<i>Real estate and insurance broker.</i>
Address	<i>(business) 106 Main St., Brockton, Mass. (home) 3 Highland Terrace, Brockton.</i>

After considering the opportunities afforded in the city of Boston for the brokerage business and other lines at that time prominent, I decided to establish an office in Brockton, Mass., where with my father's kind assistance I gained some knowledge of renting, buying and selling real estate and incidentally of the fire insurance business. My prosperity has been abundant, greater than I deserve without much doubt, and the crowning accomplishment of my years, since college days were past, was my marriage, in 1906, to Miss Marion Fox of Taunton. Our pleasure in each other's company has been delightful; family reunions and some travel have been special features of our life. We enjoy now the luxury of a most pleasant new and modern home in one of Brockton's newest residential sections. I have sold the old mansion, which was my father's and great uncle's before him, and which some '96 men know, with its many acres, to the Swedish Lutherans, who have established an Orphans' Home there, with more than thirty children romping about the lawns.

My time for writing books has not come; I hope it may yet, but I have contented myself until now with buying the writings of others. Politics I have left severely alone since 1900, having skirmished in the firing line before that time to my heart's content. It has been my pleasant duty to serve as clerk and later as treasurer and now as vestryman of St. Paul's Episcopal Church and to occupy some other positions on business men's committees.

Frequent visits to Cambridge to see a baseball or football game have refreshed my memory with many pleasant thoughts. My pleasant occupation brings me in close touch with the people of many nationalities and I live in one of our enterprising and progressive cities of the east where we enjoy many of the privileges which overflow from our most excellent neighbor, Boston. Come to Brockton if you are not satisfied where you are located. The city is growing rapidly ; about everything one needs is at hand, and men of energy find an agreeable place here.

Occupation	<i>Investment securities.</i>
Address	<i>(business) 500 Fifth Ave., New York City. (home) 222 West 59th St., New York City.</i>

For several years after leaving College I was engaged in railroad engineering work. I was then with the Automo-

bile Company of America for one year, and in November, 1905, went to the Æolian Company as assistant to the vice-president.

Since January, 1908, I have been dealing in stocks and bonds in New York City.

I was married Jan. 27, 1909, to Arline Smith and spent the following six months traveling in Europe. Since then I have been living at 222 West 59th Street, New York City.

SAMUEL WARD BOARDMAN, JR.

Born	<i>at Auburn, N. Y., Sept. 6, 1874.</i>
Parents	<i>Samuel Ward, Sarah Elizabeth (Greene) Boardman.</i>
School	<i>Blair Academy, Blairstown, N.J., and Maryville Preparatory School and Maryville College, Maryville, Tenn.</i>
Years in College	<i>Two.</i>
Admission Date	<i>September, 1894.</i>
Degrees	<i>A.B. ; A.B., 1894 (Maryville College) ; LL.B., 1899 (New York University).</i>
Married	<i>Charlotte Katharine Tice, May 28, 1908, Bloomfield, N.J.</i>
Children	<i>Grace Estelle Tice, Dec. 1, 1909.</i>
Occupation	<i>Lawyer.</i>
Address	<i>(business) Union Bldg., 11-15 Clinton St., Newark, N.J. (home) 159 Thomas St., Bloomfield, N.J.</i>

After graduation I entered the law office of Franklin M. Olds, in Newark, N.J., and while so connected attended the sessions of the New York University Law School, from which I was graduated in June, 1899. In November of the same year I was admitted to practice in New Jersey as an attorney at law and in November, 1902, as a counsellor. Chancellor McGill appointed me a Master in Chancery of New Jersey in January, 1901, and Chancellor Magie named me a Special Master in June, 1904. For supplemental self-support and for relaxation I taught mathematics evenings for over five years. In the fall of 1904 I accepted a position as settlement officer in the title department of the Fidelity Trust Company, of Newark, from which I resigned at the close of 1905. Since Jan. 1, 1906, I have devoted myself

exclusively to the practice of law, state and federal, having offices in the Union Building, Clinton Street, Newark, N.J.

From 1896 to 1901 I resided in Newark, but in the latter year, my father having resigned the presidency of Maryville College, Maryville, Tenn., and having returned to New Jersey, I took up my residence with my parents in Bloomfield, four miles from the heart of Newark. After my marriage (1908) I removed one mile further out in Bloomfield but have recently returned to the more familiar part of that suburb.

While living in Newark my church membership was with the First Presbyterian Church of that city founded in 1676 and since coming to Bloomfield, in the Old First Church of this town, founded in 1796. In April, 1906, I was elected to the Board of Trustees of the latter organization, and in April, 1908, reelected for three years. As usher at the church services and as teacher in the Bible School there I have seen considerable service.

Almost since its organization in 1902 I have been a member of the Bloomfield Board of Trade and for the last two years the chairman of its legal committee. Beside this I am a member of the Lawyers' Club of Essex County and of the Harvard Club of New Jersey.

In politics I have been somewhat active, but as I am a Democrat and as Bloomfield has never gone Democratic (so they say) until Governor Woodrow Wilson ran, my opportunities have been meagre. In the fall of 1902 I ran for school commissioner but lost by a big majority. Through 1908 and 1909 I was one of the two Bloomfield members of the Democratic County Committee.

I have published no books and my use of the pen outside of my practice has been confined to scribbling squibs for the "Bloomfield Citizen" and the Newark dailies on political and civic subjects.

CHARLES DUNBAR BOOTH

Born

at Ashtabula, Ohio, Nov. 17, 1871.

Parents

Charles C., Sarah B. (Dunbar) Booth.

School

Phillips Exeter Academy.

Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.; LL.B., 1898.</i>
Married	<i>Florence J. Mack, Aug. 14, 1901, Boston, Mass.</i>
Occupation	<i>Lawyer.</i>
Address	<i>191 Middle St., Portland, Me.</i>

After the completion of my course at Harvard College I entered the Law School and took my degree there in 1898. Went first to New York City to practise law, but after about six months there I formed a connection with the law firm of B. D. and H. M. Verrill, of Portland, Me. Later I became a member of this firm, which in November, 1904, became the firm of Verrill, Hale and Booth, through combination with Frederick Hale, also of our Class. In 1908 I did most of the work in bringing out the seventh edition of the Maine Civil Offices. Was secretary of the Harvard Club of Maine for three years. Hale and I have been of the special counsel for the Department of State engaged in adjusting the international boundary line through Passamaquoddy Bay, which line has been at last settled by treaty with Great Britain proclaimed in September, 1910.

Unmarried	
Occupation	<i>Banker.</i>
Address	<i>(business) 33 Wall St., New York City.</i> <i>(home) 237 Central Park West, New York City.</i>

When, after graduation, I turned my thoughts seriously to business it happened that my attempts were made first in the line of fire insurance and second in publishing. Finding neither of these quite what I expected I went into the Wall Street district in 1901 and took a position in a broker's office. Toward the end of 1902 I went to the firm of Millett, Roe & Hagen, bankers, now of 33 Wall Street, to which I was admitted as a partner on April 1, 1909.

Occupation	<i>Manufacturer cotton cloth.</i>
Address	<i>Fall River, Mass.</i>

After leaving college I was in the office of the Sagamore Manufacturing Company for six years; then I was for six years a member of the firm of Waring & Brayton, cotton and cloth brokers. In May, 1908, after the death of my father, I was elected to succeed him as treasurer of the Sagamore Manufacturing Company, a cotton cloth manufacturing corporation in Fall River. In the autumn of 1908 I commenced the construction of a new mill of fifty thousand spindles, increasing our production fifty per cent., so that, with one exception, we have the largest plant in Fall River. My daily work keeps me very busy, and I have held no public office nor written any books. I am a director in the Durfee Mills, and for many years have held the honorary office of clerk of the First Congregational Society. Besides the local clubs, I belong to the Merchants Club of New York.

Unmarried
Occupation *Clergyman (Episcopal).*
Address *Norwood, Mass.*

The previous Class reports have recorded all that is worth saying about my life up to the time of their publication. The first five years after graduation I spent in teaching and private tutoring, in the effort to evade the ministry. Then came three years of theological study in the Episcopal Theological School, Cambridge. After ordination, June 1, 1904, came two years as assistant in St. James Church, Roxbury, Mass., and two more in St. Stephen's Church, Lynn, Mass. On April 16, 1909, I undertook to develop the Episcopal Church in the town of Norwood, Mass., where it had just given promise of thriving, and have had the pleasure of seeing a dignified church building grow up under my efforts.

Life has been full of work and of satisfactions, but uneventful. There comes, I believe, more of a sense of relief than of disappointment in the realization which some day or other forces itself on most of us, that our biographies are not going to be written. Therefore, these scant materials will serve sufficiently when the Secretary comes to write my obituary.

EDWIN HACKER BROWN

Born *at Worcester, Mass., July 29, 1875.*
Parents *Edwin, Mariana Mifflin (Earle) Brown.*
School *Dalzell's School, Worcester, Mass.*
Years in College *Four.*

Admission Date	<i>June, 1892.</i>
Degrees	<i>A.B.; S.B., 1898 (Worcester Polytechnic Institute).</i>
Unmarried	
Occupation	<i>Architectural engineer.</i>
Address	<i>(business) care of Hewitt & Brown, 716 Fourth Ave. S., Minneapolis. (home) 2303 Pleasant Ave., Minneapolis.</i>

Two years after leaving Cambridge spent at Worcester Tech, graduating in second place in 1898. Taught Physics and Mathematics in the Worcester High School that year and in '99 went abroad as tutor to two boys.

Years of 1900, 1901, 1902, spent in engineering work at Nome, Alaska, returning east each winter. Admitted as junior member to American Society of Mechanical Engineers.

Winter of 1902-1903 spent in trip around the world. Summer and fall of 1903 spent in engineering work in Madrid, Spain, till an attack of inflammatory rheumatism forced a return to this country in January, 1904.

March of same year took me to Minneapolis, and remained there till following year when I again spent the summer in engineering work in Alaska.

From the fall of 1904 to date have lived in Minneapolis, and was lucky enough to be able to attend the Decennial.

After the first year in Minneapolis was in the Engineering Department of the Minneapolis Steel & Machinery Company, reaching position of assistant sales manager, till June, 1908.

At that time formed the partnership called Cadwell & Brown Company, which lasted till September, 1910, when I severed my connection with the business, which is being continued without me. During that time the work was sales engineering, and covered the designing and sale of steel for buildings, power machinery, power plants, heating and ventilating, etc.

In September, 1910, formed the partnership of Hewitt & Brown, architects and engineers, with Edwin H. Hewitt, an architect already well established in Minneapolis. I look after all the engineering end of the business, covering structural, mechanical, electrical, heating and ventilating, etc.

Am a member of the Minneapolis Club, and secretary of

the Minikahda Club. Also an enthusiastic member of the Harvard Club of Minnesota, and the Association of Harvard Engineers.

Married	<i>Rosa Flory, July 5, 1896, Union, Ohio.</i>
Children	<i>Heber Byron, Feb. 18, 1899; Granville Martin, March 10, 1901; Mark Flory, Jan. 26, 1904 (died Sept. 13, 1909); Mary Lois, Nov. 21, 1910.</i>
Occupation	<i>Examiner.</i>
Address	<i>(business) U.S. Patent Office, Washington, D.C. (home) 3001 16th St. N.E., Washington, D.C.</i>

The year following my graduation, 1896-1897, I taught Latin, Greek, and German at the Hillsboro Ohio High School. In 1897-1898 I traveled in Ohio, Connecticut, and Massachusetts in the interest of several business enterprises. October, 1898, found me in St. Louis, teaching Physics and Chemistry in Smith Academy where I remained two years. After leaving Smith Academy I remained in St. Louis another year engaged in business. In August, 1901, I entered the United States Patent Office as Fourth Assistant Examiner, where I have since been continuously employed. I became a First Assistant Examiner in July, 1910. The last six years I have been engaged in the printing, linotyping, and typesetting art.

Since 1902 I have been active in church and Sunday School work, having filled the offices of deacon, elder, and Sunday School Superintendent in the 34th Street Christian Church. I was president of our Citizens' Association in 1903, and vice-president of the Disciples' Union since 1908.

I am a member of the District of Columbia Bar, but have not actively engaged in the practice of law.

Occupation	<i>Vice-president and general manager Maryland Telephone Company.</i>
Address	<i>(business) Maryland Telephone Bldg., Baltimore, Md. (home) Havre de Grace, Md.</i>

The day after Commencement I entered the employ of the American Telephone and Telegraph Company, and except for an interval of one year I have been continuously in the service of the "Bell System" ever since. From 1897 to the present time I have had charge of the development of Bell Telephone Service in the State of Maryland, and for part of the time in the District of Columbia also.

For the past three years I have been farming on the side, on a two hundred and fifty-acre farm near Havre de Grace, Md. This is a locality famous for most of the good things to eat that Maryland prides herself on. Mint grows particularly succulent and fine on my land, and they do say that there is something about some of the water in the neighborhood that makes remarkably good Maryland rye. If any members of the Class ever thirst for juleps, as juleps ought to be, or hunger for the celery-fed canvas-back, or the incomparable shad, let them journey to Mt. Pleasant Farm, where they may be sure of the best brand of Southern hospitality we know how to put up.

Unmarried	

Occupation *Physician.*
Address *Millinocket, Me.*

In the fall of 1896 I entered the Harvard Medical School and graduated with the Class of 1900. In my senior year I received an appointment as house officer at the Children's Hospital, Boston. When this service ended in January, 1901, I came hither to Millinocket, Me., to attend such employees of the Great Northern Paper Company as might be injured, and to pursue a general practice. I am still doing both — a rather common-place existence, but not without its interesting and amusing experiences. I think that in this time my most important writing has been a contribution to the '96 Class Report in 1906. I am still unmarried — still holding the degree of Bachelor of 'Earts, so to speak.

Degrees	<i>A.B., 1895 (Albion), 1896 (Harvard); A.M., 1896 (Albion), 1898 (Harvard).</i>
Married	<i>Anna Louise Bacorn, Aug. 27, 1904, Cable, Mont.</i>
Children	<i>John Rutledge, Dec. 2, 1905.</i>
Occupation	<i>Superintendent Seybert Institution.</i>
Address	<i>1506 Arch St., Philadelphia, Pa.</i>

My work since leaving the University has been somewhat varied but all interesting. I went from the Graduate School in July, 1898, directly to the People's Church on the east side of New York City near Tompkins Square where I had charge of the men's and boys' club activities as well as some of the business management. In January, 1900, I was appointed secretary of the Cuban Orphan Society, an emergency organization formed by Mr. Charles Gould to do as much as possible toward ameliorating the condition of the children in Cuba made destitute by war and the policy of reconcentration. This work was turned over to the government of intervention as rapidly as was possible and in 1902 I became secretary of the New York County Committee of the State Charities Aid Association of which Homer Folks, 1890, was the moving spirit. From 1903 to 1906 I served as superintendent of inspection of the New York State Board of Charities having charge of that division of the board's work which supervised the activities of the charitable institutions of the State which were in receipt of public money. In the fall of 1900 I was offered and accepted the position of superintendent of the Seybert Institution of Philadelphia, whose headquarters are now at 1506 Arch Street, and organized in connection with the institution and two other prominent child-caring agencies, viz., the Children's Aid Society and the Society to Protect Children from Cruelty, the Children's Bureau, a joint agency designed to correlate and focus more effectively the work of the children's charities of the city. Among other activities the following might be mentioned:

Secretary, New York State Conference of Charities and Correction, 1906. Secretary, Children's Bureau of Philadelphia, Pa., 1907. Delegate to National Conferences of

Charities and Corrections, 1900 to 1910. Member White House Conference on Dependent Children, 1909.

At present I am living at the Children's Village, a department of the institution at Meadowbrook, Pa., where we have three hundred acres of land and a big bunch of children whom we are getting ready to be placed in family homes by the Children's Aid Society.

Occupation	<i>Production of sugar-cane and manufacture of raw sugars.</i>
Address	<i>(business) Prado 83, Habana, Cuba.</i> <i>(home) The American Club, Habana, Cuba.</i>

In the autumn of 1896 I went to the Isthmus of Tehuantepec, Mexico, to study the coffee industry with a view to investing. I returned in June, 1897, very ill with a chronic dysentery and was confined to my home in Dedham, Mass., till January, 1899, when I went to Bermuda on the recommendation of my physician. Here I spent the greater part of three years and finally recovered. In the fall of 1901 I came to Cuba and in 1902 I bought a tobacco farm and raised cigar-leaf tobacco till 1905, when I sold out and took up real estate. In 1907 I became interested in the sugar industry and since then have given most of my time to the study of the cultivation of sugar-cane, the manufacture of sugar, and especially to the general management of a sugar plantation.

Address	<i>(business) care of D.C. Heath & Co., 120 Boylston St., Boston, Mass.</i> <i>(home) 142 Maple St., West Roxbury, Mass.</i>

Shortly after leaving College I entered the employ of D. C. Heath & Co., publishers of text-books for schools and colleges, going to their New York office. After two years in New York I was transferred to their home office in Boston, where I have been ever since. I am at present at the head of their manufacturing department.

After returning to Boston in 1898 I resided in the city for about five years and then removed to Brookline, where I kept bachelor hall for about five years more.

In October, 1909, I married Miss Ida Grace Anderson of Dorchester, Mass., and since then we have made our home in West Roxbury, Mass., at Highland Station, where there is always a hearty welcome for my classmates of '96.

BEN EMERY BURNS

Born	<i>at Wilton, N.H., July 21, 1872.</i>
Parents	<i>Charles Henry, Sarah N. (Mills) Burns.</i>
School	<i>Phillips Exeter Academy.</i>
Years in College	<i>Two.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>LL.B., 1897 (Boston Univ.).</i>
Married	<i>Nina Isabel Herrick, Nov. 3, 1903, New Rochelle, N. Y.</i>

Children	<i>Arthur, Aug. 20, 1904; Ruth Herrick, April 8, 1906; Roger Mollison, July 16, 1908.</i>
Occupation	<i>Lawyer.</i>
Address	<i>(business) 77 Main St., Nashua, N.H. (home) 31 Concord St., Nashua, N.H.</i>

After graduating from the Phillips Exeter Academy in the Class of 1891, I entered Harvard University as a special student in the Class of 1896, and in the fall of 1894 entered Boston University Law School, from which I was graduated in 1897, and admitted to the Suffolk Bar the same year. I spent two years in the Boston office of Gen. E. R. Champlin. At the expiration of that period I went to Nashua, N.H., and became a partner in the law with my father, the late Hon. Charles H. Burns, the firm taking the name of Burns & Burns. I am still practising law in Nashua. I am at present one of the United States Commissioners for New Hampshire, a Republican in politics, and interested in political affairs. For a number of years I was a member of the University and New Hampshire Clubs of Boston. I am a communicant of the Episcopal Church, member of Rising Sun Lodge of Nashua, A.F. and A.M., and one of the Trustees of the City Guaranty Savings Bank of Nashua.

David Presbury Butler

Born	<i>at Boston, Mass., June 8, 1873.</i>
Parents	<i>David Presbury, Eleanor Loughton (Bisbee) Butler.</i>
School	<i>Boston Latin.</i>
Years in College	<i>Two.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>M.D., 1898 (Boston University).</i>
Married	<i>Margaret Helen McLeod, Nov. 4, 1908, Bridgewater, Mass.</i>
Occupation	<i>Physician.</i>
Died	<i>Oct. 14, 1910.</i>

Dr. Butler entered Harvard with the Class of '96. After two years left and entered Boston University School of Medicine. Here he was president of the athletic association and coach to the football team. He obtained his M.D. in 1898. The same year the Massachusetts State Sanatorium for the treatment of tuberculosis was opened at Rutland and

he was asked to take the position of house doctor. Here he remained for two years and three months, when he resigned to take up private practice among tuberculous patients outside of the sanatorium in the town of Rutland. He soon became chairman of the school board and for years until his death was secretary of the board of health.

Dr. Butler had a brilliant intellect and developed into a remarkably good physician. He had also to an unusual extent the faculty of pleasing and attracting patients and of inspiring in them the greatest confidence in himself. He had a keen insight into human nature, which enabled him to acquire a great influence over people. His manner was charming; of him it can be said that he was truly polite, because he was just as courteous and kind and ready to oblige among the poor and ignorant as among the rich and influential. He will long be missed by those who had learned to love his amiable personality.

Occupation	<i>Merchant.</i>
Address	<i>(business) 90 Tremont St., Boston. (home) 6 Norfolk Road, Chestnut Hill, Mass.</i>

Left Harvard in 1893 of necessity (financial) and entered my father's dry goods shop.

Next decade busy working. Outside of that, enveloped in the gloom of Boston's pessimists and decadents.

Last five years, chief interest in social economics. Specifically interested in the work of planning, organization and coöperation in business, and outside of that in removing the incubus of the "dead hand" from Boston, about whose present and future I am most optimistic (not the dead hand, but Boston).

President and treasurer, Wm. S. Butler & Co. department store (coöperative as to workers, stockholders, and consumer); treasurer, Gilchrist Company department store (coöperative as to workers and consumer); treasurer, Wm. H. Brine Company department store (coöperative as to consumer); treasurer, Merchants Legal Stamp Company, trading stamps (a coöperative corporation furnishing means of coöperation between retailer and consumer); director, Boston Chamber of Commerce; director, "Boston Common" (optimistic and constructive muckraking weekly, coöperative as to stockholders); treasurer, Massachusetts Direct Legislation League (initiative, referendum and recall); director, Boston, 1915.

As far as I know, I am not notorious for anything, except a certain disinclination for hard labor. I am actively engaged in the investment and loan business, which allows me to play golf about five days per week. So far I have avoided marriage, as it might interfere with the golf schedule. I live in Seattle because the climate permits golf every day in the year. Can't think of anything else of interest.

Children	<i>Bradford, Dec. 2, 1907; Wilma, April 23, 1909.</i>
Occupation	<i>Teacher and investigator.</i>
Address	<i>Harvard Medical School, Boston, Mass.</i>

Have continued in the Department of Physiology of the Harvard Medical School the research and teaching begun in 1900. Appointed George Higginson Professor of Physiology in the University in 1906. In addition to membership in societies mentioned in the last report, elected to membership in the Society for Experimental Biology and Medicine, the American Gastroenterological Association (now President), and the American Philosophical Society. For many years director of the Harvard Coöperative Society. Have been interested in the establishment and growth of the Milk and Baby Hygiene Association in Boston. Am now a member of the Council on Health and Public Instruction of the American Medical Association. Besides numerous papers on physiological subjects and in defence of medical research, published "A Laboratory Course in Physiology" in 1910, and have another volume in press, "The Mechanical Factors of Digestion" — a summary of investigation in the Harvard Physiological Laboratory during the past ten years, to appear in a series of International Medical Monographs.

September, 1896, to June, 1898, taught at Dummer Academy, South Byfield, Mass.; September, 1898, to June, 1899, studied at Harvard (Graduate School); September, 1899, to June, 1900, taught at Staten Island Academy

(mathematics); September, 1900, to June, 1905, taught at Dummer Academy ("entrance requirements," especially mathematics); September, 1905, to June, 1906, taught at Williams College (mathematics); October, 1906, until now, I have taught (mathematics) at the United States Naval Academy, Annapolis, Md. I came as a civilian instructor of the lowest grade, and was promoted during the year 1907-1908 to civilian instructor of the highest grade. This doesn't mean much, however; I believe it is generally considered equivalent to an assistant professorship in a college.

I have assisted the head of the department in the preparation of two text-books, and have collaborated with him in writing two others, algebra and calculus.

There is nothing else of importance except that the baby is beginning to get his back teeth, and raises Cain because he isn't allowed to smoke my cigarettes. Psychologists among you fellows will be interested to know that he has evolved out of his inner consciousness a declamation: "One, two, free, four, six!" [I suppose that must be the inference, no one in the family has taught him.] This seems either to prove the theory that 5 is the basis of computation of elementary intellects, or else to disprove it, I am not sure which. In either case, it is clearly very important evidence.

Children	<i>Paul Gilman, June 14, 1907; Arthur Carroll, Feb. 8, 1909.</i>
Occupation	<i>Attorney at law; Assistant Manager Adjustment Department Massachusetts Bonding and Insurance Company.</i>
Address	<i>(business) care of Massachusetts Bonding and Insurance Company, 77-85 State St., Boston, Mass. (home) 29 Hawes Ave., Dorchester, Mass.</i>

After pursuing my legal studies at the Harvard Law School and the Boston University Law School I was admitted as an attorney in Boston in 1898 where I practised law until 1905. In that year I accepted a proposition from the Travelers Insurance Company of Hartford, Conn., to become an attorney examiner at its home office. The company appointed me an attorney adjuster for Indiana and Kentucky, in which territory I had supervision of all cases in litigation. My office was in Indianapolis, but my work necessitated much traveling between the Great Lakes and the Tennessee border.

Resigned from this position in the fall of 1905 to accept post of assistant manager of Claim Department for the Frankfort Marine, Accident and Plate Glass Insurance Company, at its New York office. On Aug. 27, 1906, married Miss Ellen Constance Gilman, of Dorchester, Mass. Two children : Paul Gilman Carney born June 14, 1907, and Arthur Carroll Carney born Feb. 8, 1909.

In 1907 accepted a proposition made me by the New Amsterdam Casualty Company of New York, a material advancement in my chosen specialty. But the longing to return to my native city was ever present, until in March, 1909, I was offered the position I now hold, that of Assistant Manager Adjustment Department of the Massachusetts Bonding and Insurance Company at its home office in Boston.

It may add color to this rather prosaic recital to state that I have done something in a literary way, with slight success. My story, "His Silver Bachelorhood," was published in "Pearsons Magazine," and another, "The Unbeliever," has been accepted by the "Smart Set," in which magazine it will appear the coming year. In collaboration with Mr. DeMarco, of the University of Naples, I wrote a play, but it still awaits a generous manager.

Occupation	<i>Architect.</i>
Address	<i>1212 American Bank Bldg., Seattle, Wash.</i>

After graduation at Harvard he studied architecture at the Ecole des Beaux Arts, Paris, giving especial study during his last year to the French Exposition of 1900.

On his return to America he entered the office of Carrere and Hastings, as designer of their work for the Pan American Exposition and residences at Palm Beach, New York, and Newport.

In 1902 he went to St. Louis as assistant to E.L. Masqueray, chief of design of the Louisiana Purchase Exposition, in the execution of plans for the transportation and agricultural buildings, the cascade, terraces and general architectural treatment of the grounds.

On the termination of this work he took the civil service examinations for the position of designer in the office of the supervising architect at Washington, D.C., where he designed the Government building for the Lewis and Clark Exposition at Portland, Ore., and court houses and post offices in various sections of the country. Associated again with E.L. Masqueray he made the plans for the Roman Catholic Cathedral at St. Paul, Minn., and the Pro-Cathedral in Minneapolis.

In 1907 he entered the office of Howard and Galloway, San Francisco, and was in charge of their Seattle office as chief designer for the A.Y.P. Exposition.

In 1909 entered partnership with A. Warren Gould for the general practice of architecture with offices at 1212 American Bank Building, Seattle, Wash.

After several false starts I finally picked out the publishing business as best adapted to the refined and cultured nature which four years' contact with the other men of '96 had developed in me. Accordingly I selected Dodd, Mead & Co. as the victims thirteen years ago and they have stuck to me ever since.

I have tried my hand at the different branches of the business — manufacturing, selling, advertising, in fact about everything except bossing the job, and think I can explain to any classmate who has a book to offer, should any come this way, why there is no money in books — for the author.

Have had no degrees conferred upon me except D.A.D., and have written no books.

Recreations : golf, and trying to make money.

Address	<i>(business) 179 Lincoln St., Boston, Mass. (home) Concord, Mass.</i>

Soon after graduating from the Harvard Law School in 1899, I entered the office of Huntington and Rhinelander, in New York. A few months later I returned to Boston, and was for some time associated with James R. Carret, Esq., at 53 State Street, our practice consisting largely of conveying and probate work. In the fall of 1906 I severed my connection with Mr. Carret and have since devoted the greater part of my time to the service of the United Shoe Machinery Company, in whose behalf I have recently made an interesting and instructive trip to Brazil, Uruguay, the Argentine Republic, and Chile, which occupied some eight months.

I am happily married, have two growing children, and live quietly in Concord, Mass., as comfortably as one can on a limited income under the recently revised tariff laws of this country.

After graduation, I spent two years at the American School of Classical Studies at Athens and two years at the Harvard Graduate School. In 1900-01, I was Master in Greek and Latin at St. Mark's School, Southborough, Mass. Since September, 1901, I have been teaching at Harvard, as Instructor in Greek and Latin (1901-03), tutor in Greek (1903-04), Instructor in Classical Archæology (1904-06) and (since 1906) Assistant Professor of Classical Archæology. The summer of 1904 I spent in Greece and Italy, otherwise I have been out of Cambridge only for short periods. I have contributed articles and book reviews to several periodicals, especially the "Harvard Studies in Classical Philology," the "American Journal of Archæology," and the "Classical Journal," and have written one book, a "Catalogue of the Loeb Collection of Arretine Pottery" (New York, 1908). For the past two years I have been chairman of the Department of the Fine Arts and also of the Division of the Fine Arts; am one of the secretaries of the Archæological Institute of America, an editor of the "American Journal of Archæology" and of the "Classical Journal," and a member of the American Philological Association. I married, on June 20, 1908, Freedrica Mark, of Cambridge, Mass., and have one son, Thomas King Chase, born Sept. 15, 1909.

Occupation	<i>Cotton merchant.</i>
Address	<i>(business) 10 Post Office Sq., Boston, Mass. (home) Framingham, Mass.</i>

Upon leaving College I went into the office of the Carbon Electric Generator Company, where I stayed until the business was discontinued in the Summer of 1897. In November of that year, I started from Mattawa, Canada, overland for Hudson's Bay, with Copley Amory, returning in April, 1898. In October of that year I went to Galveston, Texas, as a junior partner in the cotton firm of Ladd & Co. In March, 1900, I discontinued with Ladd & Co. and went North and was married April 18 at Milton. That summer we spent in Europe. In the autumn I went into the office of Ingersoll, Amory & Co., cotton buyers. In 1901, F. B. Von Harten and I started the firm of Von Harten & Clark, cotton merchants, with headquarters at Galveston, Texas. In 1902 I was taken in as a partner of Ingersoll, Amory & Co.

The winter of 1900 we lived in Milton, going to Dover, Mass., in the spring, where we lived until the spring of 1904, when we went to Framingham, Mass., where we still are.

JOHN CALVIN LAWRENCE CLARK

Born	<i>at Harvard, Mass., Nov. 30, 1871.</i>
Parents	<i>Calvin, Annie M. (Lawrence) Clark.</i>
School	<i>Lancaster (Mass.) High School, New Church School, Waltham, Mass.</i>
Years in College	<i>Three.</i>
Admission Date	<i>September, 1892.</i>

Married	<i>Ethel May Savage, Feb. 28, 1901, Lancaster, Mass.</i>
Children	<i>Hugh Savage, Feb. 18, 1903.</i>
Occupation	<i>Genealogist.</i>
Address	<i>Lancaster, Mass.</i>

Since leaving College I have lived in Lancaster, Mass., but have traveled in this country, Canada, and the West Indies, and spent about five months in London, England, in 1905 and 1906. I have been town clerk of Lancaster and one of the trustees of the Lancaster Town Library for about ten years. More and more of my time has been devoted to genealogical research for other people, evidence of which may be seen in the Whitcomb, White, and Gershorn Flagg Genealogies; but I hope before long to be able to do more in independent historical writing.

Books: "Tom Moore in Bermuda: a Bit of Literary Gossip" (November, 1909); "The Almanacks and other Published Writings of Samuel Stearns, LL.D. (Aberdeen): a Preliminary List" (February, 1911).

PERCY HAMILTON CLARK

Born	<i>at Germantown, Pa., Aug. 17, 1873.</i>
Parents	<i>E. W., Mary T. (Sill) Clark.</i>
School	<i>De Lancey School, Philadelphia.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.; LL.B. (University of Pennsylvania).</i>
Married	<i>Elizabeth Williams Roberts, Oct. 15, 1904, Cynwyd, Pa.</i>
Children	<i>Miriam Roberts, Aug. 13, 1905; Mary Todhunter, June 17, 1907; Percy Hamilton, Aug. 27, 1908; George Roberts, Jan. 12, 1910.</i>
Occupation	<i>Attorney at law.</i>
Address	<i>(business) 321 Chestnut St., Philadelphia, Pa. (home) Cynwyd, Pa.</i>

In the fall of 1896 I commenced the study of law at the University of Pennsylvania, where I took my degree in 1899. In the fall of that year I became associated and still am associated in the practice of the law with my brother, J. S. Clark (Harvard, 1883). My practice is closely connected with the street railway, electric light and power busi-

ness of the several companies operated by Messrs. E. W. Clark & Co., of Philadelphia.

I still play cricket in the summer time, though I find it easier to get stiff and harder to get over it than it used to be. Squash once a week in winter helps to keep me in some sort of condition.

In 1904 I married Miss Elizabeth W. Roberts. We lived in Germantown, near my old home, for the first four years. After the death of my mother in 1908 we built a house at Cynwyd, just outside of the Philadelphia city limits, where we now live, close by Mrs. Clark's mother and Pencoyd, the old Roberts' homestead. We have a family of two fine girls and two fine boys, which we can prove to any member of the Class of 1896 who will drop in and try our welcome. The children are also on exhibition at Northeast Harbor in the summer time.

Occupation	<i>Passed Assistant Surgeon, U.S. Marine Hospital Service.</i>
Address	<i>Care of Surgeon General, United States Marine Hospital Service, Washington, D. C.</i>

I finished my term as house officer at the Carney Hospital, Boston, in April, 1901. Took competitive examination for appointment as First Lieutenant, United States Army Medical Corps (Regulars) in May, 1902, before a board in Washington examining one hundred and twenty-nine doctors. Came out first, making 983 out of a possible 1,000. With seventeen other successful candidates was commissioned First Lieutenant in United States Army in June, 1902. I was detailed to attend 1902-1903 session of the United States Army Medical School in Washington, graduated, and served mostly in artillery garrisons.

After successfully passing a competitive examination for commission in the United States Marine Hospital Service, I resigned from the army and accepted this commission in October, 1903. I served about five years in quarantine duties at Reedy Island, Del., and at Fort Monroe, Va. I was promoted to the grade of Passed Assistant Surgeon in June, 1908, passing first of the class examined for promotion. I was detailed at the United States Marine Hospital, Stapleton, Staten Island, N.Y., in June, 1909, and have served here since, having charge of the genito-urinary and surgical wards. In addition to the extensive surgical work here I have employed all my afternoons and evenings and my leaves of absence in special post-graduate instruction in eye and ear surgery at the New York Post Graduate Medical School and Hospital. I expect to continue specializing in surgery of the eye and ear. I am not married.

EDWIN HENRY COLPITTS

Born	<i>at Point de Bute, N.B., Canada, Jan. 19, 1872.</i>
Parents	<i>James W., Celia E. (Trueman) Colpitts.</i>
School	<i>Tutor.</i>
Years in College	<i>One.</i>
Admission Date	<i>September, 1895.</i>

Degrees	<i>A.B., A.M., 1897; A.B., 1893 (Mt. Allison College, Sackville, N.B.).</i>
Married	<i>Annie Dove Penney, Aug. 17, 1899, Carbonear, N.F.</i>
Children	<i>Donald Bethune, Sept. 30, 1900.</i>
Occupation	<i>Electrical engineer.</i>
Address	<i>(business) 463 West St., New York City, N. Y. (home) 138½ South Munn Ave., East Orange, N. J.</i>

After two and one-half years in the Graduate School of Harvard University I entered the engineering department of the American Bell Telephone Company. I remained with that company and with its successor, the American Telephone & Telegraph Company, until 1907. While with these companies my work was electrical engineering research in connection with telephone and telegraph problems.

In September, 1907, I entered the employ of the Western Electric Company, New York City, where I have during the past three years had charge of the Physical Laboratory Division of the Engineering Department. This division has to do with the electrical engineering of the engineering department and with mechanical engineering, in which physical considerations predominate over design features. This work calls for the employment at the present time of about thirty-five graduated electrical and mechanical engineers, which, with the laboratory assistants and office employees, brings the total staff of the Physical Laboratory up to about fifty members. On the staff of the laboratory are several men who have taken post-graduate courses and have advanced degrees A.M. and Ph.D. The union of scientific and practical work makes a pleasant and interesting combination with the one drawback that the results of real interest cannot be published.

HENRY SEYMOUR COLTON

Born	<i>at Calumet, Mich., Nov. 24, 1872.</i>
Parents	<i>Henry Roderick Seymour, Elizabeth (Pope) Colton.</i>
School	<i>Philips Exeter.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A. B.</i>

Married	<i>Helen Richards Williston, June 13, 1900; divorced November, 1909.</i>
Children	<i>Seymour, Feb. 24, 1901.</i>
Address	<i>(business) P. O. Box 113, Passaic, N.J. (home) 300 Gregory Ave., Passaic, N.J.</i>

After leaving College I taught school a short time. Then I studied law, but gave it up to enter as accountant in the Merchants and Miners Bank, Calumet, Mich., in whose employ I was three years. My health ran down and I had to give up business and receive the benefit of the life and treatment of a private sanatorium for a period of five years. Since then I have been living in Passaic, N.J.

Children	<i>Jeannette, Dec. 26, 1901; John Paine, Dec. 14, 1903; Alice, May 15, 1909.</i>
Occupation	<i>Farming.</i>
Address	<i>Lawrence, Kan., R. F. D. 9, "Conecroft."</i>

Taught Economics in University of Kansas, 1899-1910 as assistant and associate professor, when ill health forced resignation of position. I have just undergone an operation that promises to relieve or cure the severe digestive trouble that necessitated my resignation. But I shall, for the present, farm and shall not undertake any confining occupation.

JOHN THOMAS COOPER

Born	<i>at Parkersburg, W. Va., 1867.</i>
Parents	<i>John T., Louisa L. (Linn) Cooper.</i>

Occupation	<i>Real estate, etc.</i>
Address	<i>192 Broadway, New York, N. Y.</i>

Immediately after passing my last examination, in 1896, I was compelled by the death of my father to enter his office in New York, and take up the duties of executor of his estate, which included the management of various companies in which he had been largely interested. I was of course wholly inexperienced in business; the estate was heavily involved, and litigation sprang up like a field of mushrooms. After many years of hard work — which is harmless — and

worry which is *not*, we managed to settle the estate to the satisfaction of every one interested in it.

Meanwhile, the private banking company in which I succeeded to my father's interest, having used its credit and resources to the utmost for the benefit of our other interests, and having acquired in so doing a number of "slow" assets which tied us up, was forced to suspend in 1907. It is now reasonably certain that the creditors will be paid in full, but it is more certain that the undersigned will be ever free from the charge of being a malefactor of great wealth.

To sum up; ever since leaving College, I have been trying to practise "Conservatism," with, I must confess, not too glowing success. It has been a long, hard, and exhausting struggle; and the first real rest I found was when our bank went into the hands of a receiver. And, as its affairs are now in an encouraging condition, I am almost grateful for the fact that it did; I had had about enough.

One thing I have learned at least, that is worth much: the real kindness, sympathy, and charity one meets, not only from friends, but from total strangers, when one is in trouble. I could never again be a pessimist on human nature if I tried.

Recently I have bought a fruit orchard in Medford, Ore., and there I propose to start fresh, spending much of my time out there in pursuit of health, happiness, and a decent income, and coming East a few months in the year to see my friends. Because of this acquisition I shall be unable, to my very deep regret, to attend our Quindecennial. I can only send greetings, best wishes, and the promise on the occasion of our next gathering of a brighter report.

Years in College *Two.*
Admission Date *September, 1892.*
Unmarried
Occupation *Farmer.*
Address *(business) Lexington, Ky.*
(home) Maplehurst, Mt. Kisco, Westchester Co., N. Y.

Since leaving College I have been engaged in farming in New York and raising thoroughbred horses in Kentucky for the market. The thoroughbred horse business has been practically put out of commission through the interference of our late good and godly, gallery-playing Governor Hughes, but I still continue with a very much reduced stud.

I live here at Maplehurst on the farm where I was raised and hope I shall never have to change my address.

In the year 1911 I encountered a Class Secretary whose

efficiency and persistence are exceeded only by his patience and amiability.

There is really nothing to write. I have done nothing but practise law, and it is hardly worth while to write the things which I have not done.

Occupation	<i>Schoolmaster.</i>
Address	<i>Lakeville, Conn.</i>

After leaving College I spent two very pleasant years teaching school in California at Casa de Piedra and at Belmont. Then I came to Hotchkiss and taught for five years under that veteran schoolmaster Edward G. Coy. In 1905 I went to the Hill School in Pottstown, Pa., where I taught mathematics for two years. I returned to Hotchkiss in 1907, and now I feel like "staying put" for a while at least.

You will be glad to know that I am pretty well fixed in Lakeville, living on my own place, keeping a horse and a chicken yard, which annually nets me a small loss. But the enthusiastic farmer does not mind a little thing like that.

I have won two golf cups and a blue ribbon for black minorcas in a chicken show. This is all that I can say for myself, modest or not modest.

We are very firmly convinced that we are the parents of two very remarkable children. At first we hoped they were, soon we felt fairly sure they were, and, finally, we cast all modesty to the winds. Now we know they are very remarkable. Grandmothers, relatives and friends all agree with us. The boy is entered for Hotchkiss in the Class of 1927, and, so far as we can see at present, the entire Hotchkiss Class of 1927 will go to Harvard.

My wife is a graduate of the University of Michigan, and in all her college reports, etc., I figure as Helen Douglas Creelman's husband. Truly, I don't like it. I feel rather stifled and want to cry out "votes for men." I dare say

I am unreasonable in this, and I don't suppose we can do anything about it. Only please don't say anything more than to mention her emphatically as *my wife*. That will help some.

Those who lacked foresight to provide themselves with very rich fathers or wives or so misdirected their talents and advantages of a liberal education as to spend them on such matters as science, art, and literature should not complain if they have little of interest (at interest) to report.

Success used to be, according to Balzac, "Nothing but a good idea coupled with hard work." While I might have qualified in those days we all know that "success" is a very different matter in A.D. 1911. By a series of incidents my best work is at Harvard, in which line she at present holds the leadership in the country.

Having been much among mountains, volcanoes, and coral reefs, my predilection for lone sailing of the sea asserted itself last summer in a cruise singlehanded in the 40-foot yawl "Otaneanu" from Portland to Sydney, Cape Breton; '96 men at Portland Harbor saw us start.

I observe that the game of La-crosse which James A. Leighton and the author put on its feet in the colleges in 1895 has grown and flourished. As an all around game it has not an equal, and it is better adapted for college sport than football.

The late Dr. Gulliver, exhorting the agrarians from the court house steps in Lilliput, remarked: "Whoever can make two ears of corn grow where only one grew deserves better of mankind than the whole race of politicians put together." The above-mentioned semi-alumnus having slipped a straw into the public treasury via the bunghole of legislative office and having been jerked away (kicking vigorously) by a cold-hearted constituency has prudently taken Hon. Gulliver's advice and retired to the corn-fields where he is wearing an old hat, flinging away ambition with reckless abandon (like-wise his scanty income), dreaming of fair women, dodging devil-wagons (and duns), on rainy days nibbling at the edges of the literary cheese and thus, with fist full of salt, he patiently pursues the Blue Bird. Incidentally he has succeeded in raising two ears of corn where six grew before.

Occupation	<i>Clergyman, Dean of All Saints' Cathedral.</i>
Address	<i>637 Marshall St., Milwaukee, Wis.</i>

I prepared for the priesthood of the Episcopal Church at the Western Theological Seminary, Chicago. The course was three years, 1896–1899. I was ordained deacon in 1899, and priest later in the same year. My first work was as

assistant at St. John's Church, Roxbury, Mass., from September, 1899, to May, 1900. I then returned West and worked as vicar of St. Stephen's, Menasha, Wis., 1900-1902. I was rector of All Saint's, Appleton, 1902-1907. While there I directed the building of a new stone church. From May, 1907, till the present time I have been dean of All Saints' Cathedral, Milwaukee. Besides my church work, I am implicated in many progressive civic and philanthropic activities, and have written several series of articles and Saturday evening sermons for the local papers. I have written two books, "Difficulties of Faith," and "The Ideal of Christian Worship." These have been published by the Young Churchman Company of Milwaukee. I have also written a good many articles for church periodicals, and a few for the secular magazines.

I am President of the Milwaukee Clericus, Examining Chaplain of the Diocese, Member of the Diocesan Social Service Commission, Warden of the Guild of All Souls, Director of the Middle Western Province of the Confraternity of the Blessed Sacrament, Chairman of the East Side Housing Committee of the Central Council of Philanthropies.

I belong to the Harvard Club, the University Club, the Town Club, the Church Club, the City Club of Milwaukee, and the University Club of Chicago.

Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.; LL.B., 1900.</i>
Unmarried	
Occupation	<i>Lawyer.</i>
Address	<i>Department of Justice, Washington, D.C.</i>

My first year out of college I spent abroad. Then I went through the Harvard Law School, graduating in 1900. The next six years I worked as a law clerk for one of the large New York firms — Stetson, Jennings & Russell.

Since 1906 I have been in the government law service, first as an assistant United States attorney in New York, then as a special assistant to the Attorney General in the customs frauds cases, and now as a regular assistant attorney general.

In February of this year I was seized with a violent case of typhoid fever, from which I am only now (in May) convalescing. This is why I cannot come to the Quindecennial.

Entered Harvard Medical School in autumn following graduation. Received M.D. in June, 1900. Entered Massachusetts General Hospital as surgical house pupil in April, 1900, and graduated therefrom on July 31, 1901. Married August 5 and shortly afterward sailed for Europe, where I remained for two years studying medicine and chiefly the diseases of the eye. Returned to Boston October, 1903, and started in private practice.

Soon became connected with the Carney Hospital, the Massachusetts Charitable Eye and Ear Infirmary, and St. Elizabeth's Hospital. Resigned from latter institution after three years of service. Am now ophthalmic surgeon to the Carney Hospital, junior assistant ophthalmic surgeon Massachusetts Charitable Eye and Ear Infirmary. Also serve on the Advisory Committee to the Massachusetts Commission for the Blind.

In 1907, in company with our Class treasurer, served on a committee appointed by the Boston School Committee to investigate lighting in the public schools.

Am the author of a few unimportant contributions to medicine.

Occupation	<i>Lemon grower.</i>
Address	<i>441 North Painter Ave., Whittier, Cal.</i>

In July, 1896, entered the Bureau of Soils of the United States Department of Agriculture. Held various positions in the Bureau until 1902, when I went to Manila to start a series of soils investigations for the Philippine Bureau of Agriculture.

Returned to United States in 1903 and resumed my work in the Department of Agriculture. Traveled extensively in this country, far more than I preferred as a matter of fact, so surrendered my position as head of the Soil Survey work in July, 1909, to engage in citrus culture in southern California. Purchased a lemon ranch in the East Whittier district in the fall of 1909 and thanks to the better tariff on lemons and a shortage in the Sicilian crops have no reason to complain of my venture.

While with the Government I had to write innumerable bulletins on soils, alkali, etc., but now, thank goodness, I have no time for such rubbish, but am more deeply concerned with lemon quotations, formulas for fumigation and fertilizers warranted to make lemon trees blossom every minute in the year.

You ask me to write a connective narrative of my doings since I left Harvard. Were I to do this you would indeed think me a fit subject for the insane asylum, as my post-Harvard life has been anything but connected. Have wandered from place to place, Providence being my first stop. Sojourned there for six to eight months and then passed on to Newark, N.J., where I was one of the charter members of the Harvard Club of New Jersey. About five years ago jumped over to New York where I hope I have finally settled down to practise my profession (M.D.). I have written nothing but prescriptions and trust all have not failed to do some good.

About the time of the Decennial I was assisting in the operation of a mine in Boulder County, Colorado. From there I went to Portland and Seattle, where I saw Rodman and Folsom in all their glory.

I did a little surveying for the Oregon & Washington Railroad between Tacoma and Portland, and then steamed for San Francisco.

After hunting through the ruins a while, I found Dick Codman, Ed. McCarthy, Frank Griffin, and Harry Dibblee, variously engaged in the work of reconstruction. I took a hand in the game for a while and then went over to Tonopah and Goldfield, Nev., for a few days and returned to San Francisco. The summer of 1909 I was with Griffin's famous Natomas Consolidated Company, and about a year ago I

came south to Yuma, Ariz., on a survey for the Southern Pacific Railroad Company and reached Los Angeles last April.

I have attended several Harvard dinners on the Pacific coast and beg leave to observe that there is room for more '96 men in this part of the country.

While in College I had no particular intention of studying medicine. I came back to Cambridge in the autumn and registered in the Graduate School. After two days, as I did

not seem to have any definite end in view, I transferred to the Medical School. Although this change was the result of a sudden impulse, I never regretted it.

Feb. 1, 1900, I began my service as House Officer at the Massachusetts General Hospital. I received my M.D. the following June. My service at the hospital ended Aug. 1, 1901. In September I went to Europe, and after a few months of travel, settled down in Vienna, where I studied in the hospitals till August, 1902. I then came back, and started to practise in Boston. I then decided to devote myself to the diseases of children as a specialty, and went to the Children's Hospital as House Officer from Jan. 1, 1903, till July 1, 1903. In 1903 I was appointed Assistant Physician to the Children's Hospital, and Assistant Physician to the Infants' Hospital, which positions I still hold. I was also appointed Assistant in Pediatrics in the Harvard Medical School, and later my title was raised to Clinical Instructor in Pediatrics, which position I now hold. I have also been appointed Pathologist to the Infants' Hospital, and a director of this institution.

I belong to a lot of medical societies, of one of which, the American Pediatric Society, I am Treasurer.

I have written no books, only a lot of medical papers. I did write part of a book, as I was one of the contributors to "Hare's Modern Treatment," just published, for which I wrote the article on cerebrospinal meningitis.

For the last five years I have been practising medicine in Boston. My time is occupied by my practice, by my teaching in the Medical School, and by my hospital work.

Unfortunately, I am not married. A considerable part of my time, however, is taken up by the medical care of the babies of some of my classmates.

With the exception of fifteen months of study and travel abroad my entire time since graduation at Harvard has been given to teaching. (Save the mark!) For three years I served my apprenticeship as an assistant teacher of numerous subjects, the usual lot of a beginner, then came to my own as principal for eleven years. My service has been varied, covering both the classical and the manual training high schools, and ranged, geographically speaking, from Maine to Michigan. Principals are always in great demand as "officers" in all "Teachers' Associations" and "Societies," and so it came my turn to serve as vice-president of the Kennebec Teachers' Association, president of the New Jersey High School Teachers' Association, and at present vice-president of the Schoolmaster's Association of New York and vicinity. If I live through our "15th" I shall probably be president. Off and on the public platform has my voice been lifted high in vigorous protest against the domination of the Secondary School by the College, and at last the victory is won. Occasional articles contributed to the local press have shown that I was still in the field. It has been my misfortune to live in the enemy's country most of the time where Harvard spirit was in a "minority," but in every case it made up in quality what it lacked in quantity.

One of the great facts, however, is this, that no place is too small or too remote to have *sane* Harvard blood in it, a statement one cannot make of every college or university. And wherever you find Harvard men there you find a real nucleus of power. There is a respectable number of us here in Montclair, N.J., and the number is constantly growing.

Occupation	<i>Lumber manufacturer.</i>
Address	<i>Winnipeg, Canada.</i>

After graduation from the Harvard Law School in 1898 I entered the law office of Matz, Fisher and Boyden in Chicago and was admitted to practice of law in Illinois in the fall of that year. Then entered the office of Hamline, Scott & Lord in that city, where I remained until the summer of 1900, when the death of my father necessitated my removal to Sycamore, Ill., where I remained until 1903, when I removed to Winnipeg, Canada, to look after timber interests in western Canada. Was secretary-treasurer and managing director of the Red Deer Lumber Company and the Elk Lumber and Manufacturing Company Mills operating in northern Saskatchewan and British Columbia until 1906, when my interests in these companies were sold. Since that time have been and am now engaged in the manufacture of lumber products under the name of the Great West Lumber Company with mills in Saskatchewan and in the establishment and operation of a line of retail lumber yards through western Canada by the Dutton-Wall Lumber Company of which I am president. Am also president of the Co-operative Investors, Limited, organized to buy and sell real estate, timber, etc., and to deal in securities covering same.

I spent two years studying in the University of Berlin, in the Ecole de Droits, Paris, and at Oxford ; traveling during

vacations. On my return in 1898 I entered the Law School and was admitted to practice in Illinois in 1901. I entered the office of W. W. Gurley of Chicago in 1899 and I am now his partner. The last five years have been just ordinary years of hard work in Chicago traction receiverships, etc., interesting and helpful to me, but of not much interest to you others of the Class.

Address	<i>(business) Yonkers, N. Y. (home) Atlantic, Mass.</i>

Industrial education in the public schools has occupied the greater part of my time and attention since the College lost control of my actions. During this time I have helped to establish the following schools: Philippine School of Arts and Trades, Manila, P. I.; Ludlow Textile School, Ludlow, Mass.; Saunders Trades School, Yonkers, N. Y.

In succession I became superintendent of the first, director of the second, and principal of the third, and am occupying the latter position at present.

In 1908 I wrote and published the "Ludlow Textile Arithmetic."

Married	<i>Lucy Frances Baker, Feb. 21, 1906, Dunham, P. Q.</i>
Occupation	<i>Consulting engineer.</i>
Address	<i>702 Builder's Exchange, Winnipeg, Manitoba.</i>

I opened an office in Winnipeg in May, 1910, as a consulting engineer covering structural engineering — electric and steam power work.

Everything has been going along even better than I expected — plenty of work and the most satisfactory kind of people to deal with. Working on a salary for a corporation is not all sunshine even if there are a few cloudy days when there is no regular pay day.

There have been no books written, no offices of honor or trust held and the outlook for that sort of thing is dull. If things work out satisfactorily I may wander into contracting.

Born	<i>at Newburgh, N. Y., Jan. 10, 1878.</i>
Parents	<i>Smith, Gertrude (Hardy) Ely.</i>
School	<i>St. Paul's School, Garden City, L. I.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A. B. ; LL. B., 1900.</i>
Unmarried	
Occupation	<i>Lawyer.</i>
Address	<i>2 Rector St., New York City.</i>

After graduation I spent one year in wholesale dry goods with A. G. Hyde & Sons. In the fall of 1897 I returned to the Law School and graduated in 1900. Then I entered the office of Gould & Wilkie and remained with them until the spring of 1906, when I left and was associated for one year with Mr. Willard Mitchell. In May, 1907, I entered into partnership with Mr. Charles Fuller under the firm name of Ely & Fuller with offices at No. 2 Rector Street, where we are still.

Years in College	<i>Three.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A. B. ; M. D. and A. M., 1899 (Columbia).</i>
Married	<i>Grace Parrish, June 15, 1901, Radnor, Pa.</i>

Children	<i>Ethel, May 24, 1902 ; Robert, Nov. 4, 1903 ; John Haven, Feb. 5, 1906 ; Ruth, Oct. 20, 1910.</i>
Occupation	<i>Physician and teacher.</i>
Address	<i>120 East 62d St., New York City.</i>

After graduating in medicine and with my A.M. degree at Columbia in 1899, I spent two years in resident hospital work at Bellevue Hospital in New York City.

After my marriage I traveled and studied abroad until December, when I established a home in New York and have been blessed with four children. Since 1902 I have taught in the department of physiology at the College of Physicians and Surgeons of Columbia University, and since 1906 in the department of medicine. From 1906 to 1909 I offered something of an innovation in the form of a course in experimental medicine to graduated physicians. This met with some approval and seems likely to serve as a small beginning of what should be provided as a post-graduate university course in advanced medical studies for practitioners of medicine and surgery.

Having served apprenticeship in various dispensaries in general medicine, children's diseases and tuberculosis and at Seton Hospital as visiting physician, I am now enjoying one of the most wonderful services in this country as assistant visiting physician at Bellevue Hospital, New York City.

Research work in general medical and in physiological subjects has resulted in my writing various articles in the medical journals to the number of nine and the titles would hardly interest any one enough to add to this screed.

Membership in societies is unavoidable if one would share in the privileges of medical advance and I have held office in several. The Interurban Clinical Club, the American Society for Advancement of Clinical Research, the American Medical Association are of more than local importance. The Harvey Society, the Society for Experimental Medicine and Biology, the Academy of Medicine and the Society of Internal Medicine have a membership chiefly local.

The practice of medicine is a continuing and engrossing pleasure, the privilege of assisting in the prevention of

disease being granted in an increasing proportion to the physician of this generation.

In 1908 I was on the sick list at Saranac Lake for some months and in 1909 I was on crutches for three months, but I believe I am immune to most of the troubles that city dwellers suffer from and the pleasure of life is surely no less than it was in the priceless days at College.

Just at present the demands of committees on public health matters and duties as editor of the Harvey Society lectures, and as member of a building committee of the Academy of Medicine make the days seem unusually short. The fun of finding one is really useful in the game makes excusable a fourteen-hour work-day, and New York is a first-rate place to put in a day's work.

With apologies for my garrulity.

Parents	<i>William Hartwell, Emma S. (Thompson) Eveleth.</i>
School	<i>Cambridge High School.</i>
Years in College	<i>1891-93, 1894-96.</i>
Admission Date	<i>September, 1891.</i>
Degrees	<i>S.B.</i>
Married	<i>Katherine Chamberlain, Sept. 26, 1906.</i>
Occupation	<i>Telephone engineer.</i>
Address	<i>(business) 15 Dey St., New York City.</i> <i>(home) 140 Claremont Ave., New York City.</i>

My work since graduation has been in the telephone field and covers the period of that industrious, wonderful growth and development.

My first important work with the American Telephone and Telegraph Company, after two years of study and apprenticeship in the Boston and Providence offices, was the installation of the first common battery type of telephone exchange, at Springfield, Mass. The following year I was called to New York, and acted as assistant general inspector for three years. I afterwards entered the engineering department of the company in New York and had charge of power plant design and of development studies.

The last five years has been devoted largely to work as transmission engineer of the plant department of the company. This work involves problems of transmission over loaded lines, phantom circuits, and through long underground cables such as are being placed between Boston and New York, and New York and Washington.

Married	<i>Charlotte Elizabeth Houston, Sept. 27, 1898, Cornish, N.H.</i>
Children	<i>Frances, July 22, 1899; Charles Nelson, 2d, June 3, 1901 (died Oct. 20, 1907); John Cummings, Jr., July 28, 1906; Charlotte Elizabeth, April 22, 1908.</i>
Occupation	<i>Stock broker.</i>
Address	<i>(business) 53 State St., Boston, Mass. (home) care of Tennis and Racquet Club, Boston, Mass.</i>

After leaving College spent the summer at the Medical School where I got my one and only A. Coached the University of Illinois football team in the fall of 1896 and then returned to Boston where I went into the office of J. Murray Howe & Bradlee, real estate brokers. In 1902 my present firm was formed (Sargent & Fairchild), and I have been a stock broker ever since. My life has been uneventful. I have written no books. Since leaving College I have lived first in Boston, then Milton, and now in Dedham. I have put on a little weight and my friends tell me that my hair is a little thinner than it used to be — but it is not as bad as some that I could mention.

Physician.

(business) Sheppard-Pratt Hospital, Baltimore, Md.

(home) Johns Hopkins University, Baltimore, Md.

A friend once remarked to me, "Do you know, I fancy a man who sticks long in your specialty (psychiatry) eventually gets a little queer himself, — if, indeed," he added quietly, "he's not a little queer to begin with." Be that as it may, the demand for the specialty doesn't appear to be appreciably diminishing, and some time ago the above mentioned friend came under treatment. He hadn't touched wood.

The whole question may be roughly resolved in the following elegant adaptation :

Wer liebt zu viel, Wein, Weib, und Gott,
Den macht der Wahnsinn gern zum Spott.

Wherefore, there are no sociologic data to add to my last class report.

The fifteen years since leaving College include a medical course begun at Harvard and completed at Johns Hopkins, two years' study abroad, two years as research assistant in the Carnegie Institution of Washington, nine years' hospital practice, six years teaching psychiatry.

My official positions at present are : associate in psychiatry, Johns Hopkins University ; examining physician, City Detention Hospital ; member of the house staff, Sheppard-Pratt Hospital.

Parents	<i>Edward Allen, Mary (Bradshaw) Fay.</i>
School	<i>Washington High School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B. ; Ph.D., 1900.</i>
Married	<i>Sarah Proctor, Aug. 17, 1904, Hanover, N.H.</i>
Children	<i>Dorothy Adams, May 20, 1905 ; Laura Bradshaw, Nov. 22, 1906.</i>
Occupation	<i>Professor of Modern European History in Dartmouth College.</i>
Address	<i>Hanover, N.H.</i>

After graduation in '96 I continued a couple of years' study in the Graduate School. After a couple of more years of graduate study in Paris, Berlin, and Rome I returned to Harvard and gave instruction as a Teaching Fellow in History. In 1902 I accepted an Assistant Professorship of History at Dartmouth College, and have taught there the last seven years. In the course of the last five years I have married, have a couple of children, and built me a house at Dartmouth.

As an undergraduate I had always regarded a professor old enough to be on a sabbatical year's leave of absence as a very venerable being ; but I now find myself in that pleasant position and do not feel particularly ancient. I am taking advantage of the rest from teaching to collect material in the libraries and archives of Germany for a biography of the "Great Elector of Brandenburg" whom zealous disciples of Professor MacVane will recognize as the Prussian contemporary of Louis XIV. Aside from this my writing has been confined to occasional articles and reviews in the "American Historical Review" and the "Nation."

LOUIS ALEXANDER FREEDMAN

Born	<i>at Butrymanzy, Russia, Jan. 20, 1873.</i>
Parents	<i>David, Rachel (Esner) Freedman.</i>
School	<i>Boston Latin School.</i>
Years in College	<i>Two.</i>
Admission Date	<i>September, 1894.</i>
Degrees	<i>A.B.; Ph.D., 1902 (Strasburg, Germany).</i>
Married	<i>Marguerite Carrière, June, 1904, New York City.</i>
Occupation	<i>Correspondent.</i>
Address	<i>(business) 38 Broad St., New York City.</i> <i>(home) 202 W. 78th St., New York City.</i>

A few weeks after graduation I sailed for Germany, there to complete my studies in philosophy. I first went to Berlin, there spending two semesters, then to Munich for three semesters, finally to Strasburg (Alsace) where I stayed till 1902, there taking my doctor's degree in May. I returned home in July and spent the academic year 1902-3 at Harvard doing psychological research work; in the latter half of the year I gave a series of lectures on "Modern Aesthetic," as "licensed lecturer."

In 1903 I came to New York intending to devote myself to philanthropic work, but after six months abandoned this field to go into business. Several years of experimenting followed; in 1906 I entered the employ of a stock broker with whom I am still.

Apart from my doctor's thesis (and a few newspaper and magazine articles which do not need mention) I have not published anything.

Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.; LL.B., 1899.</i>
Married	<i>Mary Colman Harris, June 7, 1900, Brookline, Mass.</i>
Children	<i>Henry H., Jr., Sept. 16, 1901; Anna Hayden, Oct. 6, 1902; Marjorie Washburn, Oct. 22, 1907.</i>
Occupation	<i>Lawyer.</i>
Address	<i>(business) 910 Barristers Hall, Boston. (home) Lancaster, Mass.</i>

Owing to certain ambitions in the direction of the law it was not until 1899 that I separated myself from a sorrowing university. Immediately thereafter I entered the office of Hon. Herbert Parker at Worcester, and practised on his clients there until, in 1905, he thought it safer to bring me to his Boston office. By reason of the fact that the service on the B. & M. R.R. has been materially improved since our Secretary left it, I retain my residence at Lancaster, where I have served in various town offices, particularly those of "honor or trust" *without* emolument. Such offices I believe I have filled with no more than the customary amount of reproach and obloquy. My present occupation is the law, which I pursue as diligently as a college-trained appetite for recreation permits. I have written no books nor made any other serious mistakes except to attempt to redeem a legislative district last fall. For my sins I am now chairman of the house committee of the Boston City Club, otherwise I am well and happy.

JOHN ALLYNE GADE

Born	<i>at Cambridge, Mass., Feb. 10, 1875.</i>
Parents	<i>Gerhard, Helen Rebecca (Allyn) Gade.</i>
School	<i>In various European countries.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>S.B.</i>
Married	<i>Ruth Sibley, Nov. 18, 1907, Rochester, N. Y.</i>

Children	<i>Fredrik Herman, 2d, Aug. 28, 1908; Margaret Sibley, Oct. 18, 1910.</i>
Occupation	<i>Architect.</i>
Address	<i>15 West 38th St., New York City.</i>

After graduation I spent an additional year at Cambridge, teaching in the Harvard Architectural School. This was followed by four years in Messrs. McKim, Mead & White's office, whereupon I became a partner in the firm of Foster, Gade & Graham, which has now been practising architecture for ten years in New York City. I married Ruth Sibley of Rochester, N.Y., in the fall of 1907, and have a son and a daughter. We spend our longer vacations in my Norwegian home, generally traveling on the way over or back through the southern European countries. I have been especially interested in the cathedrals of Spain, and have as a result of my studies published "Cathedrals of Spain" (Houghton, Mifflin & Co.). The King of Norway on his last birthday decorated me with the Order of St. Olaf, of which my father during his life time was a knight.

Children	<i>William Franklin, Aug. 12, 1900; Natalie, June 23, 1904.</i>
Occupation	<i>Teacher.</i>
Address	<i>(business) High School of Commerce, Boston, Mass. (home) 14 Park Lane, Jamaica Plain, Mass.</i>

The fifteen years since graduation I have spent in educational work. Private school, endowed academy, and public high school have given me a chance to view the problem from different standpoints. Three years in the English High School and four in the High School of Commerce have brought me closely in touch with vocational education; and

I expect that the future will find me more closely allied with the movement for commercial and industrial education.

Besides my regular position as head of the department of English in the High School of Commerce, I have been secretary of the Boston School Men's Club, and president of the Boston High School Masters' Club. In addition, other organizations have, of course, trespassed upon Saturdays and holidays, — all of them with the specious plea that they exist for our educational welfare.

GEORGE BARKER GAVIN

Born	<i>at Quincy, Mass., June 28, 1875.</i>
Parents	<i>Patrick H., Margaret (Mundy) Gavin.</i>
School	<i>Adams Academy, Quincy, Mass.</i>

FRANK SAWYER GILKEY

Born	<i>at Watertown, Mass., June 21, 1874.</i>
Parents	<i>R. Frank, Lucy Mary (Fox) Gilkey.</i>
School	<i>Watertown High School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Unmarried	
Occupation	<i>Vice-principal of the Medford High School.</i>
Address	<i>19 Emerson St., Medford, Mass.</i>

During my first year out of College I taught at "Cloyne House," a private school in Newport, R.I. I did not enjoy

the nurse-girl part of my duties and was glad enough to receive in September, 1897, an appointment at the High School in Medford, Mass., where there was quite a colony of Harvard men. In February, 1903, I was made master of Grade XII., because at this time I was wanted as submaster in Quincy and did not accept the appointment there. In October, 1905, owing to an attractive call to Cambridge, I was made vice-principal in Medford and I still hold this position. More recently in connection with my regular work I have been making three or four hundred lantern slides, which I have used to good advantage with my classes. Beside, I still have the directing of the school orchestra. Outside of school I have been chiefly interested in music and have put much of my spare time into the study of the 'cello. I have also taken two courses at Harvard, one in education and the other an advanced course of great value and inspiration with Professor White in Greek Private Life. My subjects in school are Latin and Greek, and beside German, which I took up this year for the sake of further study.

HOWARD FRANK GILLETTE

Alfred Henry Gould

Born	<i>at Medfield, Mass., Dec. 6, 1872.</i>
Parents	<i>John Henry, Abigail B. (Stevens) Gould.</i>
School	<i>Boston Latin School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A. B. ; M. D., 1900.</i>
Unmarried	
Occupation	<i>Physician.</i>
Died	<i>Oct. 2, 1907.</i>

Dr. Alfred H. Gould died Oct. 2, 1907, after an illness of about one week of an acute infection. He was born in Medfield, Mass., and was thirty-four years old at the time of his death. He graduated from the Harvard Medical School in 1900 and thereafter served as a surgical house officer at the Massachusetts General Hospital. After leaving that institution he devoted much time to work in the laboratory and to experimental research on surgical subjects. The main result of his industry was a volume entitled "The Technic of Operations upon the Intestines and Stomach," published in 1906. He had recently been appointed an assistant in surgery in the Harvard Medical School and gave high promise of a success-

ful surgical career. Through the book just mentioned he was coming to be widely known, and his course given at the Medical School on operative technic was sought by many practitioners, particularly those connected with the United States Navy. In his death the medical profession loses an industrious student, a teacher of promise, and a man from whom much might have been expected in the future.

The following are Gould's positions and publications: Surgical house officer, Massachusetts General Hospital, 1900-1902; assistant in clinical and operative surgery, Harvard Medical School, 1902-1903; accident room surgeon, Massachusetts General Hospital, 1902-1903; district physician, Boston Dispensary, 1904-1906; assistant in surgery, Harvard Medical School, 1907-1908. Publications: "Two Cases of Complete Bilateral Duplication of the Ureter," "American Journal of Medical Sciences," 1902; "A Case of Malignant Œdema," "Annals of Surgery," 1903; "Coagulation Time of the Blood, 600 Observations," with F. T. Murphy, "Boston Medical and Surgical Journal," 1903; a series of four articles on "Improved Gastro-Intestinal Technic," in "Boston Medical and Surgical Journal," 1903-1904; "A Clinical and Experimental Study of the Segmented Ring," with F. B. Harrington, "Annals of Surgery," 1904; "The Technic of Operations upon the Intestines and the Stomach," published by W. B. Saunders Company, 1906 (L. G. M.).

Unmarried	
Occupation	<i>Lawyer.</i>
Address	<i>(business) 78 Bedford St., Fall River, Mass. (home) 716 Broadway, Fall River, Mass.</i>

After a few months as a traveling salesman entered the service of the Fall River "Daily News" in 1897; after a year and a half went to the Fall River "Herald" in September, 1898; was with that paper till the fall of 1902 when I entered the Harvard Law School. Elected a member of the editorial board of the Harvard "Law Review" in the third year. Was graduated *cum laude* in 1905. Admitted to the Massachusetts Bar in summer of 1905. Entered the office of Hugo A. Dubuque, city solicitor of Fall River that fall and stayed with him until April, 1907, when I formed a partnership with

William E. Fuller, Jr., under the firm name of Fuller & Gray. Am still practising law with Mr. Fuller.

Was elected an alderman-at-large at the municipal election in December, 1908, for a two-year term. Renominated and reëlected without opposition in December, 1910. This term I shall have for a colleague our classmate, Israel Brayton. Am secretary of the Harvard Club of Fall River, clerk of the Unitarian Society in Fall River, superintendent of the Unitarian Sunday School, vice-president of the Channing Conference Sunday School Union. Was president of the High School Alumni in 1909.

MELVIN GREEN

Born	<i>at Louisville, Ky., Sept. 19, 1872.</i>

School	<i>Exeter.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B. ; LL.B., 1899.</i>
Married	<i>Louisa R. G. Meigs, Nov. 22, 1900.</i>
Children	<i>Montgomery M., March 18, 1910.</i>
Occupation	<i>Fruit grower.</i>
Address	<i>Winchester, Va.</i>

After leaving the Law School I was in a New York law office for a year, but found the pace too hot for the amount of nervous strength I had by me. So after some travel I bought a place in the Shenandoah Valley of Virginia, and since then have spent eight months of each year in living on it and developing it as a commercial apple orchard, and the four months of winter in trips abroad or to various parts of this hemisphere. I can recommend such a combination to any one who finds his zest in life on the wane. My orchard of eight thousand trees has thriven well and has just commenced to produce largely.

JEROME DAVIS GREENE

Born	<i>at Yokohama, Japan, Oct. 12, 1874.</i>
Parents	<i>Daniel Crosby, Mary Jane (Forbes) Greene.</i>
School	<i>Newton High School, Newton, Mass.</i>

Years in College	<i>Four.</i>

Children	<i>Jerome Crosby, June 14, 1902.</i>
Occupation	<i>General manager and treasurer.</i>
Address	<i>Rockefeller Institute for Medical Research, New York City.</i>

In March of my senior year, having an opportunity to spend a year or more in Europe, I left College on leave of absence. The following winter I registered under the Law Faculty of the University of Geneva. Returning in the summer of 1897 I entered the Harvard Law School, where I spent two years. In 1898 I started the "Harvard Bulletin" as a weekly paper for the graduates. In June, 1899, I entered the service of the University Press of Cambridge, as its New York representative. After six months in New York I entered the Cambridge office of the company and served as assistant to the general manager. In July, 1901, President Eliot offered me an appointment as secretary to the president, which I immediately accepted, the position having been newly created on recommendation of the Board of Overseers. In 1905 I was made secretary to the corporation, a member of the Faculty of Arts and Sciences, and a member of the University Council. These positions I resigned in June, 1910, to become general manager of the Rockefeller Institute for Medical Research, in New York City.

Address	<i>(business) 155 West 65th St., New York City.</i> <i>(home) 1221 Woodycrest Ave., New York City.</i>

After leaving Harvard I taught seven years in the English High School, Cambridge, Mass., during four of which I was registered in the Graduates' School, Economics Department. For the last six years I have been teaching at the High School of Commerce, New York City; since February, 1909, as first assistant in charge of the business department.

SAMUEL EARLE GREENE

Born	<i>at Constantinople, Turkey, March 13, 1873.</i>
Parents	<i>Joseph Kingsbury, Elizabeth Augusta (Davis) Greene.</i>
School	<i>Oberlin, Ohio; Andover.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Married	<i>Isabelle Jane Trotter, June 30, 1908, Troy, N. Y.</i>
Children	<i>Earle Davis, June 15, 1909.</i>
Occupation	<i>Engineer on transformers.</i>
Address	<i>(business) Engineering Department, General Electric Company, Pittsfield, Mass.</i> <i>(home) P. O. Box 922, Pittsfield, Mass.</i>

Graduated from Harvard 1896. Entered the employ of the General Electric Company, Schenectady Works, in November, 1896, and with the exception of two and one-half years, have been in this company ever since, as follows.: General Electric Company, Lynn Works, October, 1897; General Electric Company, Pittsburg, Pa., sales office, November, 1899; Allegheny County Light Company, Pittsburg, Pa., October, 1902; General Electric Company, Pittsfield Works, July, 1905; General Electric Company, Great Barrington (Mass.) Works, September, 1907; General Electric Company, Pittsfield Works, since March, 1908.

The above years cover an acquaintance with a wide range of electrical apparatus in the factory as well as outside, from manufacturing, commercial, operating, and engineering standpoints. There was also included the novelty of assisting under the direction of the United States Government, in the

mining of Boston Harbor during the Spanish War scare. Our headquarters were on Castle Island, and we were highly flattered at being presented with Rough Rider felt hats surmounted by an emblem in bronze of a fort with the letters "V.E.C." (Volunteer Electrical Corps). My recollections of those war-like times center chiefly around the clambakes on the shore, the swimming stunts off the sea wall, our attempts to lure inexperienced fish within reach of amateur infernal machines, and debates as to who would run the fastest, should the "Viscaya" and her sister ships appear in the offing. Just the same, don't think for a minute that the Dagoes would have had it all their own way. So far as I know, none of us have ever had the nerve to apply for a pension.

Among my professional attainments, I recall the "honor" of designing transformers for Harvard, coupled unfortunately with the disgrace of doing the same for Yale. However, we can't all be choosers, except when it comes to the "Lady of our Choice." I fear my classmates would travel far and wide before finding a more charming wife and smarter baby (he knows it all, of course) than you will find in our little lake-side cottage, "Bide-a-wee," in one of the prettiest spots discovered in any of my travels.

WILLIAM GREENOUGH

Born	<i>at Quincy, Mass., July 15, 1874.</i>
Parents	<i>William, Alice Mary (Patterson) Greenough.</i>
School	<i>St. Paul's School, Concord, N.H.</i>
Years in College	<i>Four.</i>

Children	<i>Beatrice Goelet, Dec. 5, 1908.</i>
Occupation	<i>Lawyer.</i>
Address	<i>55 Wall St., New York, N.Y.</i>

In graduating from the Law School in June, 1899, I entered the law offices of Strong & Cadwalader of New York, and remained with them until July 30, 1904. I was admitted to the New York Bar in October, 1899, and to the Bar of the Supreme Court of the United States in March, 1909.

On Aug. 1, 1904, I began to practise law under my own name and continued to do so until Jan. 1, 1905, when I entered the law department of the New York, New Haven and Hartford Railroad Company as attorney of record for the company in the State of New York, in charge of all legal matters in the State.

On Oct. 1, 1908, I resigned and went into partnership with L. C. Krauthoff & Sherman Day. On June 1, 1909, we consolidated with the firm of Harmon & Mathewson, under the firm name of Krauthoff, Harmon & Mathewson, of which firm I am now a member.

I have written no books, and the only offices I have held are that I was once a member of the Committee on Admissions at the Harvard Club, and am now a member of the same committee of the Bar Association.

Occupation	<i>Clergyman.</i>
Address	<i>(business) New York City. (home) 698 East 166th St.</i>

After I left College I studied for the ministry one year at the Harvard School of Theology, then finished my course at the Episcopal Theological Seminary; then I went abroad and traveled for three years. On returning was for one year curate at the Church of the Ascension, Boston, and then came as curate to Dr. Leighton Parks at St. Bartholomew's, New York, and was there two years until I accepted my present work at the Church of the Holy Faith in the Bronx, where I have been these past five years. I have been busy doing my regular work, and there has been nothing very dramatic or unusual about it. I have a splendid time every summer, when I go abroad. I am not getting fat, that is, too fat for comfort. I have kept a good lot of hair on my head, though I must confess it is getting gray. But when I see some of my College friends, fat and bald, or careworn and thin, I can recommend the ministry as a place where of course there is not much money made, but a profession where a man can live and enjoy life as he goes along.

HENRY STURGIS GREW

Born	<i>at Boston, Nov. 1, 1875.</i>
Parents	<i>Edward Sturgis, Annie Crawford (Clark) Grew.</i>
School	<i>Hopkinson's School, Boston.</i>

Married	<i>Ethel Gertrude Hooper, Nov. 17, 1897, Boston.</i>
Children	<i>Agnes Hoppin, Nov. 13, 1898; Henry Sturgis, March 31, 1901; James Hooper, Dec. 16, 1906.</i>
Occupation	<i>Banker.</i>
Address	<i>(business) 40 State St., Boston. (home) 254 Marlborough St., Boston.</i>

After graduation I spent three months in Europe, returning to enter the banking business in Boston as a clerk in the office of Estabrook & Co. Was with them for three years but in the fall of 1900 was obliged owing to ill health to give up active work, and for over a year, part of which was spent abroad, had no regular occupation. When the City Trust Company was organized in February, 1902, I obtained a position with that institution, at first in no special capacity and

later as assistant treasurer. In 1905 I accepted the presidency of the National Union Bank of Boston, which position I still occupy.

Degrees	<i>A. B.</i>
Married	<i>Lilian Follis, Jan. 9, 1901, San Francisco, Cal.</i>
Children	<i>Constance, Feb. 13, 1905.</i>
Occupation	<i>Mining, president Western Engineering and Construction Company.</i>
Address	<i>(business) Alaska Commercial Bldg., San Francisco, Cal.</i> <i>(home) 2008 Washington St., San Francisco, Cal.</i>

1896, I went to Juneau, Alaska, to look after my mining interests. 1897, mining in Colorado, where I became interested in gold dredging, which was then beginning in this country. From Colorado I went to California and worked on the first gold dredge built there. 1898-99, with Risdon Iron Works of San Francisco constructing the second, third, and fourth dredges in California and the first and second in Colorado where I was dredge master for the North American Dredging Company. 1899-1900, installed first electrically driven dredge in California for the Continental Gold Dredging Company, of which I was manager, at Orville, Cal. 1900-1906, I formed the firm of Griffin & Cameron, to construct gold dredges. This business grew so rapidly that the Western Engineering & Construction Company was incorporated as successor to Griffin & Cameron. The Western Engineering & Construction Company has had a successful career, having constructed the majority of gold dredges in this country. I have been president of the Western Engineering & Construction Company since it was formed. During this period I was interested in the development and operation of dredging properties and in 1906 was one of the founders of the Natoma Development Company at Folsom,

Cal. This company was merged, 1908, into the Natomas Consolidated of California, one of the largest California corporations. In addition to a fleet of twelve large gold dredges the company owns three rock crushing plants, water rights, canals, irrigation systems, together with ninety thousand (90,000) acres of reclaimed and irrigated lands. 1908, I was appointed by Governor Gillette trustee of the State Mining Bureau. I have practically retired from the engineering business and shall devote my time to the Natomas Consolidated, of which I am vice-president and one of the executive committee, and to the Griffin Company, through which my mining and other interests are handled. I am president of the Griffin Company.

My senior year at College was likewise my first year at the Harvard Law School. I remained at the Law School through the second year only. In August, 1897, I plunged into this community, then wholly strange to me, and immediately began the practice of law and have been actively engaged in it ever since.

Naturally, I have taken part in politics. As soon as 1900 I aspired to the Legislature, but failed of nomination. That was my first and last attempt at office seeking. In 1905 the Mayor appointed me a member of the Board of Managers of the St. Louis Industrial School, an institution for the care of delinquent and dependent children. It was during my two years of service on the board that my interest in unfortunate children was awakened, and since that time I have been

actively engaged in all sorts of social service. In 1907 my name was placed on the tickets of both political parties to fill an unexpired term of two years on our bi-partisan school board. At the expiration of my term in 1907 the Board of Education made me its attorney, which employment, together with a growing general practice, I have enjoyed ever since.

I have written no books, but in the course of employment by the Public Service Commission of St. Louis I compiled and annotated all franchise statutes and ordinances affecting public service corporations (other than steam railroads) doing business in St. Louis. Upon invitation from the Missouri State Bar Association I delivered an address at its annual meeting in July, 1910, on "Some Reasons for the Growing Disrespect for the Law." My address has since been published in the January-February, 1911, number of the "American Law Review." Agitation for reform in our judicial system and legal procedure has had much of my attention. I drew up for the St. Louis Bar Association a bill for a municipal court system similar to that of Chicago, but our Legislature has failed to enact it into law. Such statutes as our Child Labor Law of 1911, the 1911 law limiting the hours of employment of women, and a number of other statutes relating to social and industrial conditions were drawn by me. The Governor of Missouri appointed me a member of a preliminary commission to consider legislation on the subjects of workmen's compensation and employer's liability.

Born	<i>at Keokuk, Iowa, Dec. 6, 1872.</i>
Parents	<i>James, Margaret (Walker) Hagerman.</i>
School	<i>Brown and Nichols' School, Cambridge, Mass.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.; LL.B., 1899.</i>
Married	<i>Ninette Virginia Clark, Jan. 14, 1911, St. Louis, Mo.</i>
Occupation	<i>Lawyer.</i>
Address	<i>(business) 607 Wainwright Bldg., St. Louis, Mo.</i> <i>(home) 3694 Pine St., University Club, St. Louis, Mo.</i>

Graduating with A.B. in 1896, I spent three years in Harvard Law School and graduated with degree of LL.B. in 1899, and entered upon the practice of law in St. Louis, Mo., in January, 1900. For ten years I practised law independently, until, in June, 1910, I became general attorney of the Missouri, Kansas and Texas Railway Company, for the State of Missouri, since which time I have done little except handle railroad cases. But my railroad work keeps me exceedingly busy, and I fear it may prevent my having the pleasure of meeting my classmates in June.

Children	<i>Marjorie Virginia, June 11, 1906; Arthur H., Jr., April 12, 1908.</i>
Address	<i>46 East 52d St., New York City.</i>

Shortly after leaving College I started the New York Co-operative Society, originally patterned after the Harvard Co-operative Society at Cambridge, but which finally developed into a retail book and picture business. This was very successful, branching out in the line of original manuscripts

and autographs, and I remained in it until last February (1910), when, at the request of my father-in-law, the late Mr. Isaac Stern, the founder and head of the department store, Stern Brothers, in West 23d Street, I went down to join him in that business, in order to take some of his duties off his shoulders. I remained there until Dec. 1 (1910), when my father-in-law decided to sell his share of the business to his brother and to retire from active work. He died several days thereafter, and as my duties as one of the executors of the estate will doubtless keep me busy for some time to come, I do not know just when I shall resume work, or what line of business I shall take up.

Born	<i>at Cohasset, Mass., Oct. 17, 1873.</i>
Parents	<i>John Otis, Ella Frances (Creed) Hall.</i>
School	<i>Adams Academy, Quincy, Mass.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Married	<i>May Merrill, Oct. 11, 1898, Quincy, Mass.</i>
Children	<i>Dorothy, Aug. 18, 1899; Marjorie, July 14, 1905.</i>
Occupation	<i>Treasurer of L. E. Knott Apparatus Company, Boston, Mass.</i>
Address	<i>(business) 16 Harcourt St., Boston, Mass.</i> <i>(home) 43 Upland Road, Quincy, Mass.</i>

Since graduation I have been engaged in one general line of work, namely, the manufacture and sale of scientific apparatus and laboratory supplies.

From 1896 to 1899 I was with the Franklin Educational Company of Boston, Mass. From 1899 to 1902 I was with the Ziegler Electric Company, also of Boston. In 1902 this concern was re-organized and the new business was known as the Arthur W. Hall Scientific Company, of which I was the president and treasurer for six years. In the autumn of 1908 the Arthur W. Hall Scientific Company was consolidated with the L. E. Knott Apparatus Company, 16 Harcourt Street, Boston, Mass., the enlarged business continuing under the latter firm name. For two years I served as vice-president and assistant treasurer of the corporation. Last year I was elected treasurer, which position I now hold.

My life for the past fifteen years has been a very busy one, but not very exciting nor eventful. I have not traveled extensively. I have not entered politics. I have attended very closely to business, taking off only enough time for recreation and exercise so as to keep in good health.

Married	<i>Martha Green Harding, May 9, 1900, Cambridge, Mass.</i>
Children	<i>Arthur Seymour, Dec. 15, 1907.</i>
Occupation	<i>Teacher.</i>
Address	<i>Clemson College, South Carolina.</i>

After leaving Harvard, engaged in several things temporarily but always with the view of becoming a teacher at some time.

In the summer of 1906 while teaching Botany in the Summer School at Harvard I was offered a place as Assistant Plant Pathologist of the North Carolina Agricultural Experiment Station and accepted. Went to work there the first of August, and stayed there four years. During the time I was in North Carolina in connection with Dr. Stevens published

some four or five botanical articles in scientific magazines in this country and abroad and when I left we had just sent to press a book, "Diseases of Economic Plants," published Sept. 10, 1910.

Upon Sept. 10, 1910, I arrived here to take up the work of teaching under the title of Associate Professor of Botany, Forestry and Bacteriology.

WALTER ATWOOD HALL

Born	<i>at Wallingford, Conn., Jan. 7, 1874.</i>
Parents	<i>John Milton, Amorette Frances (Morse) Hall.</i>
School	<i>Wallingford High School.</i>
Years in College	<i>One.</i>
Admission Date	<i>September, 1895.</i>
Degrees	<i>A.B. ; S.B., 1896 (M.I.T.).</i>
Married	<i>Lucile Carol Reynolds, Jan. 7, 1903, Cambridge, Mass.</i>
Children	<i>Marjorie Lucile, May 16, 1908.</i>
Occupation	<i>Assistant to the manager.</i>
Address	<i>(business) General Electric Company, West Lynn, Mass.</i> <i>(home) 15 Hardy Road, Swampscott, Mass.</i>

In July, 1896, about one month after graduation, I began work in Springfield, Mass., as a draftsman in the Duryea Motor Wagon Company. This pioneer enterprise, however, soon temporarily suspended operations, and I went to New Britain, Conn., to become electrician and machine designer for the Russell & Erwin Manufacturing Company, makers of builders' hardware. Nearly two years later, in June, 1898, I left to take up work as a draftsman at the Lynn works of the General Electric Company. After five months I was transferred to the engineering force of the transformer department, where, upon completion of a few months of preliminary experience, I was entrusted with developmental design.

I celebrated my birthday, Jan. 7, 1903, by marrying, at Cambridge, Lucile Carol Reynolds, Wellesley, '99.

In August, 1903, I was made assistant engineer of the department, and in August, 1905, engineer in charge. In August, 1907, the General Electric Company concentrated at Pittsfield, Mass., practically all transformer work, and I

became assistant engineer of the new organization, comprising branches formerly at Schenectady, Lynn, and Pittsfield.

After spending a little more than three years there, I was favored, in December, 1910, with a most gratifying opportunity to return to the Lynn works with an enlarged field of endeavor in the capacity of assistant to the manager, my present occupation.

The recital of these facts will suffice to convince one, whether or not he may be versed in the activities of a manufacturing enterprise, that there have been thrust upon me no honors the description of which would afford interesting reading to men engaged in the broader and more attractive vocations of political and social life. Papers which I have presented have been of an engineering character and my social positions have been those identified with such organizations as local Harvard and University Clubs and the American Institute of Electrical Engineers.

ROBERT HAYDOCK HALLOWELL

Born	<i>at West Medford, Mass., June 30, 1873.</i>
Parents	<i>Norwood P., Sarah W. (Haydock) Hallowell.</i>
School	<i>Hopkinson's Private School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Married	<i>Rebecca B. Jackson, Oct. 7, 1902, Boston.</i>
Children	<i>Robert H., Aug. 31, 1903; Samuel H., May 15, 1905; Francis J., Nov. 5, 1906; Rebecca N., Oct. 8, 1910.</i>
Occupation	<i>Electrical contractor.</i>
Address	<i>112 Water St., Boston, Mass.</i>

On July 1, 1896, I began work for the Lord Electric Company, electrical contractors, with offices at present in New York and Boston. About five years later I was made a partner in the concern and have been with it ever since and expect to be for some years to come. Our Boston office was formerly at 81 Milk Street, but finding that so much of my time was absorbed in class work and that conferences with J. J. Hayes were so frequent, we decided to move, and our

offices are now at 112 Water Street, adjoining those of our worthy Secretary. Since graduating, with the exception of two years, I have lived in West Medford, Mass., where I have dabbled a little in local politics. For two years was a member of the Common Council.

ROSCOE JAMES HAM

Born	<i>at Peabody, Mass., April 3, 1875.</i>
Parents	<i>James Nelson, Florence Angella (Billings) Ham.</i>
School	<i>Lexington (Mass.) High School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B. ; A.M. (Bowdoin).</i>
Married	<i>Mary Helena Cowell, Sept. 5, 1901, Boston, Mass.</i>
Children	<i>Edward Billings, Nov. 7, 1902.</i>
Occupation	<i>Professor of German, Bowdoin College.</i>
Address	<i>Brunswick, Me.</i>

The first three years after graduation I spent in study, principally at Harvard and in Germany. Since 1899 I have been teaching—for two years in the Cascadilla School (Ithaca, N.Y.), and since 1901 at Bowdoin, except for two years (1907–1909) at Trinity College (Hartford). At Bowdoin I have passed through various academic grades from Instructor in Modern Languages to Professor of German. I am busily occupied with most congenial work *und zwar* in the college that sends to Harvard for graduate and professional courses a larger percentage of its graduates than any other college in the country. In 1909 I published with A. N. Leonard, Brown '92, a "German Grammar." My son, Edward Billings, born in 1902, still has neither brother nor sister.

Born	<i>at Boston, Mass., Dec. 24, 1874.</i>
Parents	<i>Nathaniel P., Gertrude (Loring) Hamlen.</i>
School	<i>Wm. Nichols' Private School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Married	<i>Agnes Dorothy Devens, Dec. 7, 1901, Hamilton, Mass.</i>

Children	<i>Elizabeth, Aug. 21, 1903; Nathaniel, Sept. 16, 1905; Lithgow Devens, March 15, 1909.</i>
Occupation	<i>Real estate.</i>
Address	<i>(business) 60 State St., Boston, Mass. (home) 32 Gloucester St., Boston, Mass.</i>

There is nothing of unusual interest to report. My time has been spent mostly in and about Boston. Two years ago I became a member of the firm of Cabot, Cabot & Forbes. We deal in general with real estate and the care and management of properties.

ORLANDO DAVIS HAMMOND

Born	<i>at Memphis, Tenn., Nov. 6, 1871.</i>
Parents	<i>Eli Shelby, Frances Elizabeth (Davis) Hammond.</i>
School	<i>Adams Academy, Quincy, Mass.</i>
Years in College	<i>Five.</i>
Admission Date	<i>September, 1891.</i>
Degrees	<i>A.B.; LL.B., 1899.</i>
Married	<i>Lilian Kirk McDowell, Feb. 16, 1901, Rosemont, Pa.</i>
Children	<i>Martha Bonner, Memphis, Tenn., Aug. 1, 1903.</i>
Occupation	<i>Statistician.</i>
Address	<i>43 Exchange Place, New York, N. Y.</i>

Practised law in Memphis, Tenn., 1899–1905. My law practice led me, through representing some cotton interests and plantation interests, into the management of several cotton plantations for a large trust company, which in turn represented an English mortgage syndicate. Through these direct and indirect associations with things pertaining to the cotton industry I made an extended study of cotton, cotton planting, and cotton distribution, with the result that I abandoned the law and became a “cotton expert.” I spend most of my time from April to November in the cotton-fields, visiting almost every county in the South where cotton is raised, making reports of crop and trade conditions to my firm in New York and our correspondents abroad. In addition to this I have managed some extensive ranching interests in Mexico and Canada. On the whole, I have managed to lead a fairly busy life since leaving College, traveling extensively in this country and abroad, in fact, a Pullman berth or steamer bunk is more familiar to me than my own bed.

ALEXANDER ROBERTSON HANN

Born	<i>at Danville, Ky., April 29, 1872.</i>
Parents	<i>Robert, Margaret (Shackelford) Hann.</i>
School	<i>Preparatory School, Danville, Ky.</i>
Years in College	<i>One.</i>

Address	<i>(business) Barnstable, Mass. (home) Chatham, Mass.</i>

1897-99, Chairman of School Committee, Chatham, Mass. 1899 and 1900, Member of Boards of Selectmen, Assessors and Overseers of Poor, Chatham, Mass., in 1900, Chairman. 1903 and 1904, Representative in Massachusetts House of Representatives, Ways and Means Committee (2d Barnstable District). 1905 and 1906, Senator (from the Cape District) in Massachusetts Legislature; both years, on Ways and Means, Harbors and Public Lands, Fisheries and Game,

(Chairman in 1906), and Constitutional Amendments (Chairman both years). 1908 to present time, a Member of the Board of Harbor and Land Commissioners of the Commonwealth of Massachusetts. Meanwhile, I have been trying either to build up or to hold together a practice at the Bar.

KENNETH WILSON HARDON

Born	<i>at Newton, Mass., Nov. 29, 1872.</i>
Parents	<i>Henry C., Anna Wallace (Wilson) Hardon.</i>
School	<i>Cutler's School, Newton, Mass.</i>
Years in College	<i>Three.</i>
Admission Date	<i>September, 1892.</i>
Married	<i>Corrinne Thompson, June 26, 1907.</i>
Occupation	<i>Manager Geo. H. Morrill Company, New York.</i>
Address	<i>(business) 49-51 Rose St., New York City.</i> <i>(home) Bellerose, Floral Park, Long Island, N. Y.</i>

Went to Europe shortly after I left College in employ of Die Americanische Company, A.G., with main office at Frankfurt a/M, Germany. Later director and European manager of same concern until its liquidation following formation of American Hide & Leather Company, which took over source of supply. Returned to America in fall of '99. Continued in leather trade for two years. Later in banking and bond business in Boston, until engaged for present position in October, 1905.

JAMES RUSSELL HARRIS

Born	<i>at Philadelphia, Pa., March 25, 1870.</i>
Parents	<i>James R., Susan A. (Harris) Harris.</i>
School	<i>Tutored.</i>
Years in College	<i>Four.</i>

Married	<i>Elizabeth Stevenson, Oct. 24, 1908, Cornwall-on-Hudson, N. Y.</i>
Children	<i>Elizabeth Mary, Nov. 28, 1910.</i>
Occupation	<i>Architect.</i>
Address	<i>(business) Northeast corner 15th and Walnut Sts., Philadelphia, Pa.</i> <i>(home) 220 South Broad St., Philadelphia, Pa.</i>

During the last five years my life has been most pleasantly changed from bachelorhood to the married estate. Since our

marriage my wife and I have lived in Philadelphia in winter, and at Cornwall-on-Hudson in summer. I have followed my profession of architecture and have lived the life of most of my classmates, happy in my home and friends, enjoying my holidays and enjoying my work. Nothing startling has interfered with our even trend of life and I shall always be most content to continue my present inconspicuously happy life.

Have not been actively engaged in business for the last three years. Up to that time since 1897 was engaged in developing mining properties in Arizona. Resided in Phoenix, Ariz., from 1897 to 1901.

JOHN JOSEPH HAYES

Born	<i>at Boston, Mass., Dec. 12, 1873.</i>
Parents	<i>John J., Caroline L. (Raymond) Hayes.</i>
School	<i>Roxbury Latin School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Unmarried	
Occupation	<i>Real estate and insurance broker.</i>
Address	<i>(business) 112 Water St., Boston, Mass. (home) Common St., Dedham, Mass.</i>

I entered the employ of the Boston and Maine Railroad in December, 1896, with the idea of learning the railroad business, and was in the service of this corporation seven years, serving in its various departments in different capacities. In January, 1904, I entered into partnership with

W. M. Welch, '02, forming the firm of Hayes & Welch, for the transaction of a real estate and insurance business at 112 Water Street, Boston, which is my present occupation. I have lived in Dedham for the last ten years and find it an attractive place for residence insomuch as it affords ample opportunity for the enjoyment of outdoor sports, and it is within easy reach of Boston. I find the position of Class Secretary an interesting one, and the work in connection with it would be somewhat lightened if the Class would respond more promptly to notices.

RICHARD HAYTER

Born	<i>at New York (Manhattan), N. Y., Feb. 13, 1868.</i>
Parents	<i>Samuel Gillespie, Caroline Freytag (Brainard) Hayter.</i>
School	<i>Private tutors.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A. B.</i>
Married	<i>Anabel Ijams, Feb. 17, 1900, Manchester, England.</i>
Occupation	<i>Real estate and industrial investments.</i>
Address	<i>(business) 743 Central Bldg., Seattle, Wash. (home) Seattle, Wash.</i>

Resident University Settlement, New York, 1896-99; "Tribune" Fresh Air Fund (summers), 1896-'97; assistant secretary Brooklyn Bureau of Charities, 1896-'97; assistant secretary Charity Organization Society of New York, 1897-'99; social research, especially housing questions, London, Liverpool, and Manchester, 1899-1900. Married in Manchester, 1900.

Then a seven thousand mile jump from London and charity to Puget Sound and salmon. The fishery game was a fizzle. Practised English *A et al.* on "Seattle Daily Times" and the "Post Intelligencer;" and learned the real estate business by correspondence (my own). Opened an office in 1904 and have specialized since in business property, especially factory and warehouse sites — with a side line of industrial organization and promotion. Business would be

improved if '96 capitalists should wisely invest their surplus in Seattle realty — particularly tide lands.

Still interested in social questions, but non-professionally. Served on Charities Endorsement Committee from its organization and am director of Charity Organization Society of Seattle, Social Service Club, etc.

I am living more and more in the country, finding most of my pleasures out-doors; and away from the cities it is still the untamed, rugged country — a marvelous combination of indented shores, rivers flowing from inland lakes all set in the glorious framing of snow-capped mountain ranges — that Vancouver “discovered” little more than a hundred years ago. Puget Sound and its allied waters, stretching from Seattle to Alaska, offers more to the yachtsman, the hunter, and the fisherman than can be found perhaps in any other thousand odd miles in the known world. If you are tired of the old cruising grounds from Long Island Sound to Mt. Desert, I can give you at least the right start. Any man making this trip will certainly take home a fine assortment of “western” superlatives.

Occupation	<i>Farmer.</i>
Address	<i>Lexington, Mass.</i>

I left Harvard in November, 1893, on account of ill health, spent two years loafing and in travel in this country. In 1895 came to Lexington and bought the farm on which I still live, have regained my health, but otherwise my venture in farming has not been much of a success.

STEVENS HECKSCHER

Born	<i>at Greenwood Farm, Chester County, Pa., June 22, 1875.</i>
Parents	<i>Richard, Lucretia Ledyard (Stevens) Heckscher.</i>
School	<i>De Lancey School, Philadelphia.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B. ; LL.B., 1899 ; LL.B., 1899 (Univ. of Penn.).</i>
Married	<i>Henrietta Armitt Brown, July 15, 1902, Wayne, Chester County, Pa.</i>
Children	<i>Lucretia S., April 11, 1903 ; Henry Armitt, Nov. 1, 1904 (died Feb. 26, 1905) ; Maurice, May 24, 1907 ; J. G. Richard, Sept. 6, 1909.</i>
Occupation	<i>Lawyer.</i>
Address	<i>(business) 1617 Land Title Bldg., Philadelphia, Pa. (home) Strafford, Chester County, Pa.</i>

Since graduating from the Harvard and University of Pennsylvania Law Schools I have been actively engaged in the general practice of law in Philadelphia, being still a member of the firm of Duane, Morris & Heckscher. I was for two years secretary of the board of examiners of the Philadelphia Bar, and am now secretary of its board of censors.

I have tried to give a little spare time toward helping the "submerged tenth," and am a director of two hospitals, of the Society for Organizing Charity and of the St. James Union for Men.

The hopefuls above (Harvard '28 and '30) I am instilling with the glorious traditions of '96, and, like the Persian King, am reminding them each morning of their vow of vengeance on the Elis.

WINSLOW HOBART HERSHEY

Born	<i>at Boston, Mass., Aug. 28, 1873.</i>
Parents	<i>Clemens, Grace Darling (Hobart) Herschel.</i>
School	<i>Roxbury Latin School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Married	<i>Cornelia A. Fenerlein, April 17, 1906.</i>
Children	<i>Grace Dorothy, July 22, 1907 (died Dec. 1, 1907).</i>
Occupation	<i>Mechanical engineer.</i>
Address	<i>(business) 236 Newbury St., Boston, Mass. (home) 2 Wall St., New York City.</i>

From 1896 to 1904 I was engaged as hydraulic engineer in the vicinity of New York City.

In February, 1904, I went to Zürich, Switzerland, as technical correspondent for the Allis-Chalmers Company to study the theory and construction of hydraulic turbines and centrifugal pumps, both at the shops of Escher, Wyss & Co. and at the Zürich Polytechnikum.

In May, 1905, I entered the service of the Providence Engineering Works in a somewhat similar capacity, still stationed at the shops of Escher, Wyss & Co., but devoting my attention to steam turbines. After my return to the United States in November, 1905, I had charge of the steam turbine works of the Providence Engineering Works. A 500 K.W. turbine of my design gave better results than are guaranteed by any turbine builder for a unit of that size.

Owing to the fact that the Providence Engineering Works had in the meantime taken up the manufacture of automobile parts so extensively that they concluded to do nothing further with turbines at present, my work with them came to an end in May, 1910.

I am now doing some work for Prof. I. N. Hollis in Cambridge.

I am a member of the Verein Deutscher Ingenieure, the Boston Society of Civil Engineers, and the American Society of Mechanical Engineers.

JAMES HEWINS

Born	<i>at Medfield, Norfolk County, Mass., Aug. 4, 1873.</i>
Parents	<i>James, Jane Georgiana (Stedman) Hewins.</i>
School	<i>Boston Latin School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B., 1898.</i>
Married	<i>Anna Maria Johansen, Oct. 9, 1901, Natick, Mass. (died May 28, 1908).</i>
Children	<i>James, Jr., Aug. 28, 1902; Alfred, Oct. 24, 1904.</i>
Occupation	<i>Wool broker.</i>
Address	<i>(business) 216 Summer St., Boston, Mass (home) Boston, Mass.</i>

I took my degree of A.B. in June, 1898, and after tutoring for one year, preparing my pupil for the entrance examinations to Harvard, I went to work in E. Frank Lewis' wool scouring mill at Lawrence, Mass., my object being to learn the wool business. After a year there I came to Boston, and associated myself with Salter Bros. & Co., wool brokers, 216 Summer Street, where I am now located.

In 1901 I married, and have two sons, James and Alfred, whose ages are eight and six, respectively. I was very unfortunate in May, 1908, in losing my lovely wife, whom I buried after seven years of a most happy married life. She was an ideal companion and mother, and was beloved wherever she went, and her good influence has been the main factor in my life. Since her death I have applied myself to enlarging my business with some degree of success.

JOHN SWIFT HOLBROOK

Born	<i>at Boston, Mass., March 4, 1875.</i>
Parents	<i>Edward, Frances (Swift) Holbrook.</i>
School	<i>Callisen's School, New York (day school).</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Married	<i>Grace Morgan Sinclair, April 11, 1908, New York.</i>
Occupation	<i>Business man.</i>
Address	<i>Care of Gorham Mfg. Co., Providence, R.I.</i>

Graduating in 1896, I passed two years as a special student in the School of Architecture at Columbia University, New York. Leaving there in 1898 I went abroad to pursue my studies there, and became an attaché of the United States Government to the service of Parks and Gardens of the Paris Exposition of 1900, serving from the winter of 1898-1899 until November, 1900, being also appointed secretary of the United States delegation to the International Congress of Botany at the Paris Exposition. From the latter part of 1900 to the latter part of 1901 I was traveling in Italy, Sicily, Egypt, Germany, and England. I entered partnership with John R. Brinley and commenced the practice of landscape architecture, for which I had been fitting myself, in November, 1901, and I continued the practice of this profession until May, 1906. Meanwhile circumstances arose in connection with the Gorham Manufacturing Company which made the stockholders request that I accept the office of vice-president of that corporation, under my father who had been president for many years. This, of course, necessitated my abandoning my career as a landscape architect, which I did with regret, the more so as my relations with my partner had been ideally pleasant.

Since 1906 I have been connected with the Gorham Manufacturing Company as vice-president, first attached to the

New York end and since October, 1908, to the factory, where I am at present situated. For how long it is impossible to tell. Besides this office I hold the office of treasurer in the Maiden Lane Realty Company of New York and in the National Protection Company, a New Jersey corporation, as well as being a director in a number of other corporations.

I married on April 11, 1908, Miss Grace M. Sinclair, daughter of Mr. John J. Sinclair, of New York, and that fall we moved to Providence as above stated. We visited Europe again on our wedding trip, but since then I have been closely confined to business, and have made no long trips. We have no children.

I am asked what positions of honor or trust I have held and can think of none but those already mentioned. My contributions to literature have been so few as not to be worth mentioning: a couple of technical articles on landscape architecture and my report as secretary of the United States delegation to the International Congress of Botany.

In short I am one of the ordinary business men of the world, busily engaged in trying to wrest a living for two. I rather think I am not the only man in our Class who has had thoughts of doing other than as circumstances subsequently dictated. After all, enough to maintain self and family in comfort is the important thing in this world, and in that I am successful; the rest of it is all dreams.

ALEXANDER HOLLAND

Born	<i>at Brooklyn, N. Y., Oct. 22, 1873.</i>
Parents	<i>John Butterfield, Sadie (Frothingham) Holland.</i>
School	<i>Private school, New York.</i>
Years in College	<i>Three.</i>
Admission Date	<i>September, 1893.</i>
Married	<i>Margaret O'Donnell, May 16, 1904, Portland, Ore.</i>
Occupation	<i>Special Agent American Express Company (Financial Department).</i>
Address	<i>(business) 602 South Main St., Los Angeles, Cal.</i> <i>(home) Los Angeles, Cal.</i>

The last five years have seen me here in 1907-8, New York in 1909-10 and back here again in 1911, where amid

the oranges and ever-blooming roses I hope to round out the rest of my life, as this is God's country and no mistake. I miss the good old Harvard Club in New York and the games, races, etc., but this climate makes up for it. Have a class reunion out here, boys, you never will regret it. I promise you you cannot write about business in this climate so will just say that I followed in the footsteps of my great grandfather, grandfather, and father, and became connected with the American Express Company shortly after they secured entrance into California. If you boys want any oranges next winter, better than you can buy in the East, let me know; I will see that you get the best there are here at small cost.

I attended the luncheon to Col. Theodore Roosevelt given by the Harvard Club of South California, and it was like old times.

CHARLES NEVERS HOLMES

Born	<i>at Cambridge, Mass , Jan. 18, 1872.</i>
Parents	<i>Charles Watson, Mary Frances (Hooper) Holmes.</i>
School	<i>Phillips Exeter Academy.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Unmarried	
Occupation	<i>Literary work.</i>
Address	<i>Hotel Nottingham, Boston, Mass.</i>

As published in former reports of our Class, my occupation since leaving Harvard has been in the literary field, amid which field I have labored in prose and verse — more or less successfully — since 1897. My secondary occupation has been amidst astronomical science; having contributed not a few articles on astronomy to American and foreign newspapers. As yet, I have published no book, and have held no public or private office. During the past five years my life has been merely an uninteresting and unimportant sequel to the first, second, and third reports of our Class.

Children	<i>Joseph Henry, May 2, 1909, Champaign, Ill.</i>
Occupation	<i>Chemist.</i>
Address	<i>(business) 504 Garrison St., Fremont, Ohio. (home) Fremont, Ohio.</i>

For the last fourteen years I have been teaching Chemistry in various universities in the United States. The list includes Harvard University, Massachusetts Institute of Technology, University of Montana, University of Chicago, and the University of Illinois. Last August I gave up my position at the University of Illinois and took up technical work. At present I am in charge of the Ames' Laboratories at Fremont, Ohio, where we manufacture all kinds of dental cements.

Occupation	<i>Assistant Professor of Psychology (Harvard).</i>
Address	<i>Emerson Hall, Cambridge, Mass.</i>

There is really nothing to put in here, the stupid life of a stupid teacher affording very little by way of anecdotes, etc.

FREDERICK STREET HOPPIN

Born	<i>at Providence, R.I., Aug. 23, 1875.</i>
Parents	<i>Frederick Street, Clara (Tracy) Hoppin.</i>
School	<i>University Grammar School, Providence, R.I.</i>
Years in College	<i>Four.</i>

Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Unmarried	
Occupation	<i>Publisher.</i>
Address	<i>(business) 153 Fifth Avenue, N. Y.</i> <i>(home) 29 Waverly Place, New York, N. Y.</i>

After Commencement in June, 1896, I spent a year and a half abroad and then came home and worked in Harper Bros. (publishers) for about two years. After another short trip abroad I was on the staff of the New York "Evening Post" as a reporter for a year, and then became assistant editor of Frank Leslie's "Popular Monthly" (later the "American Magazine"). After that I was advertising manager at Charles Scribner's Son's for five years and since then have been literary adviser for the same firm.

RALPH SHELDON HOSMER

Born	<i>at Deerfield, Mass., March 4, 1874.</i>
Parents	<i>Rev. Geo. Herbert, Julia West (Sheldon) Hosmer.</i>
School	<i>Boston Latin School, one and one-half years; private tutors.</i>
Years in College	<i>Three.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>B.A.S., 1894 (Harvard); M.F., 1902 (Yale).</i>
Unmarried	
Occupation	<i>Forester (Superintendent of Forestry, Terr. of Hawaii).</i>
Address	<i>Honolulu, Hawaii, P.O. Box 207.</i>

After leaving Harvard in June, 1895, I was for a time in the office of the City Engineer, Boston. In May, 1896, I went to Washington, D.C., as assistant in the Division (now Bureau) of Soils of the United States Department of Agriculture. In November, 1898, I was transferred to the Division of Forestry, now the Forest Service, which had a few months before been reorganized by the appointment of Mr. Gifford Pinchot as chief. From 1898 to 1903 I was in charge of various pieces of forest work, principally in New York, Maine, and California. Appointed in December, 1903, Superintendent of Forestry of the Territory of Hawaii, which position I now hold. Since coming to Honolulu my

duties have been the organization and administration of the Hawaiian forest service. Collaborator in United States Forest Service; chairman Territorial Conservation Commission of Hawaii; vice-president Board of Regents, College of Hawaii; in May, 1908, delegate to Conference of the Governors, Washington, D.C.; in 1910, vice-president for Hawaii, National Irrigation Congress; secretary Harvard Club of Hawaii. Member University Club, Social Science Association, Honolulu, Society American Foresters (Treasurer, 1901-03), and of various forestry associations. In religion a Unitarian; in politics an independent Republican, with strong leanings toward "insurgency."

I have published: "A Forest Working Plan for Township 40, New York State Forest Reserve," with E. S. Bruce, Bulletin 30, Division of Forestry, United States Department of Agriculture, Washington, 1901; "A Forest Working Plan for Townships 5, 6, and 41, New York State Forest Reserve," with E. S. Bruce, in the Report of the Forest Fish and Game Commission of the State of New York, for 1902-1903, Albany; "A Study of the Maine Spruce," in the Report of the Forest Commissioner of the State of Maine, 1902, Augusta, 1902; Annual Reports of the Division of Forestry, Board of Commissioners of Agriculture and Forestry of the Territory of Hawaii, 1904-1910, incorporated, Honolulu; various articles on forestry and conservation, mostly in the "Hawaiian Forester and Agriculturist;" "What Reclamation Means to Hawaii," an address delivered before the National Irrigation Congress, in Proceedings of the Seventeenth Session, Spokane, Wash., 1909.

Howe states that he has really nothing to add.

WILLIAM WESCOTT HOWELL

Born	<i>at Stanfordville, N. Y., June 23, 1873.</i>
Parents	<i>Selah, Nannie Conover (Applegate) Howell.</i>
School	<i>Bromfield School, Harvard, Mass. ; Boston English High.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A. B. ; M. D., 1900.</i>
Married	<i>Marion Lewis, Oct. 29, 1900, West Roxbury, Mass.</i>
Occupation	<i>Physician.</i>
Address	<i>152 Park St., West Roxbury, Mass.</i>

In the fall of '96 I entered the Medical School and was there the next four years, the last year being spent as house officer at the Children's Hospital. After graduating in 1900 from the Medical School I was assistant to Dr. Hall in Marblehead for part of the summer. In September of 1900 I opened an office in West Roxbury and have practised here ever since.

My only excuse for not having written any books, outside of the requisite knowledge, is pressure of business.

I am one of the visiting physicians to the Faulkner Hospital, Jamaica Plain, and the Hospital of the Massachusetts Infants' Asylum.

ABRAM HARBACH HOWLAND

Born	<i>at Burlington, Iowa, Sept. 25, 1873.</i>
Parents	<i>Thomas Smith, Eliza Semple (Harbach) Howland.</i>

Married	<i>Angelica Bustamante y Rodriques, Oct. 12, 1905, Mexico City.</i>
Children	<i>Thomas Smith, June 30, 1909; Angelica Bustamante, April 24, 1910.</i>
Occupation	<i>Manager, plumbing supply and manufacturing house.</i>
Address	<i>(business) 3a Bucareli No. 53, Mexico City. (home) 4a Guerrero No. 91, Mexico City.</i>

Since writing an account of myself for the last class report I have done a bit of railroading in Missouri and Iowa, construction and material departments, also road and bridge work in Arizona and New Mexico, and before returning to Mexico was material agent on a small road in Oklahoma, until it was taken over by Rock Island interests. Since then I have been in Mexico and am now manager of a wholesale plumbing supply house, which also manufactures a good deal of material in this line.

In 1905 I married Angelica Bustamante, a daughter of Gen. Juan Bustamante, former governor of the state of San Luis Potosi, a man much respected and prominent in his time, and an admirer and personal friend of Lincoln. This is not of much interest, so please cut it out if you need space. I should be glad to have college men more generally acquainted with Mexico and her people.

Years in College	<i>Three.</i>
Admission Date	<i>September, 1892.</i>
Unmarried	
Occupation	<i>Farmer.</i>
Address	<i>Meadville, Pa.</i>

After leaving College I spent ten years running a horse

ranch on the Little Missouri River in Billings County in western North Dakota.

When the great land boom came in the west, we closed out all our land holdings to a Milwaukee man, consisting of seventy-five thousand acres of land.

We closed out to four men in St. Louis five thousand horses and two thousand steers, and I am now breeding Percheron horses and short-horn cattle on my farm eight miles from Meadville.

Occupation	<i>First Vice-President of the United Land Company of Florida.</i>
Address	<i>(business) Union Trust Building, Washington, D.C. (home) 1614 Eighteenth St., Washington, D.C.</i>

After graduating at Harvard he spent the years of 1896-1898 at Christ Church, Oxford, in the Schools of English Literature and Law; and 1898-1900 in the Law School of Columbian (now George Washington) University, Washington. He was admitted to the Bar of the District of Columbia on Oct. 2, 1900. On April 12, 1900, he was elected treasurer of the Disston Land Company of Florida. On April 24, 1901, he was elected treasurer of its successor, the United Land Company of Florida, whose holdings, comprising seven counties, were exceeded only by the Florida East Coast System which is controlled by Mr. Henry M. Flagler. Since May 20, 1908, he has been the first vice-president of the United Land Company. He is also a director in several corporations.

His avocations are many, the principal among them being hunting, racing, and literary work. In August, 1903, he was made one of the stewards of the Buffalo Jockey Club at the time when the racing at Kenilworth Park was first held

under the auspices of the Jockey Club (of America). For several years subsequently he was one of the stewards of the Washington Jockey Club for the spring and autumn meetings at Bennings until Congressional legislation put an end to racing in the District of Columbia.

His military writings — begun while he was still an undergraduate at Harvard, under the supervision of the late John Codman Ropes, the author of the "Campaign of Waterloo," for whom he did some research work in Paris — have obtained unusual recognition among military men; and to-day, according to the New York "Times," he "is one of the best-known writers on military topics in the United States or Europe." His articles on the campaigns and battles of Frederick the Great, Napoleon and von Moltke, originally published in the "United Service Magazine" and in the "Journal of the Military Service Institution," the official magazine of the United States Army, subsequently appeared in book form in the International Military Series under the title of "Military Studies," the only work by a civilian ever accepted for that series. This book has been placed by the War Department in the Army War College and at West Point, and is known to military critics abroad.

During the past twelve years he has been a frequent contributor to publications such as the "North American Review," the "Journal of the Military Service Institution," "the American Historical Review," "Munsey's Magazine," etc. These articles or reviews have been principally on military subjects and have often contained material heretofore unpublished. He has also written an "In Memoriam" of his father, the late Frederic Wolters Huidekoper (A.B., Harvard, 1862; A.M., 1871; died April 29, 1908) — which was published under the auspices, and among the Memorial Papers, of the Society of Colonial Wars in the District of Columbia.

On Oct. 11, 1897, while still an undergraduate at Christ Church, Oxford, he began his research work in the archives of the Ministère de la Guerre in Paris, in the Kriegs-Archiv in Vienna and in the general staff in St. Petersburg, where a colonel of the general staff and a translator were detailed to

assist him. He is one of the very few Americans to whom such permission has been granted, and he is one of the very few foreigners to whom the French authorities have ever given unlimited access to all Napoleon's secret unpublished correspondence. These researches in the French, Austrian and Russian War Offices, covering many months at different periods since 1897, were rendered necessary by his resolution to write a complete history of "The Campaign of Austerlitz." For more than thirteen years he has worked unremittingly at this history, and it is highly probable that several years more will elapse before it is finished to his satisfaction.

His writings have not been confined to past centuries alone, but, in a lesser degree only, to our own country at the present time, in the effort to make known the defects and dangers of our existing military systems. At the request of the general staff of the United States Army he wrote an article entitled "Is the United States Prepared for War?" which was published as the leading article in the "North American Review" for February and March, 1906. So great was the interest it created, not only in this country but in Europe and Japan, that it was re-published in May, 1907, in pamphlet form, with an introduction by President (then Secretary of War) Taft, and has had world-wide circulation.

An article on the lamentable condition of our military forces was published throughout the country on Jan. 15, 1911, by the United Press. It contained much of the information suppressed in the so-called "confidential report" of the Secretary of War, which gave rise to so much discussion. This was followed by a second article, published in the New York "Times" and more than one hundred other newspapers affiliated with the Publishers' Press, on Feb. 19, 1911, which laid bare the exact conditions of American unreadiness for war "more completely than any statement hitherto made in print or on the floor of Congress."

He has also made a study of European armies and manœuvres. During his last trip abroad, in 1909, he was granted by General Trémeau, the commander-in-chief of the French Army, permission to attend the French manœuvres.

On March 18, 1911, he was appointed the first secretary of the American delegation to the Hague for the Opium Conference which will convene early in July, 1911, and in which all the principal powers will be represented — the most important assemblage at the Hague for several years.

He is a member of the following clubs or societies :

1. The Metropolitan Club of Washington.
2. The Chevy-Chase Club of Washington, of which he is the secretary, a member of the board of governors, the executive committee and the hunt committee, and often acts as master of hounds.
3. The Riding Club of Washington, of which he was one of the founders and is a member of the board of governors and the executive committee.
4. Washington Squash Club, of which he is vice-president and a member of the board of governors.
5. The University Club of New York.
6. Harvard Club of New York.
7. The Hereditary Order of Descendants of Colonial Governors.
8. Society of Colonial Wars in the District of Columbia.
9. District of Columbia Society, Sons of the Revolution, of which he is also a member of the board of managers.
10. He is one of the very few civilian members of the Military Service Institution.
11. The Bath Club of London.

GRAHAM PUTNAM HUNT

Born	<i>at Cincinnati, Ohio, Aug. 7, 1873.</i>
Parents	<i>William Putnam, Margaret Graham (Hopper) Hunt.</i>
School	<i>Franklin School (private), Cincinnati.</i>
Years in College	<i>Three.</i>
Admission Date	<i>September, 1892.</i>
Married	<i>Frances Carlisle Mendenhall, June 20, 1905, Cincinnati.</i>
Children	<i>Frances Mendenhall, June 28, 1906; Graham Putnam, Jr., Nov. 25, 1908.</i>
Occupation	<i>Attorney at law.</i>
Address	<i>1514 First National Bank Bldg., Cincinnati, Ohio.</i>

Graham P. Hunt is still practising law as a member of the firm of Moulinier, Bettman & Hunt at Cincinnati. He has written no books and has held no public office except that of member of the Ohio Legislature in 1900. In 1908-1909 he served as Secretary-Treasurer of the Associated Harvard Clubs, and in 1909-1910 he was the President of the Harvard Club at Cincinnati. He writes that he is not overburdened with modesty, but believes that the above is about all that can be said. He left College the middle of junior year and naturally does not feel that the Class is particularly interested in a long and minute account of his everyday career.

JOHN CUMMINGS HUNT

Born	<i>at Boston, Mass., Oct. 8, 1872.</i>

After leaving Harvard I entered the Law School of the University of Georgia. Since my admission to the Bar I have been practising law in Atlanta. The story is told above. The oldest boy I hope will enter Harvard about 1918.

BARTHOLOMEW JACOB

Born	<i>at Mamaroneck, Westchester County, N.Y., June 26, 1873.</i>
Parents	<i>Leonard, Emma (Lawrence) Jacob.</i>
School	<i>St. Mark's, and private tutors.</i>
Years in College	<i>Three.</i>
Admission Date	<i>September, 1892.</i>
Married	<i>Lydia Mason Brown, April 18, 1901.</i>
Children	<i>Manning and Lawrence (twin boys), Aug. 11, 1902; Emma Lawrence, Nov. 21, 1904; Henry Mason, June 30, 1909.</i>
Occupation	<i>Estate manager and broker.</i>
Address	<i>(business) 68 Broad St., New York. (home) Shippan Point, Stamford, Conn.</i>

I did not return to College for my senior year, resigned (honest) and went to work in the Lincoln National Bank in New York, where I spent three years. I was connected with a cement company for about a year and then went on a trip through the Mediterranean. I continued this trip to China and there entered the employ of Messrs. Fearon, Daniel & Co., for whom I traveled along the coast of China, selling goods on a commission, my headquarters for practically a

year being Port Arthur. The advent of the war between Russia and Japan put an end to business and I returned to New York by way of the Pacific. The year after my return I married and have been living most of the past ten years out of town. Three years ago I entered into partnership with my brother-in-law, Lewis B. Brown, Harvard, 1900 — and together with Philip Curtis, Harvard, '95, we have been carrying on business at 68 Broad Street, New York, organizing and launching a number of enterprises based on patents. I am also the manager of the family estate. Doing pretty well, thank you, on all counts, and very glad to see any of the Class either at the office or at my house in Stamford, Conn., at any time.

EDWARD HOLTON JAMES

Born	<i>at Prairie du Chien, Wis., Nov. 18, 1873.</i>
Parents	<i>Robertson, Mary (Holton) James.</i>
School	<i>Concord (Mass.) High School.</i>
Years in College	<i>1891-92, 1893-96.</i>
Admission Date	<i>September, 1891.</i>
Degrees	<i>A.B.</i>
Married	<i>Louisa Cushing, Dec. 27, 1899, Boston, Mass.</i>
Children	<i>Olivia, Oct. 20, 1900 ; Mary, Oct. 25, 1902 ; Louisa, Feb. 19, 1905.</i>
Occupation	<i>Writer.</i>
Address	<i>22 Rue St. Dominique, Paris.</i>

The four years from 1896 to 1900 I spent partly in travel in Arizona, in journalism in Milwaukee and in studying law in Madison and in Fargo, N.D. From 1900 to 1906 I was engaged in practising law in Seattle. I went to England in January, 1907, where I stayed in London eight months. Coming to Paris in the fall of 1907, I entered the École des Sciences Politiques, where I studied three years. During the third year I wrote a book entitled "The Trial before Pilate," which is the first volume of a larger work which I hope to write upon the "Rise of the French Democracy." For more than a year I have been engaged in publishing a small monthly paper called "The Liberator," the general purpose of which is to spread republican principles in Europe and to

bring about some day, if possible, an international republic. My wife and children are with me in Paris. I was in Lisbon for two months next following the revolution of Oct. 5, 1910, and made friendships with President Braga and other members of the provisional government of the Portuguese republic. This I count as one of the most valuable experiences of my European life. If more republics are not set up in dear old Europe it will not be my fault.

LAWRENCE WATERS JENKINS

Born	<i>at Salem, Mass., Dec. 23, 1872.</i>
Parents	<i>Charles Trinder, Lucy Dane (Weston) Jenkins.</i>
School	<i>Noble's School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Married	<i>Arvilla Bray, Sept. 10, 1901, Salem, Mass.</i>
Children	<i>Stephen Waters, Nov. 22, 1902; Dorothy, Jan. 20, 1906; Benjamin Gilbert, Oct. 29, 1907.</i>
Occupation	<i>Curator of ethnology.</i>
Address	<i>(business) Peabody Museum, Salem, Mass. (home) 273 Locust St., Danvers, Mass.</i>

President of the Salem Club, 1907-8 and 1908-9.

Moved to Danvers in June, 1910.

Elected Major Second Corps Cadets on Jan. 24, 1911.

THORNTON JENKINS

Born	<i>at West Barnstable, Mass., June 4, 1873.</i>
Parents	<i>Asa, Josephine (Whelden) Jenkins.</i>
School	<i>Private tutor and at Amherst.</i>
Years in College	<i>Two.</i>
Admission Date	<i>September, 1894</i>
Degrees	<i>A.B.; A.M., 1897.</i>
Married	<i>Kate Pineo Chase, June 26, 1901, Hyannis, Mass.</i>
Children	<i>William Whelden, Oct. 5, 1902; Josephine, Jan. 29, 1904; Peter Pineo, Oct. 12, 1908.</i>
Occupation	<i>Teacher.</i>
Address	<i>(business) Malden High School. (home) 14 Gellineau St., Malden, Mass.</i>

For the last ten years I have been teaching Latin in Malden High School. Previously I was at the high school in Passaic, N.J. There I taught Latin. Before that I was at the Cas-

cadilla School in Ithaca, N.Y. There also I taught Latin. In every one of these years I have heard more or less about Cæsar, and Cicero and Catiline and the rest of the crew. In every one of these years I have watched the spectacle of young boys heroically attacking *amo*, and of older boys going out like martyrs to undergo the Harvard examinations. They come — they go — these boys (and also girls) in a long procession, and always it is Latin between them and me. I expect I shall be watching a similar procession at the end of another decade — unless Troy shall then have fallen and the classics be taught no more.

ERNEST CLARENCE JEWELL

Born	<i>at Lawrence, Mass., April 6, 1872.</i>
Parents	<i>Orwell M., Emily Carleton (Reed) Jewell.</i>
School	<i>Lawrence High School and Andover.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Married	<i>Elizabeth G. MacIntyre, July 23, 1902.</i>
Children	<i>Emily R., May 30, 1903 ; William, Dec. 9, 1904.</i>
Occupation	<i>Teacher mathematics, Lawrence High School.</i>
Address	<i>463 Lowell St., Lawrence, Mass.</i>

Since the last Class report there is little eventful to record. I am still teaching mathematics in the Lawrence High School, as I have been for the last fourteen years, being now, and for several years past, head of the mathematical department. My two children, Emily, aged eight years, and William, six years, are vigorous and healthy, and already started on the educational road. Were it not for them I should not realize that fifteen years have passed since graduation. For avocations, we have invaded the art field — my wife as painter, myself as musician. Though my life is not eventful, I am content, and can only hope fortune may present as favorable an aspect to my classmates as it has to me thus far on the journey.

Henry Sparks Johnson

Born	<i>at North Brookfield, Mass., Oct. 22, 1874.</i>
Parents	<i>Hosea W., Estella G. (Sparks) Johnson.</i>
School	<i>Boston Latin School.</i>

Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Married	<i>Gertrude L. Hall, Oct. 21, 1902, Los Angeles, Cal.</i>
Occupation	<i>Banking.</i>
Died	<i>June 23, 1907.</i>

For some years after leaving College Johnson was in the employ of the Bank of Redemption of Boston. On account of failing health he went West and secured a position in Los Angeles with the Farmer's and Merchant's Bank. In 1904 he was made assistant cashier of the Azusa Valley Bank and later cashier of the First National Bank of Azusa. Shortly before his death his condition necessitated his retiring from business and he went to live in a camp in the mountains, where he died. He was one of the most enthusiastic members of '96 and came on from the West to especially attend the last Class reunion, while in his subsequent communications to the Secretary he would look forward to the Quindecennial and express his hope of being present.

THOMAS JOSEPH JOHNSON

Born	<i>at Boston, Mass., Feb. 14, 1874.</i>
Parents	<i>Thomas J., Margaret A. (Foley) Johnson.</i>
School	<i>English High School of Boston.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Unmarried	
Occupation	<i>Jobbers of building materials.</i>
Address	<i>(business) 896 Washington St., Boston, Mass. (home) 30 Sumner St., Dorchester, Mass.</i>

In 1896 became member of the firm of Thomas J. Johnson & Co., jobbers of building materials, and am still a member.

ELIOT NORRIS JONES

Born	<i>at Bangor, Me., Sept. 4, 1874.</i>
Parents	<i>Ralph Kneeland, Octavia Ann Yale (Norris) Jones.</i>
School	<i>Boston Latin School, Hopkinson's.</i>
Years in College	<i>Three.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.; LL.B., 1898.</i>

Married	<i>Theodora Bowditch, June 18, 1903.</i>
Children	<i>Selma Bowditch, May 10, 1908.</i>
Occupation	<i>Lawyer.</i>
Address	<i>(business) 50 State St., Boston.</i> <i>(home) 8 Acorn St., Boston.</i>

Since graduating from the Law School in 1898 I have been practising law in Boston, for the last nine years by myself.

For a number of years I have been on the Executive Committee of the Good Government Association, as the delegate of the Boston Bar Association. The G.G.A. continues the work of an earlier organization which Balch, Palfrey, and I had a hand in starting.

I have written nothing except occasional articles on municipal matters for "City Affairs," published by the G.G.A.

Since the last report I have a daughter, Selma Bowditch Jones.

FREDERIC MARSHALL JONES

Born	<i>at Charlestown, Mass., June 21, 1874.</i>
Parents	<i>Marshall, Mary Ann (Roberts) Jones.</i>
School	<i>Somerville High.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B. ; S.B., 1900.</i>
Married	<i>Florence Osborne Harris, Oct. 30, 1907, Springfield, Mass.</i>
Occupation	<i>Architect.</i>
Address	<i>(business) 919 Exchange Bldg., 53 State St., Boston, Mass.</i> <i>(home) 17 Somerset Rd., West Newton, Mass.</i>

The past five years have been momentous years for me personally, though I seem to have given little to the world in return.

My marriage in 1907 and the attendant home making have kept me busy in the domestic line.

Plenty of work at the same old job, architecture, with Peabody & Stearns.

Two grand holidays, a winter in Italy and a motor trip

through England and France, supplemented by the regulation trip through Switzerland and Italy.

And now a great sadness has come this winter in the loss of a first-born son.

These five years seem to have held for me all the elements of a lifetime.

JOHN HALL JONES

Born	<i>at Belfast, Ireland, July 10, 1868.</i>
Parents	<i>Edward, Annie (Hall) Jones.</i>
School	<i>Claverack, N. Y.</i>
Years in College	<i>Three.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A. B. ; LL. B., 1898.</i>
Married	<i>Alice Virginia Bradford Tobey, May 23, 1908, Wareham, Mass.</i>
Occupation	<i>Lawyer.</i>
Address	<i>34 West 33d St., New York City.</i>

Occupation for past five years, — head of Legal Department of the Sperry and Hutchinson Company "Green Trading Stamp Company." Principally engaged in defending the Green Trading Stamp system of advertising from unconstitutional attacks by state and city legislative bodies throughout the United States, and as a specialist on trademark and unfair competition cases. Have argued cases in United States Supreme Court, and in court of last resort in Massachusetts, Minnesota, New York, West Virginia, Maryland, and many other minor State and Federal courts, and furnished briefs for similar cases in Hawaii, Bermuda, Canada, Colorado, California, Vermont, New Hampshire, Connecticut, Pennsylvania, Washington, Georgia, Oregon, Maryland, and appeared before legislative committees in more than seventeen States.

Am general counsel for Philip Morris & Co., Ltd., cigarette manufacturers, and have tried cases for American Tobacco Company and its subsidiary corporations, Butler-Butler, Inc., and United Cigar Stores Company, defending trademark rights and enjoining unfair competition.

Am director of and counsel for Bronx National Bank of

New York City. Have found the law "a jealous mistress," exacting the last ounce of energy, and paying a modest competence in return for much anxiety and responsibility.

ELI JOSEPH

Born	<i>at Cincinnati, O., Oct. 11, 1876.</i>
Parents	<i>Joseph, Minnie (Brown) Joseph.</i>
School	<i>Cincinnati, O.</i>
Years in College	<i>Three.</i>

LEONARD JOSEPH

Born	<i>at Cincinnati, Ohio, Dec. 22, 1873.</i>
Parents	<i>Jos., Minnie (Brown) Joseph.</i>
School	<i>Hughes High School, Cincinnati, Ohio.</i>
Years in College	<i>One and a half.</i>
Admission Date	<i>September, 1892.</i>
Married	<i>Helen J. Rosenfield, Dec. 6, 1910, Galveston, Tex.</i>
Occupation	<i>Merchant and exporter.</i>
Address	<i>(business) 400 Security Bldg., Galveston, Tex. (home) 1409 Broadway, Galveston, Tex.</i>

Went into business after leaving College with Jos. Joseph & Bros. Co., Cincinnati, Ohio, and later was vice-president of this company with my headquarters in New York City. Continued in this business until 1905, when I retired from active commercial business. Sorry to say—while traveling for pleasure through Europe—I began speculating in stocks, etc., on Wall Street. It seemed easy at first—but oh! fellow classmates, it's a bad game! Take a fool's experience and advice and keep away from it! But I have not been asked for a sermon, so I need go no further in this direction than to

tell you that I had made, myself, a sufficient fortune to retire from active business for life and might have followed any pursuit for my pleasure or for the betterment of my fellow-men if I had not become entangled in that desperate game on Wall Street.

After suffering the "sting" of my losses, after more or less severe hardships — "roughing it through the desert," etc. — I finally "pulled myself together" and I am glad to say that I am now again engaged in the iron business and hope and believe I will again regain the fortune I lost (but I *won't* try to get it again where I last lost it!). I am now president of the Phoenix Iron & Steel Company, not a very large concern, but I am contented to think it may yet grow. "The world was not made in a day" and it's not good to get rich too fast!

FRED ROBERT JOUETT

Born	<i>at Cambridge, Mass., Aug. 11, 1874.</i>
Parents	<i>Mark Robert, Mary J. (Yerxa) Jouett.</i>
School	<i>Somerville High School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B. ; M.D., 1899.</i>
Married	<i>Florence Emile Prior, Sept. 28, 1904, Cambridge (died June 27, 1906).</i>
Occupation	<i>Physician.</i>
Address	<i>3 Garden St., Cambridge.</i>

After leaving College I entered the Harvard Medical School, from which I graduated in 1899. I then served as house physician at the Massachusetts General Hospital till August, 1910. I began the practice of medicine in Cambridge, Jan. 24, 1901, first at 62 Brattle Street, and on Sept. 1, 1904, removed to 3 Garden Street, where I am at present located.

Born	<i>at Dubuque, Iowa, June 2, 1872.</i>
Parents	<i>Nelson W., Harriet (Taft) Kimball.</i>
School	<i>Phillips Exeter Academy.</i>

Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Unmarried	
Occupation	<i>Finance.</i>
Address	<i>1494 Main St., Dubuque, Iowa.</i>

My life since graduation is such an uneventful one that it will not prove interesting reading to my classmates. It has been spent partly in European travel, partly in clerking in a bank, but mostly in assisting my aged parents in the management of their personal property, their farm lands, and other real estate.

Since the death of my parents in 1909, the closing of their estates has taken much of my time, and at present I am quite undecided what my future business will be.

Am or have been an officer or director in several of the above. Also several clubs and societies in other parts of the country.

LINUS WARD KLINE

Born	<i>at Benton, Pa., Oct. 16, 1866.</i>
Parents	<i>Josiah, Lydia (Hess) Kline.</i>
School	<i>Public and private schools in State of Virginia.</i>

Years in College	<i>Three.</i>
Admission Date	<i>September, 1893.</i>
Degrees	<i>S.B. ; Ph.D. (Clark University).</i>
Married	<i>Fannie Talbot Littleton, Jan. 23, 1902, Suffolk, Va.</i>
Occupation	<i>Teacher.</i>
Address	<i>(business) State Normal School, Duluth, Minn.</i> <i>(home) Duluth, Minn.</i>

I came to Duluth in the fall of 1902 as teacher of psychology in the State Normal School located in this city. The thing about which I am most "chesty" is the psychological laboratory that I have built up through eight years of continuous endeavor. The cost of the apparatus alone is over \$1,000. Psychologists will tell you that a psychological laboratory in a State normal school is a *rara avis in terris*.

HENRY FRANCIS KNIGHT

Born	<i>at Boston, Mass., Oct. 13, 1874.</i>

EDWARD GUSTAVUS KNOBLAUCH

Born	<i>at New York City, April 7, 1874.</i>
Parents	<i>Charles Edward, Gertrude (Wiebe) Knoblauch.</i>
School	<i>Dr. Sachs' Collegiate Institute, New York.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A. B.</i>
Unmarried	
Occupation	<i>Playwright.</i>
Address	<i>40 Dover St., London, England.</i>

I have lived in England most of the time since I left College, working at play-writing. In 1906 I had a play, or

rather a dramatization of a novel, produced; it was called "The Shulamite." This was done both in London and later in the United States, Miss Lena Ashwell playing the principal part. In 1907 I was engaged at the Kingsway Theatre, London, as literary adviser. Here I read plays for two years, altogether reading about two thousand five hundred. In the summer of 1909 I wrote a dramatization of "Priscilla's Fortnight," which was produced at the New Theatre, New York, under the title of "The Cottage in the Air" in November of that year. In 1910 I wrote "The Faun," which was produced by William Faversham in January, 1911, — in Erie on the ninth of that month and in New York on the sixteenth. I am now in London busy rehearsing a new play called "Kismet," which deals with an Arabian subject. I expect it to be done some time in April. Oscar Asche is playing the principal part. I expect to return to New York in the autumn and though for a few years I may have to divide my time between New York and London, hope ultimately to make the former my headquarters.

Frederic Lawrence Knowles

Born	<i>at Lawrence, Mass., Sept. 8, 1869.</i>
Parents	<i>Daniel C., Lucia M. (Barrows) Knowles.</i>
School	<i>Wesleyan (Conn.).</i>
Years in College	<i>One.</i>
Admission Date	<i>September, 1895.</i>
Degrees	<i>A.B.; A.B., 1894 (Wesleyan).</i>
Unmarried	
Occupation	<i>Writer and literary adviser.</i>
Died	<i>Sept. 19, 1905.</i>

After leaving College he was teacher of English in Tilton Seminary, Tilton, N.H., from 1896–1898. He then became manuscript reader for Houghton, Mifflin & Co., and a short time after literary advisor for L. C. Page & Co. He remained with this latter firm until 1900, when he accepted the position of literary editor with Dana Estes & Co., and was in their employ at the time of his death, which occurred from typhoid fever contracted during his vacation in the summer of 1905. At intervals from 1900 he published the

following: "Practical Hints for Young Writers," "Cap and Gown," "Golden Treasury of American Songs and Lyrics," "A Kipling Primer," "On Life's Stairway," original verse; "A Year Book of Famous Lyrics," "A Treasury of Humorous Poetry," "The Famous Children of Literature Series," 6 vols.; "Love Triumphant," a book of ninety original poems. He was also an occasional contributor to "Atlantic," "Century," and "Harper's" monthly magazines. In his early death American literature suffered a great loss as the quality of his work indicated that he would be among the foremost of our poets.

GEORGE WILLIAM KNOWLTON, JR.

Born	<i>at West Upton, Mass., July 15, 1874.</i>
Parents	<i>George William, Sarah Louise (Plummer) Knowlton.</i>
School	<i>Dalzell's School, Worcester, Mass.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Married	<i>Gwendolyn Burris, 1900, in Brooklyn, N. Y.</i>
Children	<i>George William, 3d, Sept. 8, 1901; John, Aug. 18, 1903; Gwendolyn, Oct. 18, 1906 (died Oct. 28, 1908).</i>
Occupation	<i>Straw goods manufacturer.</i>
Address	<i>West Upton, Mass.</i>

During the whole period since I left Harvard, I have been connected with the firm of William Knowlton & Sons. The first year was spent in the factory and the following seven years in the salesrooms at 564 Broadway, New York. During the past six years I have been at the factory. My present position is general manager and purchasing agent.

I have been a member of the School Board for five years, and am at present chairman. I have also been a member of the Republican Town Committee for several years.

ARTHUR KUHN

Born	<i>at Corinne, Utah, Dec. 25, 1872.</i>
Parents	<i>Abe, Fanny (Rosenbaum) Kuhn.</i>
School	<i>All Hallows College, Salt Lake City and Ogden Military Academy.</i>

Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Married	<i>Sylvia Newberger, Jan. 7, 1904, Louisville, Ky.</i>
Children	<i>Ad, May 22, 1905; Stanley, Feb. 28, 1910.</i>
Occupation	<i>Secretary-Treasurer, A. Kuhn & Bro.; Secretary, Merchants Light and Power Company; Treasurer, Ogden Canyon Resort Company.</i>
Address	<i>(business) 2363-2365 Washington Ave., Ogden, Utah. (home) 536 24th St., Ogden, Utah.</i>

After one year (1897) in Law School I came here to Ogden, entering firm of A. Kuhn & Bro. as bookkeeper. In 1904, after seven years, the firm was incorporated and I was made secretary-treasurer and general manager of the wholesale and retail departments. I am also treasurer of the Ogden Canyon Resort Company and secretary of the Merchants Light and Power Company of Ogden which has been awarded the contract of lighting our city.

During the past five years I have held various positions in the Weber Club, a business social club of Ogden. Have been twice elected as director of the Utah Association of Credit Men of Salt Lake City, and am still serving. During the past year I have been raised to Thirty-second Degree Mason, and these, together with numerous card clubs, dancing clubs and baseball clubs I have joined, have kept my time well occupied. As to baseball, after leaving Harvard I was made captain of Ogden Club, and won the championship of the Intermountain region three consecutive years, till retiring for business reasons. Annually, even now, I captain our Commercial Club and take a "fall" out of Salt Lake's Commercial Club in true Harvard style.

FREDERICK HEMAN LADD

Born	<i>at Haverhill, Mass., Aug. 31, 1872.</i>
Parents	<i>John Weld, Eliza Dodge (Wardwell) Ladd.</i>
School	<i>Phillips Andover Academy.</i>
Years in College	<i>Two.</i>
Admission Date	<i>September, 1892.</i>
Married	<i>Sarah Emma Jones, of East Boston, Mass., Oct. 19, 1899, at Westport, Me.</i>
Children	<i>Bertha Jones, Aug. 12, 1900; Marion Dorothea, July 6, 1903; John Weld, Dec. 21, 1906.</i>

Occupation	<i>Newspaper work.</i>
Address	<i>(business) Lawrence Telegram, Lawrence, Mass.</i> <i>(home) 46 Whittier St., Andover, Mass.</i>

Left Harvard in the fall of 1894; took up newspaper work in New Bedford, and was city editor of the New Bedford "Journal" till the fall of 1896; joined the staff of the Lawrence "Telegram" that year and is still with that paper, holding the position of city editor; has been correspondent of the Associated Press since 1897; is correspondent of the Boston "Advertiser" and "Record" for the Lawrence district, and representative of the Pittsburg "Gazette-Times" in Lawrence; has served as acting correspondent of the Boston "Globe" in Andover for fourteen years, and for ten years was acting correspondent of the Boston "Herald" in the Lawrence district; has written for several New York and Chicago newspapers.

CARLETON CUSHING LANE

Born	<i>at Bridgeport, Conn., March 22, 1874.</i>
Parents	<i>Seth Cushing, Sarah Eleanor (Cloudman) Lane.</i>
School	<i>Adams Academy.</i>
Years in College	<i>Two.</i>
Admission Date	<i>September, 1892.</i>
Married	<i>Susan Godfrey Morse, Dec. 15, 1906.</i>
Children	<i>Eleanor, July 26, 1908; Samuel Morse, July 9, 1909.</i>
Occupation	<i>Broker.</i>
Address	<i>(business) Hayden Stone & Co., 87 Milk St., Boston.</i> <i>(home) 205 Goffe St., Quincy, Mass.</i>

Since Nov. 1, 1906, I have been with the firm of Hayden Stone & Co., brokers. The initial salary being sufficient to enable me to get married and being in possession of my future father-in-law's consent, I took the fatal plunge the fifteenth of the following December. This union evidently pleased the omnipotent power, and I was blessed with a daughter and son, and ever since have been hustling to support them. I have never written a book, but if I ever do it will be a complete work in 60 vols., 8vo, full morocco, de luxe limited edition on "Sleepless Nights and its Relation to Modified Milk."

CHARLES NEWTON LATHROP

Born	<i>at San Francisco, Cal., Nov. 16, 1871.</i>
Parents	<i>Henry D., Sarah B. (McElroy) Lathrop.</i>
School	<i>Oakland High School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Unmarried	
Occupation	<i>Clergyman. Rector of the Church of the Advent.</i>
Address	<i>Church of the Advent, San Francisco, Cal.</i>

For three years after graduation I went to Western Theological Seminary, Chicago. One year I had to lay off — from illness. I spent it in Arizona, riding and camping. So I spent four years in preparation.

In July, 1900, I was ordained to the diaconate. On Jan. 1, 1901, I came to my present work and was ordained to the priesthood in the following July. I have been here ever since.

In April, 1906, the earthquake shook my church and parish well to pieces and the fire helped to make the demolition more complete. What was left, however, having been tried as by fire, has made a solid foundation to build on. The last five years have been spent in this building.

AMOS AMORY LAWRENCE

Born	<i>at Boston, Mass., December, 1874.</i>
Parents	<i>Amory A., Emily F. (Silsbee) Laurence.</i>

JOHN EDWARDS LeBOSQUET

Born	<i>at Cambridge, Mass., Oct. 29, 1872.</i>
Parents	<i>Henry Scottoe, Ella Frederika (Edwards) LeBosquet.</i>
School	<i>Somerville High School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.; S.T.B., 1899 (Andover Theological Seminary); A.M., 1906 (Harvard); Ph.D., 1907 (Harvard).</i>
Married	<i>Edith Almyra Dustin.</i>
Children	<i>Henry Dustin, June 3, 1904 (died June 6, 1904).</i>
Occupation	<i>Clergyman.</i>
Address	<i>1128 Pine St., Boulder, Col.</i>

After studying for the ministry at Andover Seminary and in Germany, I was ordained and became pastor in New Boston, N.H. Not yet satisfied, however, with my already lengthy education, I returned in 1905 to "old Harvard" and reached in June, 1907, my long-desired goal of a doctor's degree in philosophy.

Had at that time an idea of college teaching and was appointed Assistant in Philosophy for 1907-1908 under Professor Palmer. But the breadth and humanism and larger opportunities of preaching could not be forgotten, and they made me homesick for the ministry, which I entered again as pastor of the Congregational Church at Turner's Falls, Mass., in 1908. There I remained till August of this year (1910) when I removed to my present pastorate of the First Congregational Church in Boulder, Col. This is a most

beautiful residence city, the seat of the University of Colorado, and twenty-nine miles out from Denver.

Things have gone quietly and smoothly with me and mine. There is nothing startling to record, no fame and no notoriety, and no books written — though I have had the honor of receiving back some articles “with thanks.” A parson’s life looks uneventful and *is* uneventful, made up as it is of constant study and thought over the times and the truth, joined with a constant effort to be practically useful to a concrete community of well-known individuals. Yet one is somewhat sure of a degree of serviceableness — anyhow I have been deeply happy and each year more satisfied with my business.

It’s too bad, but I shall almost certainly be absent from the coming reunion. The last one was great! I have known more men since graduating than before. Best wishes for a successful gathering and best regards to John Ward and Capron and Fairchild and A. G. Lewis and all the other fellows I had good talks with on the green at the Country Club, and on the sands at the clam-bake (how I’d like one now!) at Point of Pines!

Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Married	<i>Harriett Georgia Curtis, Sept. 7, 1899, Chicago, Ill.</i>
Children	<i>Harriett Curtis, July 12, 1900; Harlow Addison, Sept. 4, 1901; John Darwin, Nov. 12, 1905; Charlotte Catherine, July 18, 1909.</i>
Occupation	<i>Attorney and counsellor at law and specially employed as Special Assistant to the Attorney-General of the United States.</i>
Address	<i>P.O. Box 1073, Muskogee, Okla.</i>

Upon my return to my home, Chicago, in 1896, I studied law, was admitted to the Bar, married, and thought I was settled. After having practised independently for a year, my wife's health made a change in climate necessary, and in the early spring of 1902 I dropped everything and with my wife and two children came to Muskogee, then Indian Territory, having secured a place as law clerk to the Commission to the Five Civilized Tribes. I had no thought of remaining here, but my wife's health improved so remarkably in a short time that I stayed. In a few months I left my service with the Commission upon my appointment as United States Commissioner. The next three and a half years were very busy, my jurisdiction being criminal as well as civil. In March, 1906, I took the appointment as Assistant United States Attorney, having ambitions to become United State Attorney with statehood. My candidacy was looked upon with favor, but the President's leanings were a little more strong to Rough Riders than to unattached Harvard men and I got second place only. After statehood, in November, 1907, I continued as Assistant United States Attorney until specially employed by the Attorney-General of the United States, in August, 1908, in the prosecution of about 30,000 suits to have cancelled illegal conveyances of allotted lands.

Occasionally I get to Chicago to a meeting of the Harvard Club, and I assisted in organizing and am now president of

the Harvard Club of Oklahoma, three years old, with a membership of about one hundred, and one of the Associated Harvard Clubs. The annual dinner is typically enthusiastic.

In the nine years of my residence I have seen Muskogee grow from a village of 4,000, without sidewalks, paved streets or a water system, to a hustling, ever-growing little city of 30,000 with miles of asphalt streets and boulevards, a water system equal to the best, and all the accompaniments of the modern American city. The gain in population has been nearly 500 per cent. Aside from the interest to be had in being a worker in the building, I have picked off my share in the prosperity resulting from such rapid growth.

Occupation	<i>Physician.</i>
Address	<i>(business) 602 Perrin Bldg., New Orleans, La.</i> <i>(home) 6110 St. Charles Ave., New Orleans, La.</i>

The whole time since my graduation from Harvard has been spent in medicine, first in studying, later in practising

and teaching medicine. The year November, 1904–November, 1905, was spent abroad in Germany and Austria in post-graduate medical study. From 1905–1910 I was Lecturer and Instructor in Medicine, Medical Department, Tulane University of Louisiana. In October, 1910, I was advanced to the grade of Assistant Professor of Clinical Medicine in the same institution. Other positions held are: Visiting Physician to the Charity Hospital, Visiting Physician to Touro Infirmary.

Beyond a fair number of technical contributions to medical journals I have done no writing.

GILBERT NEWTON LEWIS

Born	<i>at Weymouth, Mass., Oct. 23, 1875.</i>
Parents	<i>Frank W., Mary B. (White) Lewis.</i>
School	<i>University of Nebraska.</i>
Years in College	<i>Three.</i>
Admission Date	<i>September, 1893.</i>
Degrees	<i>A.B.; A.M., 1898; Ph.D., 1899.</i>
Unmarried	
Occupation	<i>Associate professor of physical chemistry.</i>
Address	<i>Massachusetts Institute Technology, Boston, Mass.</i>

After graduation I spent a year in teaching at Phillips Academy in Andover and then returned to the Harvard Graduate School, where at the end of two years I received the doctorate in chemistry. Except for one year in Germany I remained at Harvard as instructor in chemistry, until the summer of 1904, when I felt a desire to know how the other half of the world lives and went to Manila as superintendent of weights and measures under the Philippine government. One year's experience in the tropics was ample and I returned to this country to accept a position in the Research Laboratory of Physical Chemistry of the Massachusetts Institute of Technology. Here I have remained and have spent my time in the prosecution and direction of numerous investigations in chemistry and physics. These have been published in some thirty papers, even the titles of which would make very unpleasant reading for most members of the Class of '96. In 1907 I became assistant professor and, in the following year, associate professor of chemical research in this institution. In the course of my academic and scientific work I have had the good fortune to be brought into contact with several members of the Class of '96, who, although not prominent in the councils of the class, are achieving great distinction in their chosen fields.

HERSCHEL WILDER LEWIS

Born	<i>at Somerville, Mass., Nov. 4, 1873.</i>
Parents	<i>James Calvin, Vandelia (Drisko) Lewis.</i>
School	<i>Somerville Latin High School.</i>
Years in College	<i>Four.</i>

Admission Date	<i>September, 1892.</i>
Degrees	<i>A. B.</i>
Married	<i>Nettie Eliza Lucas, Jan. 3, 1899, Wolfeboro, N. H.</i>
Children	<i>Richard James, May 9, 1902 ; Howard Andrew, Dec. 28, 1905.</i>
Occupation	<i>Teacher.</i>
Address	<i>New Ipswich, N. H.</i>

Since leaving Harvard I have followed teaching as a profession. I use the word "followed" advisedly; whether or not I have ever caught up with it is left for sundry boards of trustees and school committees, under whom I have labored, to settle. 1896-1897 I taught as a substitute assistant in the Brewster Free Academy of Wolfeboro, N. H.; 1897-1899 I taught as assistant in the Highland Military Academy of Worcester, Mass.; 1899-1902 I was principal of the High School of Essex, Mass.; 1902-1906 I was principal of the High School of Littleton, Mass. Up to this point I am quite aware that my record altogether too closely resembles that of an itinerant preacher, but if a rolling stone gathers no moss, neither does it become a moss-back. In all this wandering about I can see now that I was gathering invaluable experience for the successful filling of a position — we are told, you know, not to be too modest in saying something about ourselves — to which I was appointed in January, 1906, by Prof. James Barr Ames, late Dean of the Harvard Law School. Professor Ames was at that time and up to his death, Jan. 8, 1910, one of the most influential trustees of the New Ipswich Appleton Academy of New Ipswich, N. H., the second oldest academy in the State, founded in 1788. This school, after a long and favorable period of prosperity, had gradually declined until at the time when I was called to assume the direction of its affairs it had dwindled to an unclassified membership of about fifteen pupils, some pursuing grammar school, and others secondary school studies. It was my task to reorganize this chaos and establish an efficient English high and college preparatory school which should attract pupils from far and near by impressing upon all that knew it a sense of its soundness. In this task I was supported by a board of trustees who could be surpassed nowhere for intelligence, loyalty, and

generosity. Within four years after I came here we had fifty pupils and a building thoroughly up to date in its appointments, including chemical and physical laboratories, which were non-existent five years ago. We are now contemplating the addition of industrial courses, to keep abreast of the times. We have had to increase our teaching force, and shall have to do so again soon. The satisfaction I have felt at the success of my endeavors here is to me greater than any riches or emoluments. My position as the head of an endowed school independent of local control, is intrinsically comfortable and satisfactory, and it would take a considerably larger salary than I am receiving at present to entice me elsewhere.

KENNETH HASTINGS LEWIS

Born	<i>at Bar Harbor, Me., Aug. 21, 1875.</i>
Parents	<i>Col. Chas. H., Oriana (Pendleton) Lewis.</i>
School	<i>Cutler's School, New York, and Nobles' School, Boston.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Unmarried	
Occupation	<i>Banker.</i>
Address	<i>(business) 19 Congress St., Boston, Mass. (home) Beverly Farms, Mass.</i>

On leaving College I went to work for the firm of F. S. Mead & Co., bankers. Leaving the banking business I went with Geo. H. McFadden & Co., cotton merchants, of Philadelphia, having a branch in Boston, with whom I stayed for three years. Now I am a member of the banking firm of Hawes, Tewksbury & Co., 19 Congress Street, specialists in the stocks of cotton mills and other New England manufacturing companies.

I am single and *obliged* to pay the bachelor's tax.

JACOB HENRY BROWNE LEWMAN

Born	<i>at Seymour, Ind., June 3, 1872.</i>
Parents	<i>M., Adeline (Peter) Lewman.</i>
School	<i>De Pauw College, Newcastle.</i>
Years in College	<i>Three.</i>
Admission Date	<i>September, 1892.</i>

Married	<i>Mary Huntoon Vance, Sept. 29, 1909, Louisville, Ky.</i>
Children	<i>Morgan Browne, Dec. 11, 1910.</i>
Occupation	<i>Seed merchant.</i>
Address	<i>(business) 217 West Main St., Louisville, Ky. (home) 45 Castlewood St., Louisville, Ky.</i>

The most important thing I have done was to take my step-father's name. My College name was Jacob H. Browne, I changed it to Jacob B. Lewman. After leaving College I went into the First National Bank and worked up from runner to cashier. In 1905 I entered into the mercantile business under the name of Hardin, Hamilton & Lewman.

I hope to be at the reunion next June. In the meanwhile if any of the '96 boys come to Louisville I will see that they will get better whiskey than they can get down on Atlantic Avenue.

MERRICK LINCOLN

Born	<i>at Worcester, Mass., May 25, 1875.</i>
Parents	<i>Waldo, Fanny (Chandler) Lincoln.</i>
School	<i>Dalzell's School, Worcester.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A. B.; M.D., 1900.</i>
Married	<i>Mary Bowker, April 29, 1908.</i>
Occupation	<i>Physician.</i>
Address	<i>2 Linden St., Worcester, Mass.</i>

Since graduation from College I studied medicine in the Harvard Medical School, being graduated from there in 1900. Then for a year and a half was medical interne at the Massachusetts General Hospital, after which I traveled and studied medicine in Europe for a year. Since January, 1903, I have been practising medicine in Worcester, Mass., and most of my activities have been in that or allied lines. I have been connected with two of the local hospitals, occupying sundry positions, so that in the course of time I have become assistant visiting physician to Memorial Hospital and physician to diseases of the digestive organs at the Worcester City Hospital. For two years was a school physician and assistant city bacteriologist, which positions I resigned in 1909 when appointed city physician of Worcester for three years. For

five years I have been librarian of the Worcester District Medical Society.

In April, 1908, I was married to Mary Bowker.

Am a member of the Worcester Club, the Tatnuck Country Club, and the Massachusetts Medical Society.

GEORGE LIPPINCOTT

Unmarried	

Occupation	<i>Lawyer.</i>
Address	<i>(business) 2 Rector St., New York City.</i> <i>(home) 80 Westminster Road, Brooklyn, N. Y.</i>

After leaving College I took the law course in the Albany Law School and was admitted to the Bar in 1898. In the fall of that year I moved to New York, where I have since practised law, and since 1900 in partnership with my brother, Daniel E. Lynch, '95, under the firm name of D. E. & J. F. Lynch.

Thomas James Manahan

Born	<i>at Boston, Mass., June 18, 1873.</i>
Parents	<i>Thomas Stanley, Ellen Therese (Slattery) Manahan.</i>
School	<i>Boston English High.</i>
Years in College	<i>Three.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>S.B.; M.D., 1899.</i>
Married	<i>Margaret Clapp, fall of 1899.</i>
Occupation	<i>Physician.</i>
Died	<i>Feb. 14, 1911.</i>

The following is reprinted from the Boston "Herald" of Feb. 14, 1911:

"Dr. Thomas J. Manahan, formerly a member of the staff of the Massachusetts General Hospital and a leading yachtsman, died yesterday at his private hospital in Brookline in his thirty-eighth year.

"Dr. Manahan was born in Boston. He was educated in the public schools, then went to Harvard, from which he was graduated in the Class of 1896. In 1899 he was graduated from the Harvard Medical School. While at Harvard he became prominent in athletics and played on both the freshman and 'varsity elevens.

"He gave much time to coaching various 'varsity teams, especially the Harvard crews. He had charge of the Harvard 'varsity crew on their visit to England. In the summer of 1903 he was the doctor in charge of the crew of the cup defender 'Reliance,' of which the late Capt. Charles Barr was sailing master.

"During the Spanish-American War he had charge with the

late Dr. Burrell in fitting out the hospital ship 'Bay State,' on which he made four trips. He was associated for many years with the Massachusetts General Hospital. Owing to ill health he retired from the hospital for a long vacation. He married Miss Margaret Clapp in the fall of 1909."

PHILIP MANSFIELD

Born	<i>at Boston, Mass., Nov. 8, 1874.</i>
Parents	<i>E. Sumner, Maria Edgeworth (Trowbridge) Mansfield.</i>
School	<i>Boston Latin School and private tutors.</i>
Years in College	<i>One.</i>
Admission Date	<i>September, 1892.</i>
Married	<i>Margaret Hughes.</i>
Children	<i>Adeline; Pauline.</i>
Occupation	<i>Lawyer.</i>
Address	<i>(business) 18 Tremont St., Boston, Mass. (home) Cottage Hill, Winthrop, Mass.</i>

I am practising law at 18 Tremont Street, Boston, my firm being Mansfield & Whalen.

After leaving my father's office, who is a member of the Bar and Consul of Belgium, I practised in this city and subsequently went to San Francisco where I became associated with the firm of Campbell, Metson & Campbell. Subsequently I became a member of the firm of Vahey, Innes & Mansfield of this city.

ARTHUR HUDSON MARKS

Born	<i>at Lynn, Mass., July 31, 1874.</i>
Parents	<i>Wm. Arthur, Clara M. (Beede) Marks.</i>
School	<i>Lynn Classical High.</i>
Years in College	<i>Two.</i>
Admission Date	<i>September, 1892.</i>
Married	<i>Florence B. Whitney, Oct. 5, 1896.</i>
Children	<i>Robert Whitney, Oct. 21, 1897.</i>
Occupation	<i>Vice-president and general manager Diamond Rubber Company.</i>
Address	<i>(business) Care of Diamond Rubber Company, Akron, Ohio.</i> <i>(home) Akron, Ohio.</i>

I left College at the end of 1894, expecting to return and finish after the lapse of a year, but was unable to do so. I entered the employ of the Boston Woven Hose and Rubber Company, in Cambridge, Mass., early in 1895 as assistant chemist. I married Miss Florence B. Whitney in October, 1896. In May, 1897, I resigned my position with the Boston Woven Hose and Rubber Company for that of chief chemist with the Revere Rubber Company at Chelsea, Mass. In October, 1897, my son, Robert Whitney Marks, was born at Chelsea, Mass. In January, 1898, I left the Revere Rubber Company to come to Akron as superintendent of the Diamond Rubber Company. I was appointed general superintendent in 1900 and a director in 1901, vice-president in 1903, and general manager in 1910. I hold at present several positions, the most important of which are the following: Vice-president and general manager of the Diamond Rubber Company; president of the Northwestern Rubber Company, Liverpool, England; president of the Pan American Rubber

Company of Mexico; president of the International Process Company; president of the Alkali Rubber Company. These jobs all bear salaries which are paid with reasonable regularity so that we keep the wolf from the door. I have written no books, possibly because I have had no encouragement. I hold and have held no positions of honor or trust of a political character. One Harvard man in politics at a time seems sufficient. I will hope to do better before the next report is due.

ERNEST WILMER MARLOW

Born	<i>at Washington, D.C., July 17, 1874.</i>
Parents	<i>Walter Henry, Mary Eliza A. (Turner) Marlow.</i>
School	<i>Washington High School and Emerson Institute.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.; LL.B., 1899.</i>
Married	<i>Marietta Ida d'España Rodrigo, Oct. 14, 1908.</i>
Children	<i>Ernest W., Jr., Oct. 2, 1909.</i>
Occupation	<i>Attorney at law.</i>
Address	<i>(business) 63 Wall St., New York City.</i> <i>(home) 3683 Broadway, New York City.</i>

After graduation I returned to the Law School for three years, getting my LL.B. in 1899. I then came to New York, where I entered the office of Story & Stratton, of 11 William Street. As soon as I gained a residence in New York I took the examination and was admitted to the Bar in May, 1900. The following summer the firm of Story & Stratton was dissolved by the death of one of the members, and in the fall I became associated with Nash & Jones, of 63 Wall Street. I underwent the usual tortures there for about two years and a half and in May, 1902, left them to go with Osborne & Hess, then recently organized with offices at 27 William Street. Osborne & Hess subsequently became Osborne, Hess & Churchill. I remained with them until January, 1907. At that time the firm dissolved. Mr. Hess, Mr. Churchill and myself formed a new firm. Hess, Churchill & Marlow. We took offices at 74 Broadway and subsequently moved to 63 Wall Street, where we are at present located. Mr. Hess died in 1908, and since that time Mr.

Churchill and myself have continued together under the name of Churchill & Marlow.

In the meantime I perpetrated matrimony. On Oct. 14, 1908, I married Miss Marietta Ida d'Espana Rodrigo. George L. Payne, '96, performed the ceremony at his church in Dorchester. Our future candidate for future greatness was born Oct. 2, 1909, and was named after his paternal ancestor.

Nothing of import has happened to me so far. Life has been disgustingly free from even attempts at greatness. Once in a while I write a brief, but otherwise I have never burst into print. As for public honors and public offices, I have been denied all of them.

ELIAS JOSEPH MARSH

Born	<i>at Paterson, N.J., March 9, 1875.</i>
Parents	<i>Elias Joseph, Sarah Lord (McCurdy) Marsh.</i>
School	<i>Belmont School, Belmont, Mass.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.; M.D., 1900 (Columbia).</i>
Unmarried	
Occupation	<i>Physician.</i>
Address	<i>24 Church St., Paterson, N.J.</i>

In the last report I wrote of the steps leading up to my establishment in medical practice. Since then no additional experience of sensational interest has occurred. Two or three years ago I gave up general practice to devote myself to diseases of the eye, ear, and throat. Am associate ophthalmic surgeon to the Paterson General Hospital, assistant surgeon Paterson Eye and Ear Infirmary and to the New York Ophthalmic and Aural Institute. Have held no offices of honor or trust save professional appointments or offices of various kinds, including six years as secretary of the Passaic County Medical Society. Have written no books except my day book and ledger, and at times painfully little in them. Since the death of my father two years ago, have dropped the "Jr." from my name. Am not married and see no present ground for alarm in that connection.

JOHN HILLYER THAYER MARTIN

Born	<i>at Woodbridge, N.J., March 22, 1875.</i>
Parents	<i>Joseph H. T., Lillie (Freeman) Martin.</i>
School	<i>Rutger's Preparatory and special summer tutoring.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B. ; LL.B., 1898.</i>
Married	<i>Edna Boice, Feb. 28, 1906, Camden, N.J.</i>
Children	<i>Carol, Dec. 25, 1906 ; Doris, June 8, 1908.</i>
Occupation	<i>Lawyer.</i>
Address	<i>(business) 708 Prudential Bldg., Newark, N.J.</i> <i>(home) Woodbridge, Middlesex County, N.J.</i>

As stated in former reports, I spent my senior year in the Harvard Law School. On leave of absence from the College, and after spending two years in the Harvard Law School, and a third year in Columbia Law School, I returned to Cambridge in June, 1898, for my law school degree. Was admitted to practise law in New York in the fall of 1898, and subsequently in New Jersey.

After further study of law in the office of R. V. Lindabury, a leader of the Bar in New Jersey, I became the junior member of the firm of Guild & Martin, in June, 1902, at the Newark address above given.

For four years I held the supremely important office of Township Attorney of Woodbridge, which place can be found on a very few select maps. During the years 1904 and 1905, I was a member of the House of Assembly of the New Jersey Legislature from Middlesex County, where I failed to distinguish myself, so far as I have since been able to observe.

My marriage was noted in the last report. Since that time I have, in the practice of my profession, devoted my time to the support of a growing family, with a fair degree of success; but that occupation, or possibly a lack of any special talent, has prevented my acquiring any further renown.

I have won a few cases and lost a few, and in general I have not seemed to create any great stir in the world. My head is probably swelled as large as ever, but I think I con-

ceal it better. I have never had the nerve even to try to write a book.

I am a member of the Harvard Club of New Jersey, the Essex Club of Newark, and a non-resident member of the Harvard Club of New York City. I have been Secretary of the first-named club for the past two years; but that is an office of work rather than of honor or trust.

I hope some of the boys will drop in my office when in Newark. Either they don't come to this busy town, or they don't know I'm here, or they don't want to see me, for '96 visitors are few and far between.

Occupation	<i>Engineer and contractor.</i>
Address	<i>(business) 17 Battery Place, New York City. (home) 1125 Madison Ave., New York City.</i>

Two years of post graduate work at Columbia was rewarded in '98 by the degree of C.E. After a trip abroad I served four years in the engineering department of the New York Central Railroad, with headquarters mostly in Albany and New York. I then entered the service of the Pennsylvania Railroad and for seven years was engaged on the plans and construction of their tunnels in New York, having charge of a long slice of the work across town and also under the East River. The experience was intensely interesting and valuable and amply repaid the many anxious hours both above and below ground and in the compressed air.

On completion of the tunnels I took a short vacation in the west, and then abandoning the active practice of engineering organized the contracting firm of Mason, Hilton & Company. For the past year we have been occupied with the familiar

problem of obtaining a foothold in an already well-filled business.

Philip Dana Mason

Born	<i>at Boston, Mass., Oct. 30, 1873.</i>
Parents	<i>Herbert Cowpland, Mary Gertrude (Dana) Mason.</i>
School	<i>Hopkinson's.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A. B., 1897.</i>
Married	<i>Mary Winthrop, Jan. 17, 1905, Boston, Mass. (died March, 1907).</i>
Children	<i>Henora, Sept. 10, 1906.</i>
Occupation	<i>Publishing.</i>
Died	<i>Oct. 18, 1907.</i>

Philip Dana Mason, born in Boston, Oct. 30, 1873, was the son of Herbert Cowpland and Mary Gertrude (Dana) Mason. His father was a member of the Harvard Class of 1862, served as 2d Lieutenant in the 20th Massachusetts Regiment, and received at Gettysburg a wound which forced him to resign. He never fully recovered from it and died in 1884, leaving Mrs. Mason with three children, Philip and two sisters. Thus Philip was "the man of the family" and doubtless had responsibilities which tended to ripen character in him somewhat earlier than in many of his classmates.

After his father's death he was in a school (Monsieur Jaccard's) in Lausanne, Switzerland, for about three years. In 1888 he entered Hopkinson's School in Boston where he met many of the men afterward conspicuous in our class social and athletic life. Later he went to Miss Rideout's school for awhile.

He entered College with our class and, though quiet, was decidedly popular, as a glance through the first class report will indicate. He went out for the class crew and showed excellent form and good spirit, but had a serious illness which impaired his physical stamina permanently, leaving him with a slight organic weakness. Resulting ill health delayed his taking of his degree until 1897. In 1897-8 he worked at Harvard in the department of architecture, first as a special

(in the L. S. S.), then as a graduate student. He followed the same subject in the Summer School of 1898.

His tastes were distinctly literary and artistic. At the same time duty led him to regular paid employment. In 1899 he entered the employ of Houghton, Mifflin & Company, publishers, Boston, with whom he continued to be connected continuously or nearly continuously up to the time of his death, devoting himself to book-binding as a fine art, and working in the art department at the Riverside Press, Cambridge. Toward the last he had charge of the fine book-binding, making most of the designs himself.

He was happy in this work and became very skilful. He had strength enough over and above the demands of his work to take part in social life and was always on hand for any reunion of his college friends — usually the merriest of them all. But at all times his organic weakness was a limiting factor on physical pleasures. He greatly enjoyed his membership in the "Tavern Club," where he met "many men of many minds" but all alike in possessing some special gift which contributed to the general fund of entertainment. Phil Mason's special contribution — besides his peculiarly lovable personality — was his singing, and he also danced well on the miniature club stage. He had a strong bent toward things military. In his freshman or sophomore year he served in the Naval Brigade and later made special studies of Civil War history and the early American merchant marine.

In 1903 and 1904 he was for more than a year a pupil in London of J. Cobden Sanderson, the famous artist-binder, and received a beautiful "certificate" from the master.

His wife died after a short illness in March, 1907, and he survived her only a short time, dying at Chestnut Hill, Mass., October 18, in the same year.

Some days ago I got out a couple of family bibles, discovered the approximate date of my birth and several other ancient family secrets. I filled in a blankety blank that you had sent me, hermetically sealed it, heaved a sigh or two of relief, and mailed it to you. Two days later I found the pesky thing on my desk again with a sweet note from you suggesting that I say something on page 3. It was very kind of you, was it not?

For two months I had carried the blank thing around with me, hoping for a quiet and lucid interval in which to sit down and slip it over to you. "Something on page 3"!?

In the first place five years ago I told you or Harry Storrs or John the Orange Man or Herby Foster, or whoever was Secretary of the Class at that time, pretty completely the worst of my career in the first decade after our graduation from College, and I'll be blanked if I will have either Frisky Merriam or Barrett Wendall accuse me of redundancy. I hate to see a man in even a semi-redundant position.

Again you ask for a "connected narrative" of my life. Believe me, dear Jack, in New York there is no such thing as a connected life. It's all very well for you who dwell near Milk and Water Streets, but if I could talk to you once more as you talked to me in the Astor Hotel the night before the football game last fall I think you would understand. It seems strange of you to ask me about "honor" or "trust" when you have known me for so many years, for I have trusted many and honored many checks.

From this trenchant remark you will properly infer that I am still a broker — only over here we call ourselves bankers, that is if we can get away with the bluff and the tax.

I have been through several panics since 1906, namely, the

panic of 1907, the panic of 1908, the panic of 1909, the panic of 1910, and am coming up again for air.

It may interest you to know that I made a wager of \$500 last spring that I could walk 50 miles in 24 hours. After a little training I won in a walk. I did it in something less than 20 hours. One of the most cheerful phases of the episode was the fact that I won the wager from an alumnus of the college situated in New Haven, Connecticut, U. S. A.

I hope that the above will satisfy your altruistic curiosity.

June, 1896, to September, 1897, salesman, American Book

Company, school music. October, 1897, to April, 1898, graduate work, Harvard, mostly under William James and Professor Palmer. (Foxcroft — need I say more?)

April, 1898, stone broke, quite resigned, retired to Indian-town Island, Me., and for seven months lived Robinson Crusoe existence trying to write myself out of debt. Scant success. Diet chiefly lobster, clams, huckleberries. Average expenses, 85 cents per week. Jolly sport. Earned enough to go home to Chicago and become cub reporter on the "News."

Sept. 10, 1900, having accumulated \$125, spent \$100 on a houseboat and having married the best ever, drifted down to New Orleans from Chicago — seven months — including two months shovelling coal on a dredgeboat at Vicksburg to get enough money to go on with. Newspaper work and water transportation study all the way.

Ever since have been a continual student of the Mississippi, water transportation here and abroad, and the general conservation of water. Worked for awhile on the Chicago "Tribune," then took up special work, and soon got a footing in the magazines, making water traffic something of a specialty, but giving a good deal to personality stories for "Everybody's." This work largely directed by my wife's ill-health, which required us to remain footloose, to which we were both naturally inclined, developed one of those real old partnerships.

October, 1903, to September, 1907, associate editor of the "Youth's Companion" and special writer for Boston "Transcript." Living at Billerica. October, 1907, down the Mississippi with Roosevelt, and published with Houghton, Mifflin & Co. my first (published not written!) book, "Remaking the Mississippi," an attempt to make a great engineering work intelligible to Congressmen, one of the most difficult tasks; equal to Barrett Wendell's attempts to get ideas in our young heads.

In the summer of 1908 went abroad and visited the principal rivers of Russia, Germany, Austria, France, and England, writing some articles on them for "Everybody's." Was

treated like a prince by the government people on the strength of a general letter from Pinchot, and left a string of good friends as long as the rivers.

In 1909 came to St. Louis to ally myself with some river enthusiasts, and floated a company called the Mississippi Valley Transportation Company, authorized capital \$10,000,000. That looks good, but we have not yet got it. However, in the past year we can report real progress for we have revolutionized boat design, and have the plans ready for the best types of river boats—big steel craft carrying 5,000 tons on 7 feet of water—and the best terminal docks ever worked out for interior America. The public is getting well aroused, too, as the result of publicity work. As soon as this is over the hill I will go to South America, as all this work is aimed toward getting central states manufactures in South America. Going down for study and to form alliances.

Living in St. Louis, but can't say I really admire the place. But old Missouri is certainly as beautiful as anything in New England.

Published in 1910 my second book, "Conservation of Water," Small, Maynard & Co., and expect to get out in the spring a third, "The Log of the Easy Way," a story of the river folks who live on the Mississippi.

On the whole, my work has been following a plan laid out in 1898 to force by publicity the opening of channels, the construction of boats, the development of harbors, and the establishment of our own marine, so that the region around the lakes and the upper Mississippi might get its proper trade in South America and by way of the Panama canal to the Orient.

Magazine work has been chiefly for "Everybody's," for which I am at this writing doing two articles dealing with the ship subsidy; for "Hampton's Magazine" (on Water and the Ballinger Scandals), for the "Atlantic Monthly," economic articles, and for other illustrated magazines including "Century."

Have a ray of light in the immediate neighborhood in the person of Wyer, '96, who is so busy with his new house that

he can hardly stay in the old one. I think he is the only other man of the Class in St. Louis.

Never go anywhere without my wife, and couldn't be hired to, except to the next '96 reunion.

Member: Twentieth Century Club, Boston; City Club, St. Louis; Artists Guild, St. Louis.

Address	<i>55 Duane St., New York City.</i>

I came to New York after leaving College to engage first with the National Bank of Commerce, and afterwards with the New York Edison Company, with which company I am at present associated. I have been abroad once, and have written a few papers to read before National Electric Light Associations.

EDWARD EUGENE McCARTHY

Born	<i>at Somerville, Mass., July 1, 1874.</i>
Parents	<i>Charles, Mary H. (Cox) McCarthy.</i>
School	<i>Somerville High School.</i>
Years in College	<i>Five.</i>
Admission Date	<i>September, 1902.</i>
Degrees	<i>S.B. (1897).</i>
Unmarried	
Occupation	<i>Mining.</i>
Address	<i>Dawson, Yukon Territory, Canada.</i>

After graduation I followed contracting and civil engineering until 1899, when I entered the employ of the New England Exploration Company making examinations of placer mines in California. During the period from 1901 to 1907 was associated with the Western Engineering and Construction Company as engineer in the equipping and examinations of mining properties, practically specializing in gold dredging.

In 1907 I entered the employ of the Yukon Gold Company as superintendent of their dredging department in the Yukon Territory, which position I now hold and accounts for my present address.

Am a member of the University Club of San Francisco and Zero Club of Dawson.

Married	<i>Olive Beatrice Flint, Sept. 11, 1905, Worcester, Mass.</i>
Occupation	<i>Physician.</i>
Address	<i>(business) 390 Main St., Worcester, Mass. (home) 51 Wachusett St., Worcester, Mass.</i>

Served as resident physician of the Boston Floating Hospital during the summers of 1899 and 1900, and during the winters served as house surgeon of the Free Hospital for Women, Brookline. Received my degree of M.D. June, 1900. Finished a fourteen months' service at the Worcester

City Hospital, Nov. 1, 1901, and then engaged in a general practice at 662 Main Street, Worcester. In 1903 went back to Boston to serve nearly a year as assistant resident physician at the South Department of the City Hospital, studying the contagious diseases of children. Then went to London and Paris to study pediatrics, and afterwards traveled in Switzerland, Germany, and Belgium.

On my return to Worcester I settled at 738 Main Street as a specialist in diseases of children, and then married Olive Beatrice Flint Sept. 11, 1905. Bought a home in September, 1907, at 51 Wachusett Street, and when I moved there I opened an office in the Slater Building, 390 Main Street.

Have taken a few interesting trips: Bermuda in the winter of 1908; Arkansas on Christmas, 1909; Thousand Islands, Montreal, and Lake Champlain, autumn of 1905; Jamestown Exposition, Washington, and Atlantic City; small trips along the Maine coast, through the Berkshires and Adirondacks.

Have identified myself with Quinsigamond Lodge of Masons, Red Men, Foresters, Congregational Club, Twentieth Century Club, Worcester Tennis Club, Massachusetts Medical Society, American Medical Association, and the New England Pediatric Society.

Was examiner for two insurance companies. Have written some articles for the medical journals.

In filling out the circular for the fourth class report I left blank that part of it calling for a "connected narrative covering the period since you left Harvard." I have no doubt a number of others pursued the same course I did, but our secretary seems to think we all must say something about ourselves, and has returned the report to me for that purpose. If I knew him personally I would tell him what I think of him for putting some of us in such an embarrassing position.

Soon after leaving Harvard I entered a bank, but after a few years had to give it up to look after my father's affairs. In 1904 he died and since then my principal business has been farming, cattle feeding, and breeding horses. For the latter I have the Kentuckian's weakness, but am glad to say I am almost "out" without having been burnt very bad.

Under "offices of honor or trust," all I have to mention is my connection with a number of small corporations in which I have served in the capacity of president, secretary, and director. Politics I have kept out of, never having held but one office, and I can't get rid of that. I live in a beautiful little city of six or eight thousand inhabitants and the town council, of which I am a member, serve without pay, thus doing away with the incentive of the office seeker. In this way we get our best citizens to serve, consequently we have a well and economically governed city.

To my brother automobilists I will say that the roads in central Kentucky are good (though my town is dry), but if any of the Class of '96 happen this way and will look me up I will see that they do not suffer in the "liquid refreshment" line.

Occupation	<i>Lawyer.</i>
Address	<i>(business) 125 Genesee St., Auburn, N. Y. (home) Auburn, N. Y.</i>

After I left College in '96 I got my life insured and then looked for a job. The need of funds for my law education carried me into a two years' service as a private tutor. In this I received fair pay and earned it all, but as my work led me into an out-door life in the South, I acquired a barrel of health and more adipose than my lean frame ever promised in the Cambridge days.

In 1898 I returned for my three years in the Law School, in the class with Joe Morrill and George Mathews. The good-fellowship and democracy of the Law School men made those years very bright. I didn't dream there were so many good fellows from outside of Harvard — and they came to Harvard.

Gray, "Jerry," Ames! I rise up with the others to call them blessed.

In 1901 I came back home to Auburn, a good little town of thirty-five thousand, and waited for clients. Occasionally one came. They have been stringing along in ever since.

An active lawyer, with whom I started work, died suddenly after we had been pleasantly associated for six years, leaving a goodly number of his old clients to my tender ministrations. I was "mild in my charges" to them and some pleasant and profitable relationships sprang up. Yet so, I shall never be rich, and that doesn't worry me. I like my work and live as I go along. Despite some long hours at the office, I get a good deal out of life. My wife has brains and common sense (for two) and I will match my two kids against any of yours, — if you read this after August, make it three kids. Often in summer I find time to shake out the sails on my boat and go dipping away over waves of contentment. In the grouse

season I slip out with my gun and able setter when the frost sets the leaves a-pattering, and have a few good hunts with some one else who loves the out-of-doors. I raise a few flowers, go to church on Sunday, sleep nights.

The only orders to which I belong are the Founders and Patriots, the Baptist Church and the New York Militia — a plain associate in one, treasurer of the next, 1st lieutenant in the last.

Occupation	<i>Professor of chemistry.</i>
Address	<i>(business) Clark University, Worcester, Mass.</i> <i>(home) Worcester, Mass.</i>

After graduating in '96 I spent the next four years in the graduate school studying chemistry under Professor Richards. In 1900 was appointed instructor of industrial chemistry at

Worcester Polytechnic Institute and spent the next three years there trying to convince the boys that I knew something about industrial chemistry. Rather a difficult job! In 1903 I went to Clark University as assistant professor of chemistry in the then recently established collegiate department, and five years later was advanced to a full professorship in the same institution.

Nothing doing in the matrimonial line other than frequent occasion to condole with my colleague and classmate Ames over the rapidly diminishing number of the faithful who still remain in the state of "single blessedness." Even Ames is said to be in danger.

Occupation	<i>Assistant Professor of History, Harvard University.</i>
Address	<i>175 Brattle St., Cambridge, Mass.</i>

From 1896 to 1902 I studied chiefly in Europe and traveled. Since 1902 I have been steadily at Harvard as instructor till 1908; as assistant professor since. I have nothing unusual or exciting to report. The University keeps its servants busy and makes them more and more devoted to it as the years roll by. I've written one book, "Life and Letters of Thomas Cromwell," Oxford, 1902, and several articles for the "American Historical Review," and many book reviews for that journal and for the "Nation." I've done my share of administrative work here. Served on the Athletic Committee during two pretty crucial years, 1905-1907, and on the committee on the choice of electives. I was for nearly three years University Editor of the "Graduates' Magazine," and am at present chairman of my department. The Massachusetts Historical Society, the Hispanic Society, and the Phi Beta Kappa (honorary, 1909), are the only learned organizations to which I have been elected which it is worth while to mention here.

To my classmates in general I would say that Harvard to-day is a better, more useful and inspiring place than the Harvard we knew, and that it is going to be a lot better, more useful and inspiring still, in years to come. The time is fast approaching when '96 men will learn this fact, if they do not know it already, from the mouths of their own children.

Degrees	<i>S. B.</i>
Unmarried	
Occupation	<i>Engineer and manufacturer.</i>
Address	<i>Brown Hoisting Machinery Company, Cleveland, Ohio.</i>

On account of ill health I spent the winter of 1896 and

1897 in California. Returning to Chicago in the spring started work with the Pennsylvania Company Engineering Corps on their track elevation. Remained with the Pennsylvania for a year, being transferred from Chicago to Pittsburgh, then to G. R. & I. Ry. I then spent three years in the engineering and operating departments of the Peoples Gas Light & Coke Company, Chicago. I left this company in 1901 to take a position with the Brown Hoisting Machinery Company, Cleveland, with whom I have been since.

The last five years in my life have not been eventful, all of my time being devoted to my business. I do enjoy meeting my college friends in my business trips to different parts of the country.

I am not married, have written no books, nor held any public office.

NELSON CASE METCALF

Born	<i>at West Medford, Mass., March 3, 1872.</i>
Parents	<i>Eliab Wight, Ellen J. (Case) Metcalf.</i>
School	<i>Cambridge Latin School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A. B.</i>
Married	<i>Ethel Haworth, Sept. 9, 1909.</i>
Children	<i>Nancy, May 21, 1910.</i>
Occupation	<i>Newspaper man.</i>
Address	<i>(business) Office of Boston "Transcript." (home) 22 Linnæan St., Cambridge, Mass.</i>

Procrastination seems to be the characteristic of a report of this kind. After one temperate and one heated request from the secretary, I telephoned his office in some trepidation, only to learn that he was in Jamaica — of all places — getting rested against the turmoil of the summer. Here's the report, Jack!

For the past five years and more I have been a newspaper man; in the Harvard University Directory a "Journalist," working all the time for the Boston "Transcript," part of the time for Boston "Herald," and part of the time for the "Harvard Alumni Bulletin" — I hold all three jobs at present. I have done miscellaneous writing for other papers and

have published one book — “A History of St. James’s Parish, Cambridge,” a posthumous work of Rev. Edward Abbott, former rector. Incidentally, I have been a vestryman of this parish for five years. My other office “of honor” — if it may be so termed — is in the Common Council of Cambridge, in which I am serving my second year. It is likely to prove largely an honorary position this year, for the Democrats have the city government in their hands. My acquisitions since the last report have been a wife, a daughter, and a Boston terrier; the terrier is called “Mr. Winkle,” and has all the other Pickwickians tied to the mast. Remarks about the other members of my family are naturally superfluous.

Since leaving College if I had joined a labor union it would have been that of the printers, for I have always worked within smell of printer’s ink — three years at the University Press in Cambridge; nearly four years in the advertising department of the Chicago, Burlington & Quincy Railroad at Chicago; then back to the “effete” East to do newspaper work.

My College associations are maintained with considerable regularity through rehearsals of the Harvard Alumni Chorus and writing for the “Bulletin.”

Lamar Middleton

Born	<i>at Mobile, Ala., July 29, 1872.</i>
Parents	<i>John Frazer, Agnes (Lamar) Middleton.</i>
School	<i>Chicago High School.</i>
Years in College	<i>Three and one-half.</i>
Admission Date	<i>September, 1892.</i>
Married	<i>Ethelyn McKenna, Oct. 20, 1897, London, England.</i>
Children	<i>Margaret, 1898; Jacques, 1901; Agnes, 1902.</i>
Occupation	<i>Journalist.</i>
Died	<i>Dec. 9, 1909, Paris, France.</i>

Middleton left College at the middle of his senior year to take the editorship of a New Orleans paper and shortly afterwards went to Paris, where he devoted himself to the writing of critical essays for the “New Orleans Times-Democrat.” In 1897 he entered the foreign service of the “Chicago Daily News,” and in 1901 was made director of its Paris office, the

position he occupied at the time of his death. He was regarded by his associates as a most brilliant writer and held a high place in the American Colony in Paris, where his unfailing courtesy and attractive personality won him a host of friends. He had been in poor health for two years, but his sense of duty caused him to remain at his post until the end.

JOSEPH KNOWLES MILLIKEN

Born	<i>at Salem, Mass., July 5, 1875.</i>
Parents	<i>Charles D., Helen D. (Knowles) Milliken.</i>
School	<i>Friends Academy, New Bedford.</i>
Years in College	<i>Three.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Married	<i>Carrie E. Dodds, June 3, 1903, Champlain, N. Y.</i>
Children	<i>Robert D., Helen D., Joseph K., Jr.</i>
Occupation	<i>Treasurer Mt. Hope Finishing Company.</i>
Address	<i>(business) North Dighton, Mass. (home) 230 Winthrop St., Taunton, Mass.</i>

1895-1899, with Dunnell Manufacturing Company, Pawtucket; 1899-1901, with Hathaway Manufacturing Company, New Bedford; 1901, to date, with Mt. Hope Finishing Company, North Dighton, Mass.

Lewis Campbell Milliken

Born	<i>at New York, N. Y., Jan. 11, 1874.</i>
Parents	<i>Murray G., Josephine H. (Campbell) Milliken.</i>
School	<i>St. Paul's (Garden City, L. I.).</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Unmarried	
Died	<i>Dec. 15, 1906.</i>

Milliken entered the Law School in the fall of 1896 and in January, 1898, became connected with the Cuban Postal Service in Havana, in which service he remained until October, 1899, when he again returned to the Law School to complete his course. Shortly after this his health began to fail. He then went to Washington and became associated with the Census Office. Here he was chiefly engaged in field work as

a special agent, making investigations and gathering information. In the spring of 1907 he was obliged to relinquish his work and he went to the George Washington Hospital to regain his health, but without success. In June he was able to go to his home in Wellsville, N.Y., where he died the following December. His illness was a severe handicap to him in all his work, compelling the abandonment of his desire to enter the legal profession and finally forcing him to succumb to it only after a brave struggle.

WILLIAM PEPPERRELL MONTAGUE

Born	<i>at Chelsea, Mass., Nov. 24, 1873.</i>
Parents	<i>William Pepperrell, Helen M. (Cary) Montague.</i>
School	<i>Chelsea (Mass.) High School; St. Paul's School, Garden City, L.I.; Emerson Institute, Washington, D.C.</i>
Years in College	<i>Four.</i>
Admission Date	<i>June, 1892.</i>
Degrees	<i>A.B.; A.M., 1897; Ph.D., 1898.</i>
Married	<i>Helen Weymouth Robinson, Aug. 5, 1896, New York City.</i>
Children	<i>William Pepperrell, Jr., Feb. 13, 1899; Robinson Prescott Cary, Feb. 27, 1902.</i>
Occupation	<i>Associate Professor of Philosophy.</i>
Address	<i>Columbia University, New York City.</i>

I took the doctor's degree in philosophy in 1898, and taught at Harvard the year following as docent in philosophy. I then went to the University of California where I taught for four years as instructor in philosophy. In the summer of 1903 I came to Columbia where I have taught philosophy as lecturer, tutor, instructor, adjunct professor, and associate professor. I have written some twenty papers on philosophy most of them concerning the mind-body problem and the issue between realism and idealism. I am trying to develop the theory that consciousness is identical with the energy that is received through the sense-organs and stored up in potential form in the brain. In my lighter moments I busy myself with socialism, woman suffrage, and other movements for the regeneration of the upper classes. Four years ago I took part in Upton Sinclair's experiment in coöper-

ative housekeeping at Helicon Hall, Englewood, N.J., and in the fire which destroyed our Utopia I lost everything I had in the world except a tall hat and half a suit of pyjamas. But I got to know a very jolly, lovable crew of undesirable citizens and muckrakers. In 1908 I was vice-president of the American Philosophical Association.

JOSEPH MORRILL

Born	<i>at Roxbury, Mass., June 6, 1875.</i>
Parents	<i>George, Sarah E. (Rogers) Morrill.</i>
School	<i>Roxbury Latin School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.M.; LL.B., 1901.</i>
Married	<i>Olive W. Morison, Oct. 29, 1902.</i>
Children	<i>John D. W., Joseph, Jr., Marjorie Adèle.</i>
Occupation	<i>Lawyer.</i>
Address	<i>(business) 54 Devonshire St., Boston, Mass.</i> <i>(home) Dedham, Mass.</i>

The last five years have been spent about like the ten before them since leaving College. They have mostly been spent on my two-acre farm in Dedham.

One year I felt called upon to rest up a year abroad, where, intending to mix business with pleasure, I settled in Mentone for a winter within easy striking distance of Monte Carlo. Failure to discover a suitable system from the many offered resulted in a return to the usual lucrative law practice enjoyed by all of the lawyers who graduated with '96.

Besides being a member of the Boston School Committee, and a trustee of a savings bank, I have managed to avoid positions of honor and trust.

DAVE HENNEN MORRIS

Born	<i>at New Orleans, La., April 24, 1872.</i>
Parents	<i>John A., Cora (Hennen) Morris.</i>
School	<i>Tutor, Browne and Nichols.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.; LL.B., 1901 (New York Law School); A.M., 1909 (Columbia).</i>

Married	<i>Alice Vanderbilt Shepard, June 19, 1895, New York City.</i>
Children	<i>D. Hennen, Jr., June 14, 1900; Louise, Nov. 8, 1901; Marion Lawrence, April 29, 1903; Ralph Noel, Dec. 25, 1904; Emily Hammond, June 24, 1907.</i>
Occupation	<i>Law and railroad.</i>
Address	<i>(business) 68 Brood St., New York City. (home) 19 East 70th St., New York City.</i>

Present occupations: Vice-president of the St. Louis Southwestern R.R. Co.; law, management of corporations and real estate.

Offices: Bronx River Parkway Commissioner, 1906, appointed by Governor Higgins; special policeman, New York City, since 1907, representing Public Safety Committee of the Automobile Club.

The only claim to distinction is sixteen years of happy married life on the fifteenth class anniversary.

MEREDITH DARLINGTON MORRIS

Born	<i>at Flushing, Belmont County, Ohio, June 15, 1871.</i>
Parents	<i>John A., Margaret F. (Ayers) Morris.</i>
School	<i>Flushing (Ohio) High School, Mt. Union College.</i>
Years in College	<i>One.</i>
Admission Date	<i>September, 1895.</i>
Degrees	<i>A B., 1895 (Mt. Union); A B., 1896 (Harvard); A.M., 1901 (Mt. Union); (expect to receive A.M. June 4, 1911, Columbia University).</i>
Married	<i>Estella May Parks.</i>
Children	<i>Mary, July 21, 1897 (died Aug. 18, 1897); Thomas Edison, March 17, 1899; Kenneth Edwin, Jan. 24, 1904.</i>
Occupation	<i>Student, Graduate Department, Teachers College, Columbia University.</i>
Address	<i>(business) 507 West 124th St., New York City. (home) Flushing, Belmont County, Ohio.</i>

Since leaving Harvard in 1896 I have been engaged in the profession of teaching up to the present year.

From September, 1896, to July, 1898, I was supervising principal at South Dartmouth, Mass.

I then returned to my native county in Ohio and was principal of the Martin's Ferry (Ohio) High School from

1899 to 1903, at which time I was elected to a similar position in Bradford, Pa. This position I filled until 1907.

In July, 1907, I was elected superintendent of schools of Cambridge Springs, Pa. This position I resigned in July, 1908, to accept the superintendency of the Parkersburg, West Va., public schools. During 1908 to 1910 I filled this position.

In September of 1910 I entered Teachers College, Columbia University, making a specialty of school administration.

Next year I expect to reënter my profession as superintendent or principal.

The only books of which I am the author pertained strictly to my own local work, namely, "Bradford, Pa., High School Catalogue, 1904, and 1906," "A System of School Records, Cambridge Springs, Pa.," (1908); and "Manual of the Board of Education of the Parkersburg, West Va., Public Schools," (1910).

I was president of the Crawford County (Pa.) Teachers' Association (1907-8), Treasurer of the Ohio Valley Round Table (1909-10), and during the present year I have been elected president of the Secondary Education Club (1910-11) of Teachers College, Columbia University.

HERBERT LaFORREST MORSE

Born	<i>at Old Town, Me., May 7, 1867.</i>
Parents	<i>Alfred D., Angie D. (Bean) Morse.</i>
School	<i>Coburn Classical Institute, Waterville, Me.</i>
Years in College	<i>One.</i>
Admission Date	<i>September, 1895.</i>
Degrees	<i>A.B. ; A.B., 1891 (Colby).</i>
Married	<i>Martha Anthony, June 25, 1896.</i>
Children	<i>Alfred Anthony, Dec. 31, 1897 ; Herbert Abner, Sept. 1, 1902.</i>
Occupation	<i>Head of Science Department, Troy High School.</i>
Address	<i>(business) Troy High School, Troy, N. Y.</i> <i>(home) Corner 16th and Jacob Sts., Troy, N. Y.</i>

I came here as teacher of science in September, 1896. "The High School had at that time no Science Department worthy the name" (Principal Walrath's statement). We have now as good a laboratory and as thorough courses in

science as any High School in the State. Salary compensation has increased somewhat during these years of hard but very satisfactory work. Of course teaching and preaching must await with patience the time when the public appreciate their usefulness by making the financial reward commensurate with their value to the community, and so I may say that I am satisfied with my coming to Troy and with my success here, both professional and financial.

I have written no books except check-books, given no lectures except a few little ones to the "kids" at home and so have no great achievements to record, just a record of hard work and service of which I am not ashamed.

HERBERT NORTH MORSE

Born	<i>at Hammonton, N.J., June 16, 1872.</i>

Address	<i>(business) care of Board Water Supply, 165 Broadway, New York City.</i> <i>(home) Garden City Estates, Long Island, N. Y.</i>

On graduation from Lawrence Scientific School in 1902, accepted position on Pennsylvania Railroad engineering force, and moved to Philadelphia. A year later returned to Boston, being then employed in engineering office of Boston & Northern Street Railway. In 1905 moved to New York, accepting a position in New York Central & Hartford Railroad Maintenance of "Way" Department, and not long after passed a competitive examination for position of assistant engineer for the city of New York. The last five years have served in this position, about half of the time in Cold Spring on the Hudson, engaged in the active work of construction of the Catskill aqueduct and the remainder in New York City on the designing staff of the same project. The last year have branched out into architectural work, specializing in concrete construction as applied to houses. Have held no positions of especial honor nor written anything of greater merit than official reports, but are quite contented with the treatment the world has accorded me, and am optimistic as to the future.

Occupation	<i>Manufacturing motor trucks.</i>
Address	<i>(business) 30 Church St., New York City. (home) Englewood, N.J.</i>

To write what our Secretary euphemistically calls a "connected narrative" of the last fifteen years with the knowledge that one has previously recorded part of that period in Class reports requires consistency on the one hand and courage to be inconsistent on the other. What seemed highly important ten years ago is quite liable to be entirely forgotten now, and in reading over the last two reports I have rediscovered certain things about myself that had completely slipped my mind and which will not be likely to reënter it until I next appeal to the documents for entertainment or history.

In 1897 I took an interesting trip to Trinidad and Venezuela as supercargo or purser on a small tramp steamer, the "Curacoa." The life was unusual and I gained a totally new idea of the tropics and of the sea-faring trade. I voyaged a couple of hundred miles up the Orinoco River, saw monkeys, parrots, and other wild beasts in their native jungles; smelled a great many new smells, played a great deal of cribbage with the captain, experienced a small hurricane off the Jersey coast and returned safely to city life again.

In 1898 I served as a private soldier in Puerto Rico with Troop A of the New York Cavalry. The association with a number of college mates and classmates under conditions faintly resembling active service is one of the things I look back to with the most pleasure. There were six of our Class in the troop, and although we saw no fighting we saw much that we had never seen before and took much enjoy-

ment in the change of scene, of ideas, and of employment that the service afforded. It certainly gave us all a feeling about Memorial Hall and what it means and stands for that we never could otherwise have had, and made us realize how integral a part of the country is Harvard and how much each owes the other. The life ashore was little but rough camping, but doubtless in time it will assume more formidable proportions. At all events we can tell many true tales of life on the transports, both nauseating and dreadful. I served for five years after the war in the same organization, Squadron A of New York City, going through the usual round of State service, including a strike at the Croton Dam. I served a year as a line sergeant before being discharged.

The last few years I have derived a good deal of pleasure from doing a little work of a non-lucrative nature in Englewood, N.J., where I live. I am interested in a model homes company which I helped organize, and I am trying to help run a country hospital. Both require a good deal of time and care.

During February of this year I gave up the insurance brokerage business to become Secretary of a new company, Saurer Motor Company, organized to manufacture the Saurer Truck, probably the best motor truck ever built. I will be glad to sell one or more to any member of the class whose financial credit is good. My office is at 30 Church Street, New York.

Children	<i>Lucy Washington, March 1, 1906 ; Jane Helm, April 19, 1909 ; Mary Hise, Dec. 18, 1910.</i>
Occupation	<i>Broker.</i>
Address	<i>(business) 71 Broadway, New York City.</i> <i>(home) 274 Tompkins Ave., New Brighton, Staten Island, N. Y.</i>

After leaving College I was for two years in the employ of the Louisville and Nashville Railroad at Louisville, Ky. In May, 1898, enlisted in the First Kentucky Volunteer Infantry, with rank of First Lieutenant and Battalion Adjutant, served through Spanish-American War and was

mustered out in February, 1899. Returned to New York in spring of same year and entered the employ of Malcom & Coombe as assistant cashier.

In January, 1901, joined the New York Stock Exchange, and with my brother, Geo. F. Norton, formed the firm of Ex. Norton & Co.

Feb. 21, 1905, married Miss Jane Washington Helm, of Louisville, Ky.

In August, 1909, my brother wishing to retire from the brokerage business, we dissolved our firm and I entered the firm of Walker Brothers, of which firm I am still a member.

Address	<i>(business) 117 Erie County Bank Bldg., Buffalo, N. Y. (home) 150 West Utica St., Buffalo, N. Y.</i>

As a private member of society, with a wife and four daughters — two of them twins — my existence has been serene and contented.

In public life my career has been less serene. In 1906 I was elected as a member of the State Legislature, where for three successive terms I represented in the assembly the leading district of this city. As an active supporter of Governor Hughes and of his policies, my three years of service were an exceedingly busy period. In March, 1909, under appointment of President Roosevelt, and confirmation by the Senate, I became United States Attorney for the Western District of New York. The district embraces the western seventeen counties of the State, and because of its proximity

to Canada provides plenty of Federal litigation. Although the work of this office and staff is considerable in amount, I find a little time in which to maintain my status as a private practitioner. I manage also to keep up my active interest in the work of the local law and medical schools, and occasionally make time for other semi-public activities of a less exacting nature. As a member of '96, I am especially grateful that the Fates have brought Lord and Ward to Buffalo and kept them here during the past dozen years.

Born	<i>at Worcester, Mass., May 8, 1872.</i>
Parents	<i>George Fulton, Janet Holmes (Laird) Orr.</i>
School	<i>Worcester High School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Married	<i>Mary Montgomery Fleming, May, 1901, Scarsdale, N. Y.</i>
Children	<i>Janet, April 3, 1903 (died April 4, 1903).</i>
Occupation	<i>Assistant Secretary National Association of Credit Men.</i>
Address	<i>(business) 41 Park Row, New York, N. Y. (home) Scarsdale, N. Y.</i>

For the last five years I have been with the National Association of Credit Men, the largest business organization of

national scope in the country. As this association works daily for sounder credit conditions in every phase of American commerce, my work has been in the department which evolves and shapes ideas which will advance the purposes of the Association. The best proof of success is in our growth at a rate not yet approached by a business organization.

From my first year out of College I have lived in a New York suburb where I have taken a good deal of interest in local and county politics as chairman, for several years, of the local Republican Committee and a member of the governing town board. Sitting on the board with me are another Harvard graduate and two Amherst men. This local work is my main recreation. The town has made a reputation for itself for business-like administration of its affairs and leadership in clean political methods.

JOHN FREDERIC OSBORN

Born	<i>at Cambridge, Mass., Jan. 24, 1873.</i>
Parents	<i>H. K., Flora A. (Bacon) Osborn.</i>
School	<i>Cambridge Latin School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Married	<i>Lucia Lincoln Boggs, June 5, 1907.</i>
Children	<i>Eleanor Lincoln, Nov. 25, 1908 (died Jan. 30, 1910); Katherine Bacon, Dec. 4, 1910.</i>
Occupation	<i>Mill engineering.</i>
Address	<i>(business) 201 Devonshire St., Boston, Mass. (home) 314 Harvard St., Cambridge, Mass.</i>

Since last report I have been living the simple life under the eaves of the Alma Mater at 314 Harvard Street, Cambridge, which will be my permanent address for at least a year longer.

Business: From June, 1906, to May, 1, 1907, was with the Lamson Consolidated Store Service Company, on the invention and construction of pneumatic tubes and all sorts of conveying apparatus from "pill shooters" to beer bottle carriers of the *empty* Budweiser variety. On May 1, 1907, I entered the employ of Charles F. Main, mill engineer, as

designer of industrial plants and steam and hydro-electric power stations, where I have been ever since. While with Mr. Main I have been fortunate in having full charge of a large amount of important work, notably the construction of the new Ayer Mills of the American Woolen Company at Lawrence, Mass., which employs about 3,500 hands.

I have hopes of sometime rising to the position of "consulting engineer," but at present have to be contented with that of "conciliating engineer," in which position I am getting excellent practice.

I have not been overwhelmed with honors, nor can I plead guilty of any publication fit to read.

With a number of other members of the Class I enjoy the "Military Game," and at present am First Lieutenant in the First Corps Cadets, M.V.M., of Boston, where I am learning something of the art of war in time of peace. The study which this requires under present conditions, together with the confining nature of my business, gives me little time for play.

FRANK ROOSEVELT OUTERBRIDGE

Born	<i>at New York, N. Y., Dec. 24, 1876.</i>
Parents	<i>Augustus Emilius, Nannie Robertson (Thompson) Outerbridge.</i>
School	<i>St. Luke's School.</i>
Years in College	<i>Three.</i>
Admission Date	<i>September, 1893.</i>
Degrees	<i>S. B.</i>
Unmarried	
Occupation	<i>Steamship agent and merchant.</i>
Address	<i>29 Broadway, New York City.</i>

My first job after graduating and spending a summer traveling in Europe was in the employ of J. B. McDonald, contractor, building the Jerome Park Reservoir—a part of the New York system. After about six or eight months, in which time I made progress, I suddenly gave up my place to go into my father's office, where I have been since.

In 1898 I enlisted in Troop A, New York Volunteer Cavalry, served at Camp Black, Camp Alger, and in the Porto

Rico "campaign," and recently at reunions at Sherry's, the Hamilton Club and elsewhere.

I am active in the National Guard, being captain of Troop 2, Squadron A. Horse is my hobby and pastime; earning my living a constant necessity; society a luxury in which I rarely indulge.

With best wishes to all my classmates.

GEORGE LYMAN PAINE

Born	<i>at Waltham, Mass., July 29, 1874.</i>
Parents	<i>Robert Treat, Lydia W. (Lyman) Paine.</i>
School	<i>Hopkinson's School.</i>
Years in College	<i>Five.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.; A.M., 1897; B.D., 1900 (Cambridge Episcopal Theological School).</i>
Married	<i>Clara Adelaide May, June 29, 1899, Trinity Church, Boston.</i>
Children	<i>George Lyman, Jr., Nov. 16, 1901; Alfred White, June 9, 1903.</i>
Occupation	<i>Clergyman.</i>
Address	<i>St. Paul's Church, New Haven, Conn.</i>

On graduating from Harvard with an A.M. in 1897 I attended the Episcopal Theological School at Cambridge, and received the degree of Bachelor of Divinity in 1900. I served

as curate at St. Mark's in the Bowery, New York, till May, 1902, when I came to Dorchester as rector of St. Mary's Church, where I have been ever since. Any of the fellows, on finding Trinity or the Advent too small or uninteresting, had better take the trolley to Upham's Corner and see what a warm welcome they would have at St. Mary's.

I have been very busy in the parish, as the population has been changing with startling rapidity, but every year there are scores of new families to be hunted up and brought into connection with the church. In spite of many removals I can report the largest number of members in the history of the church—five hundred and twenty-one communicant and one thousand baptized members. In these nine years we have paid off a mortgage of \$10,500 on the church, and have built a fine parish house upon a lot of land adjoining. Here in the gymnasium we may be training future candidates for the Harvard basket-ball teams.

Beside parish work I have given a good deal of time to outside activities. I am a member of the executive committee of the Episcopal City Mission, a member of the Diocesan Board of Missions, and of the Diocesan Board of Education, secretary-treasurer of the Alumni Association of the Episcopal Theological School, a director of the Associated Charities of Boston, a vice-president of the Dorchester Conference of Associated Charities, a director also of the Dorchester Relief Society, and of Dorchester House, which carries on settlement work. I was instrumental in starting the Dorchester Reading Room for the purpose of keeping men and boys off the streets at night. I was recently elected president of the Federation of Churches and Religious Organizations of Greater Boston, and have been for some years a director of the Lord's Day League.

All this will now have to be given up, as I have been called to be rector of St. Paul's Church, New Haven, where I expect to begin work in May. There I shall be up against the Elis and with very few Harvard men to keep me company. Let's pray for good luck.

LAWRENCE PARK

Born	<i>at Worcester, Mass., Dec. 16, 1873.</i>
Parents	<i>John Gray, Elizabeth Bigelow (Lawrence) Park.</i>
School	<i>Fish and Dalzell's Schools, Worcester.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Married	<i>Maria Davis Motley, Nov. 16, 1905, Groton, Mass.</i>
Children	<i>Charlotte Elizabeth, Sept. 14, 1906 (died Sept. 14, 1906); John Gray, Sept. 15, 1908; Lawrence Motley, April 3, 1911.</i>
Occupation	<i>Architect.</i>
Address	<i>(business) 8 Beacon St., Boston, Mass. (home) Scottowe, Groton, Mass.</i>

In the fall of 1896 I entered the School of Drawing and Painting in the Museum of Fine Arts, Boston, and in the fall of 1897 became a draughtsman in the office of Shepley, Rutan & Coolidge, architects at Boston. Here I remained until July, 1901, when, with Robert R. Kendall, of Chicago, I opened an office at 8 Beacon Street, Boston, for the practice of architecture, under the firm name of Park & Kendall. This

partnership was dissolved in May, 1910, by the removal of my partner to Constantinople, and I have since continued alone the practice of my profession at the Beacon Street address. During the summer of 1906 and the following winter I was chiefly engaged in making plans for, and superintending the construction of, the enlargement and alterations of my grandfather's house at Groton, and moved into the house in October, 1907. I have been much interested in American historical subjects, particularly in reference to the early houses of the American Colonies, and their methods of construction, and have also in my leisure moments, during the past eight years, been engaged in collecting data for a genealogy of the Savage family, which I hope sometime to publish in book form. I am secretary of the Groton Historical Society and hold some minor offices of trust in Groton, and take much pleasure in the general oversight of my farm in that town. I am also much interested in studying the work of the early American silversmiths and in old portraits, old furniture, and old china.

CHARLES HENRY PARKER

Born	<i>at Boston, Mass., March 14, 1872.</i>
Parents	<i>Charles Henry, Laura Wolcott (Jackson) Parker.</i>
School	<i>Hopkinson's School and tutor.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Married	<i>Winifred E. S. Perkins, April 28, 1909, Emanuel Church, Boston, Mass.</i>
Occupation	<i>Trustee, executor, etc.</i>
Address	<i>(business) P.O. Box 2791, Boston, Mass. (home) 42 Chestnut St., Boston, Mass.</i>

After leaving Harvard I took a short trip to Europe returning in the early autumn. After a year in the Harvard Law School I became secretary to my father and assisted him in management of trust property, and in his own affairs. Entered the National Bank of Commerce in Boston, where I remained for a year and a half, until August, 1903. Upon the retirement of my father from active business I became trustee of

his estate, and was busy for a year in closing his affairs. Entered for a few months the office of Townsend, Anthony & Tyson, brokers. Visited Europe during the summer of 1905, where I traveled in England, France, Germany, Austria Hungary, and Italy. Entered the Boston Safe Deposit and Trust Company, 87 Milk Street, where I remained from December, 1905, until July, 1909. I am now trustee, executor, etc.

The most important events since my last report have been another trip to Europe and my marriage. In April, 1908, occurred the death of my father, who, at the age of ninety-two years, was secretary and last survivor of the Class of 1835, and oldest living graduate of Harvard College at the time of his death. In the summer of 1908 I took a short trip to Europe, for the benefit of my health, — visiting England, Isle of Wight, Isle of Jersey and Brittany. On April 28, 1909, I was married in Emanuel Church, Boston, by Rev. G. L. Paine, '96, to Winifred E. S. Perkins, daughter of the late Augustus T. Perkins of Boston, H.U., 1851. We have lived since our marriage on Chestnut Street, Boston, and at Cotuit, of oyster fame, in Cape Cod. I am now treasurer of the Vincent Memorial Hospital, member of the Episcopalian Club of Massachusetts, member of the Harvard Musical Association, of the Veteran Association of the First Corps Cadets, member of the Hoosic-Whisick Club of Canton, and the Union Club of Boston.

FRANK EDWARD PARKER

Born	<i>at Cambridge, Mass., June 11, 1874.</i>
Parents	<i>Francis Edward, Harriet (Bristol) Parker.</i>
School	<i>Boston Latin School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Unmarried	
Occupation	<i>Bank clerk.</i>
Address	<i>(business) First National Bank, Boston.</i> <i>(home) 19 Myrtle St., Boston, Mass.</i>

I have always been a bank clerk here in Boston, with the exception of periods when in poor health. The year 1904 I spent in Italy, ostensibly on the business of introducing an

American machine into the cotton mills of Lombardy and Piedmont. Though I met with some success, I was still in pursuit of health, when I returned home, and later entered the service of the big "snug" machinery corporation, putting in a year and a half in their model home factory as a hand.

The most of the past four years I have been broker's clerk and bank clerk. At present I am in the service of the leading composite national bank of the city, one of the units still being the old bank in which I served five years.

Nowadays, however, very few ever see me at my desk. "But they worked while their companions slept."

JAMES PHILLIPS PARKER

Born	<i>at Hong Kong, China, Sept. 5, 1874.</i>
Parents	<i>Charles Edward, Mary Tilden (Phillips) Parker.</i>
School	<i>Hale's School, Boston.</i>

Degrees	<i>A.B.</i>
Married	<i>Emmeline Eames Williams, Oct. 17, 1900, Boston, Mass.</i>
Children	<i>Katharine Williams, Aug. 16, 1901; James Phillips, Jr., Jan. 8, 1906.</i>
Occupation	<i>Manager, surety insurance.</i>
Address	<i>(business) 84 State St., Boston, Mass. (home) 25 Eliot St., Jamaica Plain, Mass.</i>

Business: Clerk, assistant secretary and then general agent of the City Trust, Safe Deposit and Surety Company of Philadelphia at its Boston office June, 1897, to January, 1905; resident vice-president and general agent for New England for the Empire State Surety Company of New York, firm name, Taft & Parker, January, 1905, to January, 1908; manager, for Massachusetts, of the United States Fidelity & Guarantee Company of Baltimore, firm name, O'Neil & Parker, February, 1908, to date. From 1904 to 1908 I was also in the general insurance business in addition to the surety insurance above mentioned.

Military: During war with Spain I was a lieutenant (junior grade) in the United States Navy. At first I was in

command of the First District, Coast Signal Service, and later was navigating officer of the U.S.S. "Marcellus," commissioned May 9, 1898; discharged Sept. 16, 1898; September, 1891, to September, 1900, served in Massachusetts Naval Brigade; May, 1903, December, 1905, ordinance officer of Massachusetts Naval Brigade; January, 1906, to March, 1907, naval inspector, Governor's staff, Massachusetts; March, 1907, to January, 1908, adjutant general, Massachusetts; June, 1908, to date, captain, chief of Naval Bureau, Massachusetts Naval Militia.

Clubs: Boston Athletic Association; Puritan Club, Boston; Exchange Club, Boston; Tedesco Country Club, Swampscott, Mass.; Harvard Club, New York; Army and Navy Club, New York.

Associations: Junior vice-commander-in-chief of the Naval and Military Order of the Spanish-American War.

Books written: "National Guard Regulations, Massachusetts Volunteer Militia;" "Naval Militia Regulations, Massachusetts Volunteer Militia."

Children	<i>Barbara, July 1, 1899.</i>
Occupation	<i>Wholesale jewelry.</i>
Address	<i>(business) 373 Washington St., Boston, Mass.</i> <i>(home) 277 Clinton Road, Brookline, Mass.</i>

Have done nothing remarkable from any point of view.

JOHN WELD PECK

Born	<i>at Wyoming, Hamilton County, Ohio, Feb. 5, 1874.</i>
Parents	<i>Hiram D., Harriet Emily (Weld) Peck.</i>
School	<i>Miami University.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.; LL.B., 1897 (Law School, University of Cincinnati, Ohio).</i>
Married	<i>Nelle Wright, Jan. 7, 1899, Cincinnati, Ohio.</i>
Children	<i>Jane Wright, March 29, 1902; Emily Nelle, Feb. 21, 1905.</i>
Occupation	<i>Attorney at law.</i>
Address	<i>(business) Atlas Bank Bldg., Cincinnati, Ohio.</i> <i>(home) Hedgerow Lane, Clifton, Cincinnati, Ohio.</i>

I graduated from the Cincinnati Law School in June of 1898 (having attended the lectures in the first year of the

Harvard Law School during the senior year at College) and soon after became the junior partner in the law firm of Peck, Shoffer & Peck, Cincinnati, in which I have ever since continued in the general practice. In politics I have taken some part with such good Harvard men as Pendleton, Hunt, Bettman, and Merrell (all of you who attend the meetings of the Associated Clubs know them) and others in trying to better municipal conditions; Democratic candidate for Mayor of Cincinnati 1909 — defeated; chairman Democratic Campaign Committee of Hamilton County, 1910. I have held no public office and my writings have been confined to briefs, an occasional paper for the Literary Club of Cincinnati and a few articles that have found their way into magazines.

JAMES WESSON PHELPS

Born	<i>at Wilbraham, Mass., July 9, 1874.</i>
Parents	<i>W. L., Amelia S. (Eddy) Phelps.</i>
School	<i>Wesleyan Academy, Wilbraham, Mass.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A. B.</i>
Married	<i>Florence Maude Howe, Dec. 27, 1900, Worcester, Mass.</i>
Children	<i>Louise, Jan. 18, 1911.</i>
Occupation	<i>Landscape architect.</i>
Address	<i>Bolton, Conn.</i>

Soon after graduation I began work that led me toward the profession of landscape architecture. I have been wise enough or foolish enough, — whichever way you wish to take it, — to keep on in that line. It is needless to say that I have met with some success or I would not be still at it at the end of fifteen years.

As suggested above, I will throw away modesty and mention some of the offices of honor which I have held. For example, fourth assistant choirmaster of a country church with maximum number of members in choir five; Sunday School superintendent; lecturer of grange; tax assessor; treasurer Grange Dramatic Club.

If any one is interested in my professional ability, I will refer him to clients for their reply.

LAWRENCE PIERPONT

Born	<i>at Bloomington, Ill., July 29, 1873.</i>
Parents	<i>Henry J., Frances M. (Walker) Pierpont.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>S.B.</i>
Married	<i>Bessie Rogers, April 15, 1902.</i>
Children	<i>Lawrence, Jr., Nov. 16, 1905; Elizabeth, March 5, 1908.</i>
Occupation	<i>Solicitor.</i>
Address	<i>(business) care of Jas. B. Clow & Sons, Harrison St. Bridge, Chicago, Ill. (home) 2647 Dewey Ave., Evanston, Ill.</i>

Shortly after leaving in 1896 I started with the Western Electric Company in Chicago. Was there for three years as clerk, draftsman, and chemist. Then took position as superintendent of mechanical end of chocolate and cocoa plant. This for nine years, during which time I was in New York City straightening out a defunct chocolate "plant," spending six months at it. In 1908 went into the novelty advertising business for myself. Eighteen months was enough of that. 1909 became private secretary to W. E. Clow, president, James B. Clow's Sons. The last few months have been trying to convince some of our architects that the Clow goods are "the goods." They are apparently satisfied with what they have used for the last thirty years. Have written nothing but letters, checks and I. O. U's.

Address	<i>Mystic, Conn.</i>

Since return from the Philippines I have made my home

in Mystic, Conn., engaged in building up not only a school system, but buildings adequate and proper for the same. To advance and further this work, five years back I began the publication of a weekly village newspaper. Both the schools and the paper have succeeded beyond my expectations. This coming year will see the completion of the second excellent, modern brick schoolhouse. One of the schools — our village being in two towns — is already under the town system; the other will be eventually, if constant hammering the idea into the people through my paper can achieve the results.

Running two jobs requires about all of one man's waking moments; but if the end justifies the means, then I am justified in denying myself and my family the happiness most men obtain from the enjoyment of family intercourse, in order to lay the stone for the foundations upon which others may build.

Born	<i>at New York City, March 5, 1876.</i>
Parents	<i>Gustav, Celia (Heilprin) Pollak.</i>
School	<i>At home.</i>
Years in College	<i>Three.</i>
Admission Date	<i>September, 1893.</i>
Degrees	<i>A.B., LL.B., 1899 (Columbia).</i>
Married	<i>Inez Cohen, Jan. 4, 1901, New York City.</i>
Children	<i>Franklin Samuel, July 11, 1902; Inez Cohen, March 23, 1904; Katherine, Sept. 1, 1905.</i>
Occupation	<i>Lawyer.</i>
Address	<i>(business) 49 Wall St., New York City.</i> <i>(home) 427 W. 144th St., New York City.</i>

There is little to add to the chronological record. I have had no adventures, not even in the law. On leaving Columbia Law School in 1899, I entered the office of Sullivan & Cromwell and have been connected with that firm ever since; for the last five years as a partner. The pressure of law work in New York City I have found too great for much activity in other directions, but I have tried to do a little public service by work for the last six or seven years in various civic organizations.

I have been engaged in teaching ever since my graduation from College. From 1896 to 1899 I was sub-master of the High School in Quincy, where I taught German, Greek, and Latin. During the next three years, from 1899 to 1903, I was principal of the High School at Abington, Mass. From 1903 until 1907 I was superintendent of schools and principal of the High School in Lexington, Mass. In 1907 I went to the William Penn Charter School in Philadelphia, where I taught English and history for two years. In 1909 I came back to Boston to teach Latin and history at the Volkmann School, where I am teaching at present.

In 1896 by means of an illegible parchment passport I escaped from Harvard only to fall into the hands of the

authorities of the Massachusetts Institute of Technology, where I did time and overtime for two years. At last I obtained from the president a leave of absence for ninety-nine years and, disguised as an architect, sallied forth in quest of my own and other people's fortunes. Have found neither so far, but without a dollar in sight am still on the cent. Concealed with my running mate behind a brazen sign with our fighting motto, "Putnamus et Coxis," engraved upon its brassy face, we are still hurling forth illustrated pamphlets and doing our darndest to make Boston Beanier, Buildier, and Bummer. I have written quite a number of books, each one bearing the title of the house, palace, or hen-coop for which it was a specification. I have held a great many offices of honor and trust, but I can't for the life of me remember what they were.

When not at work disfiguring the landscape I can be found in the beautiful palace I have built in Chestnut Hill, where the latch-string is always dangling out for ninety-sixers. Do come and pull it and walk right in and meet Mrs. Putnam and the baby, talk over old times, and stay to dinner.

I am at present in a kind of interregnum, as the feed concern my brother and I were running has been quite put out of business by the automobiles. In a mental way the past five years have been quite full, bringing me in touch with Socialism, Anarchism, and New Thought. You can also count on me for Woman Suffrage, Simplified Spelling, and Spiritualism. That seems about enough for one man. Best wishes to you all.

EDWIN THOMAS REED

Born	<i>at River Falls, Wis., Sept. 15, 1872.</i>
Parents	<i>Edwin S., Josephine (Claggett) Reed.</i>
School	<i>River Falls, Wis., High School.</i>
Years in College	<i>One.</i>
Admission Date	<i>September, 1895.</i>
Degrees	<i>A. B.; S. B., 1895 (Univ. of Minn.).</i>
Married	<i>Katharine May Hartwell, July 28, 1909, Fargo, N. D.</i>
Occupation	<i>Teacher in State Normal School.</i>
Address	<i>Moorhead, Minn.</i>

After a little experimenting in newspaper work I took a position as superintendent of city schools at Rushford, Minn., where I spent three years, removing at the end of that time to Cloquet, a lumbering and paper-manufacturing city near Duluth, where I had charge of a school system of about twenty teachers. While in this work I made a detailed study of the teaching of English from the primary grade to the college-preparatory studies, and discussed this problem at teachers' meetings and educational conventions. Toward the close of my first year at Cloquet I was elected to a position in the Moorhead, Minn., State Normal School, where I have served as head of the English department since the fall of 1901. The school has continuous sessions, with an annual enrollment of about a thousand students; and the English work is particularly agreeable, since the president, Frank A. Weld, has a high appreciation of literary culture.

In connection with my teaching, I have edited the school publications, "The Red Letter" and the quarterly "Bulletin." Special educational articles that I have written for the "Bulletin" are: "Exercises in English as a Means of Developing Individuality," "The Use of Literary Masterpieces in the Study of History," and "A Report on the High School Course in English," the latter written at the direction of the State Educational Association, and published and distributed under its auspices. In 1898 I published a book of verse, "Inland Windfalls," and in 1900 another, "Lyrics."

I have served as president of the Northwestern Minnesota Educational Association (1905), and as secretary of the Northwest-Central Minnesota Educational Association (1910),

organizations that have a membership of from six to eight hundred.

Last summer I taught in the college section of the State University Summer School.

In the course of the year I give ten or twelve addresses in the towns of the Red River Valley.

Unmarried	
Occupation	<i>Student of international law.</i>
Address	<i>1812 I St. N. W., Washington; or Cohasset, Mass.</i>

I was appointed third secretary of the American Embassy at Berlin June 2, 1902, whence I was transferred to Rio de Janeiro June 9, 1904, and arrived there to be chargé d'affaires of the legation for several months during the absence of the minister. In January, 1905, the legation to Brazil was raised to an embassy and I was appointed secretary of the embassy at

Rio de Janeiro Jan. 27, 1905. The ambassador returned to the United States early in November, 1905, and from that time until June — a period of seven months — I was chargé d'affaires at the embassy, when a new ambassador came.

I left Rio on June 6 en route to Denmark, where I had been appointed secretary of the legation at Copenhagen on April 9, 1906. I was chargé d'affaires there for three months during the summer of 1907 and was the American representative during the State visit of their majesties, the German Emperor and Empress in July, 1907. It being the commencement of King Frederick's reign, many European sovereigns and the French president came to Denmark to return the visits made by the King and Queen of Denmark on their accession.

I remained in Copenhagen at the legation till October, 1909, when I returned to the United States where I have been ever since.

Regarding what I have been guilty of in the way of actual work, I entered first the employment of the American School of Correspondence, writing a considerable number of texts on mathematics and engineering for them to perpetrate on an unsuspecting public. I remained with them until '99. During this time I was also studying medicine. In 1899-1900 I went to Nicaragua to surprise my brother, who was nosing around Nicaragua at that time. I then returned to Boston and then went over to Europe. On my return I spent a year on medicine and received the degree of M.D. in 1901. I then practised two years in Cambridge, and then,

1903, entered the Navy Medical Corps, where I spent the next three. I then put in a year in Tacoma instructing in mathematics, after which I returned to Boston and crossed over to Europe. After returning I took charge of the Science and Physical Training Departments in Pennsylvania State Normal School, making another trip to Europe in the summer of 1908, and going to Maine as medical director of Camp Pequog in the summer of 1910. In the autumn I visited the Exposition at Seattle, and remained in the West as professor of chemistry and medical director of the University of Puget Sound. When summer came I responded to a call for medical assistance in Nicaragua, where they were having the real thing in the way of a revolution and feeding the most able-bodied of their population to the machine guns. While thus doing a little in a medical and surgical way in Central America, I unfortunately got my right arm infected, and nearly killed myself by a three days' ride with a one hundred and three temperature to get to a competent operator. After seventeen hours in the saddle the last day I got to a man who could dissect down to the seat of the trouble, and was in fair shape when I got to the steamship. They have three kinds of surgeons on these ships — booze artists, dope fiends, and fossils. I got the last named ; my arm was reinfected though not badly. I then contracted malaria, and landed in Mexico a genuine walking skeleton. Either fortunately or unfortunately I managed to reach Boston alive, and busied myself in getting over the trip. Being tough I have done pretty well, and have lately felt well enough to act as associate head master and resident physician in Keewatin Academy, also practising in town when any one is fool enough to want me.

Since leaving College I have been connected with the United Shoe Machinery Corporation for nearly ten years, finally becoming assistant purchasing agent. In 1907 was

taken sick and resigned from the company. Went to Poland Springs for four months and in fact was away from business for over a year, under instructions from my doctor. On my return I entered the employ of my father as his private secretary and confidential man, and am still endeavoring to fill the job. I think that brief summary covers about all of interest to the Class of 1896.

Children	<i>Louis Camille Aimé, Aug. 24, 1910.</i>
Occupation	<i>Druggist.</i>
Address	<i>Joliette, Quebec.</i>

After a few years of drug business in Lowell, Mass., I had to relinquish home and country ties to take up my abode on John Bull's territory, owing to the death of a good and kind-hearted mother-in-law. My knowledge of railroading, which I always had cultivated when a resident of Massachusetts, acquired me a position as traveling passenger and freight agent for the C.N.Q. Railway, which place I filled up to a few months ago, when I became interested once more in the drug business. Should any of the "'96" Boys make a stop at Joliette I would be only too glad to renew acquaintances at my new home, which is now cheered by the cries of a charming and loved boy.

Unmarried	

Occupation	<i>Lawyer.</i>
Address	<i>(business) 27 State St., Boston, Mass.</i> <i>(home) 3 St. James Ave., Boston, Mass.</i>

Was admitted to the Bar in 1899 and have been engaged in the general practice of the law ever since with offices at 27 State Street, Boston. In 1903 became junior member of the firm of Russell, Moore & Russell. With the exception of some strenuous activity in the Storrow campaign, serving as Secretary of the Ward Committee, have had very little to do with politics during the past five years. The only offices of honor or trust which I hold — if such are intended by your question — are two or three treasurerships and the trusteeships that come in the course of a general practice. I have kept up my interest in athletics. A few years ago won the New England championship for the eighteen-foot rope-climb two years in succession, and still hold the State record for the event. Since 1907, have been Athletic Consul for the Athletic League of North America for the New England section. Serve on enough committees of one sort or another to consume most of my leisure time and have not yet had a chance to think of getting married.

William Augustus Russell

Born	<i>at Lawrence, Mass., Dec. 10, 1873.</i>
Parents	<i>William Augustus, Frances Spofford (Hall) Russell.</i>

Married	<i>Mary Lovering Head, Sept. 18, 1905, Manchester, Mass.</i>
Died	<i>June 7, 1906.</i>

After graduating he entered his father's office and, on the latter's death in 1899, assumed the entire responsibility of an active and complex business.

He was an officer and director in many companies and in 1902, with his brother Richard S., '01, and Dudley P. Rogers, '96, formed the firm of Wm. A. Russell & Bro.

On Sept. 18, 1905, he married Mary Lovering, elder

daughter of Charles and Hortense (Lovering) Head of Boston.

He died June 7, 1906. The Boston "Transcript" of June 18, 1906, contained the following:

"The qualities of character which William A. Russell displayed during his last illness were so striking as to make his death an especially great loss to his friends and acquaintances. His actual accomplishments in the world, sufficient to have satisfied many men whose business life alone compassed all the years granted him, served to bring into greater relief his other qualities. He had attained in large measure most things that successful men think worthiest to strive for. He had proved himself able to meet and conquer large problems in the financial world. His coöperation was sought and his advice respected by men whom long years of business life had tried and not found wanting.

"He was endowed with a constructive imagination, and that this gift was not neglected his position among men of affairs amply testified. The future held out for him rare promises of material success. No one who knew him doubts that, had he lived, these promises would have been fulfilled.

"If this were all that there had been to William A. Russell it had been sufficient to mark him beyond most of his fellows. It sufficed, however, simply to bring into prominence other and higher qualities. In the highest type of courage — in thoughtfulness for the happiness of others and effacement of self as a suffering human being — during an illness of months — he stood out as a man among men. He knew what he was facing. The slim chance of a successful battle for life, he waged for others with quiet and undaunted courage. Reserved to a degree in manner, he was a man of deep sentiment which he kept far below the surface and never betrayed to idle eyes.

" ' Who best can drink his cup of woe,
Triumphant over pain,
Who, patient, bears his cross below —
He follows in His train.' "

My first two years after College were spent in Kansas City, on the "Times," lastly as editorial writer. In 1898 I changed to the St. Louis "Republic" as telegraph editor. Next spring I went to Nicaragua to make my fortune in the gold fields. A revolution was in progress when I landed at Bluefields, but I did not learn what it was about. Went up into the mountains in an Indian canoe — seventeen days out. The jungle was thick, vegetation rank, Indians and other wild animals plentiful, insects swarming, snakes plentiful, rainfall copious and mud ample. There was everything in abundance except gold. So after my cook died from a snake bite I returned to Bluefields and found a revolution in progress. It was not the same one, but I did not learn what it was about.

Going back to the "Republic" as assistant to the night city editor, I gradually rose to telegraph editor. By this time it seemed to me that journalism was a business instead of a profession; that the most important department was not the news or editorial but the "business end." Having neither the ability or disposition to make a profession of literature and not caring for the publishing business as a business I resigned. And while the newspaper life is absorbing and the friendships made are almost as strong and disinterested as college friendships, I have never regretted leaving the business.

At first I obtained a place with a large trust company, copying deeds in the City Hall. My salary was \$40 a month

and most of the men got \$30. Some had families to sustain. Most of us were young and capable of better work, and later found it. At night I learned bookkeeping out of an old textbook. Five or six weeks later a vacancy occurred in another trust company. I got the place as bookkeeper and was fortunate enough to turn it into a department.

In 1902 an offer came to be office manager of a wholesale firm on the Pacific Coast and was accepted. Entering upon the work with too much zeal I was a few months later on the verge of nervous prostration. Unable to sleep or eat, I resigned and devoted a year or more to regaining my health, which was eventually restored completely.

Early in 1905 I returned to St. Louis and went to work for the Union Fuel Company. Later I went through several steps — salesman, superintendent of yards — and in 1909 became general manager.

Nothing eventful has occurred in my life during period since last report. Have recently purchased small ranch in Fullerton, Cal., a few miles from Los Angeles, and am growing oranges and walnuts, with blooded poultry and dogs on the side. All members of '96 very welcome to partake of the fruit, and a few other edibles and drinkables whenever they come to the Pacific Coast, and they can also take their pick of the live stock, if they want prize winners and have the necessary credentials (\$\$\$).

From the fall of 1896 to Feb. 1, 1908, I taught in the public schools, the first two years in the East Side High School at Aurora, Ill. Had been elected assistant principal of that school when I was offered and accepted, September, 1898, the department of civics and economics in the Englewood High School of Chicago. In November, 1900, I became assistant superintendent of schools of Chicago, which position I relinquished in October, 1902, on account of poor health. After an interval of two years spent at my home in Iowa, I returned to the Chicago schools as director of the Extension

department in the Chicago Normal School. In February, 1908, I went into the real estate business in Chicago. Two years later I entered the employ of the Clay Product Company of Brazil, Ind., manufacturers of vitrified clay conduit.

Since the last report I have been going some. I have abandoned the scientific work which then so largely engrossed my attention, and have been traveling most of the time. Many of my friends seem to think that I have been indulging in a continuous junket. But though I have been having a good time I can easily persuade myself that I might be taken more seriously.

For the past seven years I have conducted a school for boys rather different from the usual. The plan has been to give boys during their last two years of College preparation, and without interrupting their studies, the broadening advantages that come from intelligent travel. We busy Americans are so in the habit of looking upon travel as a form of dissipation or at best, recreation, that it is difficult for us to take it seriously. But it is possible.

In these seven years I have, in the aggregate, taken seventy boys four times to Europe and three times round the world, traveling something like two hundred thousand miles. I have attempted to learn with them some of the many lessons which other countries and peoples have to teach us Americans. We have studied government, municipal and national, in European countries to learn what was good for us. We have familiarized ourselves with the various phases of art and handicraft in the

Occident and Orient, and have seen the world's art galleries and museums. My work has been an attempt to make a few score selected boys bigger, broader minded, and more cultivated citizens than they otherwise would have been. Incidentally with the aid of my assistants they have continued their preparation for College, studying languages and history on the spot where each subject was of greatest interest.

This year, for example, I have had twelve boys with me in Europe for eight months. The first two months we cruised in the Mediterranean on the steam yacht "Athena," which was chartered for the purpose. The most of the time was spent in Greek waters, but we visited also Sicily, Northern Africa, Asia Minor, and the Adriatic. The remainder of the year we were in Italy, Germany, France, and England. Next year we shall for the fourth time make the round of the world through the Mediterranean, Egypt, Ceylon, India, Burma, Java, China, and Japan. My summers are spent between Boston and New Hampshire.

Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A. B. ; M. D., 1900 (Columbia).</i>
Married	<i>Ethel Alice Whitney, Feb. 21, 1903, Milton, Mass.</i>
Children	<i>Henry Suydam, Jr., Dec. 17, 1904; Stanton Whitney, Nov. 3, 1907 (infant twin brother died Nov. 9, 1907).</i>
Occupation	<i>Physician.</i>
Address	<i>780 Madison Ave., New York, N. Y.</i>

After leaving Cambridge in 1896 I entered the College of Physicians and Surgeons in New York. In May, 1898, I enlisted with Troop A, United States Volunteer Cavalry, and served with this command in Long Island, Virginia, and Porto Rico during the summer of 1898, and was discharged with the muster out of the troop in December of the same year. Having missed some of the regular work at the Medical School and all my second year examinations, I was obliged

to make up the deficiency by passing second and third year examinations together in the spring of 1899. In March, 1900, I competed in the examination for house staff appointments at St. Luke's Hospital, New York, received sixth place out of eight appointments and chose the medical service beginning the following year. I spent most of the time intervening as clinical assistant at the Roosevelt Hospital Out-patient Department and Vanderbilt Clinic. After my internship at St. Luke's Hospital (1901-1902), I served for three months on the house staff of the Sloane Maternity Hospital, New York, and began private practice in the spring of 1903. I was appointed district physician of the New York Dispensary in January, 1903, and had a valuable and varied experience in house to house visits among the slum districts of lower New York from 1903 to 1907, when I resigned this position and was appointed attending physician, department of internal medicine of the same institution. I resigned this last appointment in January, 1911, and was appointed assistant attending physician to the Willard Parker and Riverside Hospital in New York City. I manage to keep fairly busy and am in good health.

Born	<i>at Canandaigua, N. Y., June 27, 1873.</i>
Parents	<i>Jonathan Clark, Mary Emily (McCabe) Sayer.</i>
School	<i>Exeter.</i>
Years in College	<i>One.</i>
Admission Date	<i>September, 1892.</i>
Married	<i>Florence Elizabeth Hurd, Sept. 27, 1895, Buffalo, N. Y.</i>
Children	<i>Evelyn Hurd, Sept. 26, 1896; Katherine, Oct. 15, 1898; Stephen Fauchar, April 27, 1902; James Edward, Nov. 10, 1905.</i>
Occupation	<i>Transportation.</i>
Address	<i>Canandaigua, N. Y.</i>

The last ten years I have been working for a public service corporation, the Canandaigua Lake Transportation Company, of which I am now the president.

Between the constantly increasing demands of the public, the Interstate Commerce Commission, and the New York State Public Service Commission, all transportation men have found work to do.

I am also a director and officer in other corporations.

Have found time to do considerable yachting and shooting, and enjoy other out-door sports. It gave me great satisfaction to be requested, by the Rochester Yacht Club, to sail their defender "Iroquois," in the Canada Cup races in 1905.

My home and family life have been very happy, the children all strong, and fond of out-door life, the only one worth living.

Children	<i>Mary Adams, Sept. 2, 1908.</i>
Occupation	<i>Investment broker.</i>
Address	<i>(business) 50 Congress St., Boston, Mass. (home) Framingham, Mass.</i>

The first two years after graduation I spent in Butte

County, Cal., growing oranges and olives, but returned East early in 1899, obtaining a position with Lee, Higginson & Co., Boston.

My first work was on the "ticker," from which I graduated into the bookkeeping department. In 1901, when the firm started its regular bond department, I was taken on as a salesman. For more than nine years, or until April of this year, 1910, I have been peddling bonds in various parts of New England. For the past two years I was a joint manager of the Worcester office.

In April of this year I felt obliged, owing to my failing hearing, to be out of doors more. I therefore opened an office of my own in Boston where I spend five days of each week, the other two days have been spent working in a wood-lot on my little farm here in Framingham.

In June, 1905, I married Mary Kennard. We have a daughter now two years old.

I have at one time or another been treasurer of the Framingham Country Club, and of the Framingham Improvement Association, trustee of the Country Club, and am now serving as an assessor of the First Parish Church of Framingham.

GEORGE DOW SCOTT

Born	<i>at Newport, N. H., Jan. 28, 1871.</i>
Parents	<i>George Robert White, Mary E. (Dow) Scott.</i>
School	<i>Lausanne, Switzerland, and at Middlebury College, Vermont.</i>
Years in College	<i>One.</i>
Admission Date	<i>September, 1895.</i>
Degrees	<i>A. B. ; M. D., 1902 ; A. B., 1895 (Middlebury, Vt.).</i>
Unmarried	
Occupation	<i>Physician and surgeon.</i>
Address	<i>111 West 77th St., New York City.</i>

Leaving College in June, 1896, I enjoyed a delightful summer in Kennebunkport, Me., before entering the Harvard Medical School in the fall. Four years were spent there, each summer being given up to some interesting medical or surgical work; for instance, obstetric work during the summer

months of 1898, and special work in the Massachusetts General Hospital, Children's Hospital, etc., during the summer of 1899. The months of June, July, and August and a part of September, 1900, were enjoyed as assistant physician to the Boston Floating Hospital Ship, following which I became clinical assistant to Dr. J. Orne Green at the Massachusetts Eye and Ear Infirmary. Entering then the south department of the Boston City Hospital I remained there until late in 1901. Coming to New York City, an internship was offered me at the New York Hospital for Infants and Children on Randalls Island, probably the largest institution of its kind in this country. Immediately following my graduation from this hospital I worked with Professor Alois Monti in Vienna as an assistant during the year 1903. The beginning of 1904 saw me in practice at 118 West 80th Street, New York City — pardon me, not “in practice” as I did nothing at first. About a month after beginning practice the position of assistant attending pediatricist was given me at the Cornell Medical School Out-patient Department under Dr. Joseph A. Winters. Private practice came slowly and to stimulate my interest in life I wrote for medical journals. Since then I have read many articles and papers before medical and scientific societies. My paper on “The Passing of the Nursing Mother” was followed by “Headaches in Children,” “Enterocolitis in Infants, with Special Reference to its Management,” “School-Age,” “The Value of Fruit Juices in Infant Feeding,” “Nasal Diphtheria in Infants,” “Chorea in Children, its Pathology and Treatment,” etc. Two years ago I entered the post-graduate medical school and hospital as instructor and chief-of-clinic, soon after becoming assistant visiting physician to the infants' and children's wards. Some time before this the position of chief-of-clinic to the St. Mark's Hospital Out-patient Department for Infants and Children was given me.

Nearly three years ago I came to this locality, 111 West 77th Street, very near to the Natural History Museum. I can drop in at any time and examine the bones of pre-historic animals and possibly physicians. I belong to several medical and scientific societies and associations and attend many more,

among them: Fellowship in the Academy of Medicine; membership in the Harvard Medical Society, the Society of Medical Jurisprudence, Bronx Medical Society, East Side Physicians Association, West Side Clinical Society, Medical Association of Greater New York, Pediatric Section Academy of Medicine, Post Graduate Clinical Society, County Medical Society, State Medical Society, Harvey Medical Society, Mutual Aid Association.

Parents	<i>William Barnas, Emily A. (Faunce) Sears.</i>
School	<i>Brookline High School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B. ; A.M., 1898 (Columbia).</i>
Unmarried	
Occupation	<i>Teacher (Instructor in English).</i>
Address	<i>(business) University of Illinois, Urbana, Ill. (home) 7 Harvard Ave., Brookline, Mass.</i>

After leaving Harvard I accepted a position as instructor in English, French and German at Montclair Military Academy, Montclair, N.J. The following year I entered the Graduate School, Columbia University, took A.M. degree in spring of 1898 and continued graduate work in literature under Professor Woodberry for another year. In the fall of 1899 I accepted place as instructor in English at the University of Cincinnati. In 1901 I returned to Boston to assume the rôle of college man in business, being associated with my father in his fire insurance business at 95 Water Street, and remaining with him for six years. In 1907 a Columbia classmate insisting that I should come back into the teaching fold, had an offer forwarded of a place in his institution. I hastened to the call of the wild, came to the University of Illinois and have been promoted to the position of secretary of the Harvard Club of Eastern Illinois. I have met and enjoyed meeting men from other universities and from all parts of the country gathered here. I have received, however, no franker and more welcome hospitality

than that tendered in Chicago by the present president of the Associated Harvard Clubs; and I consider that being a good Harvard man confers a distinction and opens possibilities unequalled in the country — perhaps in the world.

MAJOR GABRIEL SEELIG

Born	<i>at Helena, Ark., Feb. 19, 1874.</i>
Parents	<i>S., Vera (Cohen) Seelig.</i>
School	<i>St. Louis High School, Harvard Summer School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A. B.; M. D., 1900 (Columbia).</i>
Married	<i>Clover Althea Hartz, 1906, Cleveland, Ohio.</i>
Children	<i>Clover Marjorie, Oct. 19, 1907.</i>
Occupation	<i>Physician.</i>
Address	<i>Humboldt Bldg., St. Louis, Mo.</i>

Following my graduation in '96 I entered the medical department of Columbia University, receiving the degree of M.D. in 1900. The next two and a half years were spent as interne in Mount Sinai Hospital (New York), where I served in the surgical department. Then came a year in Europe spent mostly in Berlin, and occupied chiefly by the study of pathology and medical history. In 1904 St. Louis was selected as a favorable spot in which to settle down for the practice of surgery. Ever since my arrival here I have been attached to the medical department of St. Louis University in one capacity or another, advancing gradually until the position of assistant professor of surgical pathology was reached. Attending surgeon to the St. Louis City Hospital, associate surgeon to the Jewish Hospital, and chief surgeon to the dispensary of the Jewish Hospital complete the list of official positions held. During the past seven years I have published in current medical literature about two dozen pieces of research work along clinical, pathological, historical, and physiological lines.

Socially and in a domestic way there is nothing of interest.

Married	<i>Frances Conway, June, 1904, Boston, Mass.</i>
Occupation	<i>Dentist.</i>
Address	<i>330 Dartmouth St., Boston, Mass.</i>

Since leaving the dental school I have been associated in business with my father. The practice of dentistry being rather confining, I attribute my good health to the habit of taking long walks, spending my vacations with feet to the earth. I have not done anything remarkable in the line of writing books (although I expect to write one twenty years from now) or in holding offices of honor or trust.

When I finished my academic work in 1896, I had also been through four years of Law School, from 1890 to 1894; in June, 1896, I had my A.B. and by the end of July had finished my graduate courses and earned my A.M., which was awarded to me at next commencement in 1897. So in August, 1896, it was necessary for me to choose my future path. An earlier brief visit to Chicago had given me a liking for the place; the university men seemed cordial and earnest, the test for advancement seemed to be ability to reach results. I had very few acquaintances in Chicago, and my funds were almost exhausted. The idea of planting one's self in such a place, under such circumstances, was attractively venture-some, yet practical, and I came as quick as I could. Acquaintances developed into friends, for whose early help I have ever since been grateful. Two days of soliciting yielded a clerkship in a law office at \$50 a month, and fate seemed favorable. My employer was Alfred E. McCordic, L.S. '89, who eighteen months later took me into partnership under the name of McCordic & Sheriff, which continued successfully up to 1907; he then retired from the firm, and I reorganized it with the younger partners and one new one, under the name of Sheriff, Dent, Dobyns & Freeman, which now continues, with offices at 925 The Rookery. My partners are L. L. Dent, '93, Fletcher Dobyns, '98, and C. Y. Freeman, Princeton, '99; and I confess a sense of pride in being the

head of this firm. Most of my time is devoted to its practice, and in developing its efficiency and success. In politics I worked in the inner circle of the ward Republican organization for several years, but withdrew under greater pressure of my law practice, and have never held or sought a public office. I have not, however, forgotten my duty to the public, and hope I may sometime in the future openly and definitely perform it. Meanwhile I find some comfort in the belief that the man who, by honorable and unselfish methods, improves his own circumstances also helps indirectly his fellow-men. I have not yet written any book or other publication. I continue to be on the boards of directors of several local corporations, also on the vestry of Trinity Church, and to participate in plans for making it if possible a great and permanent public sanctuary. My club memberships are: Chicago, University, Calumet, Automobile, City, Law, Legal, and Harvard, in Chicago; Lake Geneva Country Club; Harvard, of New York; Harvard Union, of Cambridge.

Degrees	<i>S.B.; S.B., 1894 (M.I.T.).</i>
Married	<i>Margaret A. Nichols, May, 1905, Boston, Mass.</i>
Children	<i>Sidney N., 1906; Sarah P., 1907; William A., 1909.</i>
Occupation	<i>Landscape architect.</i>
Address	<i>89 State St., Boston, Mass.</i>

Since leaving Harvard I have devoted all my time to the practice of landscape architecture as follows: 1896 to 1905 with the Olmsteads in Brookline and also teaching landscape architecture at Harvard College; 1906 opened own office at 22 Congress Street; 1909 moved to 89 State Street. In 1908 I was adviser to the Metropolitan Improvements Commission. At present I am adviser to the Boston Park Department and have just finished a report for the joint

board. I am also designing playgrounds and parks for Fall River, Ware, Buffalo, N.Y., and for many towns and cities near Boston. Private estates and gardens also suffer at my hands.

PRESCOTT ORDE SKINNER

Born	<i>at Boston, Mass., April 28, 1868.</i>
Parents	<i>John, Jeanie R. (Terwilliger) Skinner.</i>
School	<i>Boston Latin School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.; A.M., 1897.</i>
Married	<i>Alice Van Leer Carrick, July 10, 1901, Boston, Mass.</i>
Children	<i>Margaret Van Leer, Aug. 12, 1902; John Carrick, Oct. 21, 1905; Alicia Prescott, Dec. 10, 1909.</i>
Occupation	<i>Assistant Professor of Romance Languages.</i>
Address	<i>Hanover, N.H.</i>

In 1897-1898 and 1898-1899 I served as instructor in the Romance Languages at Harvard University, and incidentally I gave some courses at the Boston University. The following year, 1899-1900, I spent, for the most part, at Paris studying at the university. Since the fall of 1900 I have served as instructor and then as assistant professor of the Romance Languages at Dartmouth College. My published work has been confined to two text-books done in collaboration with a colleague. I have, however, more ambitious plans for future work along these lines. My life, during the past five years devoted to the routine of college teaching, with some administrative work, has been pleasant but uneventful.

ALBERT ERNEST SMALL

Born	<i>at Melrose, Mass., Oct. 9, 1875.</i>
Parents	<i>John M., Julia E. (Gerrish) Small.</i>
School	<i>Melrose High School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.; M.D., 1900.</i>
Married	<i>Ina Olive Sawyer, June 25, 1907.</i>
Children	<i>Elisabeth, July 27, 1908.</i>
Occupation	<i>Physician.</i>
Address	<i>90 W. Emerson St., Melrose, Mass.</i>

Continuing the account as given in the last report, I moved to Melrose, Mass., my original home, in July, '06.

Then I began the weary road of building up a clientele in medical practice all over again. I have not yet attained abundant wealth in either money, patients or good nature. In due time I received an appointment as visiting physician to the Melrose Hospital. I am a member of the American Medical Association, Massachusetts Medical Society, Massachusetts Association Board of Health, Harvard Medical Alumni, Trinity Lodge, A.F. & A.M., and others which I remember only when I have to pay my dues. I am medical examiner for several insurance companies, and when I am not busy attending to these various duties I am seeking to learn why our automobile is never ready to go just at the particular moment it is most necessary it should.

GEORGE EDWARD SMITH

Born	<i>at Providence, R.I., May 17, 1871.</i>
Parents	<i>Joseph Cuthbert, Elizabeth Mary (Hogg) Smith.</i>
School	<i>Brown University, Providence, R.I.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Unmarried	
Occupation	<i>Secretary to banker.</i>
Address	<i>37 Wall St., New York City.</i>

After graduation, having remained a few years a dweller amid the classic shades of Cambridge, I was for a year and a half associated with a mining engineer in Boston.

Wearying, however, of the strenuous life and frigid climate of the New England Metropolis, about six years ago I migrated to the Broad Street Curb.

Soon afterward I joined the happy throng who have attained that "Haven of Rest known as Wall Street."

Here I have since been connected with one or two stock exchange houses.

Pending the accumulation of my first million, I have considered it wise and prudent to refrain from matrimony as rather too costly a diversion.

Inasmuch as I am now special assistant to a member of a banking firm, my present position is highly confidential; and therefore my classmates really must excuse me from making further revelations.

GEORGE MILTON SMITH

Children	<i>Elizabeth, April 26, 1905.</i>
Occupation	<i>Lawyer.</i>
Address	<i>(business) 30 Hildreth Bldg., Lowell, Mass. (home) 19 Astor St., Lowell, Mass.</i>

The fifteen years since our '96 Commencement have been comparatively uneventful with me. During the entire period I have been connected with the legal profession in my native city, Lowell, first as a student in an office, and since February, 1899, in practice, the last six years in partnership with my brother in the firm of Spalding & Spalding. Notice of my marriage and the birth of our daughter and only child appeared in the last Class Report. Since that report nothing of especial interest to the other members of

the Class has happened to me. From too selfish motives, I fear, I have withheld from my fellow-citizens the benefit of my services in public affairs, having neither held public office nor had any desire or inclination to do so. My interest in Harvard and the Class of '96, however, increases in geometrical progression each year, and I always endeavor to take in Commencement and all our Class reunions.

PHILIP STOCKTON

Born	<i>at Brookline, Mass., March 20, 1874.</i>
Parents	<i>Howard, Mary (Mason) Stockton.</i>
School	<i>Noble's School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B. ; S.B., 1899 (M.I.T.).</i>
Married	<i>Margaret Head, Feb. 3, 1906, Boston, Mass.</i>
Children	<i>Mary, July 5, 1907 ; Charles Head, Oct. 3, 1909.</i>
Occupation	<i>President Old Colony Trust Company.</i>
Address	<i>(business) 17 Court St., Boston, Mass. (home) Manchester, Mass.</i>

Upon leaving College I determined to become a civil engineer and knowing that it was impossible to acquire the

requisite amount of civility at Harvard I joined the M.I.T. in the second year. You can see that four years of Harvard were of some use, as they enabled me to skip one year of Tech.

It soon became clear that it would be impossible to get my degree without outside aid, so I engaged Thomas Pettitt and William B. Rogers to tutor me daily in the tennis parlor of the B.A.A. After this arrangement was concluded I had no trouble at all and in three years easily obtained my degree and became an engineer.

The cold winds of Boston and need of money drove me to Huntsville, Ala., where a large chimney, somewhat bent near the top and a huge reservoir, which proved an unnecessary expense, remain as monuments of my temporary fame.

Then a little pull enabled me to obtain a position in a Lowell cotton mill and a few months later I was picked out as a possibly easy victim to put in charge of a temporarily run down but now most prosperous bleachery. That job I stuck to until January, 1902, the City Trust Company was started with me as president. No other event of importance occurred until my marriage in 1906 and from then on nothing but two children and a merger with the Old Colony Trust Company, resulting in my now being president of this institution.

Children	<i>Esther Mayell, Sept. 24, 1900; Winthrop Ernest, May 8, 1902.</i>
Occupation	<i>Market gardener.</i>
Address	<i>165 Grove St., Watertown, Mass.</i>

In 1903, having spent six years teaching, three in Arkansas and three in Maine, I went into the business of raising forced vegetables in greenhouses. For two years I was in business with my father, and at his death in 1905 I succeeded to his business and also started building a large modern plant of my own in East Watertown. At present I have twelve greenhouses covering about two and one-half acres. On these acres I have proved that the rocky and sterile soil of New England can be made to produce \$10,000 worth of green vegetables per acre annually. To have had even a humble part in helping to bring Middlesex County to her present high position in agriculture—she being excelled by one only in the United States in value of her products—is, I think, a high honor, and an incentive to further endeavor.

Occupation	<i>Lawyer.</i>
Address	<i>53 State St., Boston, Mass.</i>

I have remained a member of the firm of Storey, Thorndike, Palmer & Thayer, attorneys, since the last report. This firm was recently changed by the retirement of Ezra R. Thayer, who accepted the position of dean of the Harvard Law School. His position with this firm has been taken by Robert G. Dodge, '94.

There is nothing interesting to report. I have held no positions of trust, nor written any books, nor held any public office.

Occupation	<i>Advertising agent.</i>
Address	<i>(business) 512 Tremont Bldg., Boston, Mass. (home) 260 Clarendon St., Boston, Mass.</i>

In the autumn of 1896 I went abroad where I stayed for nearly three years, most of the time studying in Hanover,

Leipzig, and Paris, and the remainder traveling in Germany, France, and Italy.

Returning to Boston in 1900 I was for a short time in a real estate office and later in the publishing business. In 1904 I entered the employ of the George Batten Company, an advertising agency with headquarters in New York.

In 1908 this company opened a Boston office and I am now located in this Boston branch. I am not married.

Occupation	<i>Ethnologist.</i>
Address	<i>(business) Bureau of American Ethnology, Washington, D.C.</i> <i>(home) Friendship Heights, Bethesda, Md.</i>

For about two months during the summer of 1898 I was in the Chaco Canyon, N.M., and during the following winter in New York pursuing studies at Columbia University. Part of the summer of 1899 was spent on Rosebud Reservation, South Dakota, and the winter succeeding I was again in New York. September, 1900, I was appointed to the Bureau of American Ethnology, Smithsonian Institution, as an assistant ethnologist, and have been connected with it ever since. The winter of 1900 to 1901 was passed in making studies of the Haida Indian on the Queen Charlotte Islands, B.C. In December, 1903, I was married, and my wife and I combined business with pleasure in a trip to Southeastern Alaska, returning the following May. Shortly before this I was made full ethnologist. In 1907 I visited the fragmentary tribes of Indians in Louisiana and located several speakers of the Natchez Indian language then supposed to be extinct. In 1908 and

again in 1910 this trip was repeated and still more data collected.

My publications have been "Contributions to the Ethnology of the Haida," and "Masset Texts" in the "Memoirs of the American Museum of Natural History;" "Social Conditions, Beliefs, and Linguistic Relationship of the Tlingit Indians," "Haida Texts and Myths," "Tlingit Myths and Texts," and "The Indian Tribes of the Lower Mississippi River and Adjacent Coast of the Gulf of Mexico" in the reports and bulletins of the Bureau of American Ethnology, besides some works in press. In the way of honors I have nothing more to claim than the presidency of the American Folk-Lore Society for one year, the secretaryship of the Anthropological Society of Washington for two or three years, and the assistant editorship of the "American Anthropologist."

Occupation	<i>Farming.</i>
Address	<i>Olivet, Kan.</i>

One of the wise and learned professors to whom I had intimated my purpose of farming made the encouraging remark "there is nothing you can do on a farm but run for Congress." Ever since I gave up the deadly occupation of teaching I have been farming; and I have done everything my scholarly mentor said I could do except run for Congress. Should I ever be lured into that folly I shall confess to you.

Occupation	<i>University teacher.</i>
Address	<i>Ann Arbor, Mich.</i>

After a year of graduate work, I came in 1897 to the University of Michigan as instructor in English. Here I am still, after thirteen agreeable years, doing much the same thing. It has not been quite as monotonous as this sounds. From 1901 to 1903 I was back in the Harvard Graduate School, which is the best place in the world to get training and do work in the subjects I am interested in. Since my return here I have received various promotions, and am now on my second appointment as junior professor of English. For the Summer quarter of 1909 I held an appointment as professor of English in the University of Chicago; three other summers I spent between Liverpool and Athens. I have published two books (Kegan Paul, London) and various other articles and reviews (mostly on Chaucer). Of course one belongs to various clubs and societies; but why mention them? I was married to Marjorie Fenton, of Washington, D.C., 17 June

(*absit omen*), 1908. Ann Arbor is one of the pleasantest university towns in the country. All would not admit that this is due to the forty Harvard (and near-Harvard) men on the faculty, including three '96 men. Hello, Tilden!

Born	<i>at Worcester, Mass., Nov. 25, 1873.</i>
Parents	<i>John R., Lora Charlotte (Holmes) Thayer.</i>
School	<i>Fish and Dalzell Schools, Worcester.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.; LL.B., 1899.</i>
Unmarried	
Occupation	<i>Attorney at law.</i>
Address	<i>(business) 811 State Mutual Bldg., Worcester, Mass. (home) 453 Cambridge St., Worcester, Mass.</i>

Since my graduation from the Law School I have been located at Worcester, practising my profession with about the same success that most young men meet with. My father

and Hon. Arthur P. Rugg at the time I came into the office had a well-established practice and it was up to me to do the usual drudge work for the first few years. In 1906 Mr. Rugg was appointed a Justice of our Supreme Judicial Court and since then my father and I under the firm name of Thayer & Thayer have continued the offices. When I first came into the office my father was a member of Congress and for six years I saw a good deal of the political situations in Massachusetts from the inside, so to speak. Since then I have not taken any active part in politics, devoting my time to my professional work. I was very sorry that I was unable to attend the reunion in 1906, but at that time I was in Europe, my engagements being such that it was impossible for me to meet with the Class.

From time to time I run across members of the Class other than those who live in Worcester, especially when in Boston. We have quite a '96 delegation here, so that in a measure interest in matters pertaining to the Class is kept up. We have a Harvard Club which is doing a good deal to forward the work of the Associated Harvard Clubs.

Am as yet unmarried, so cannot discourse on the joys of married life as I suppose most of the men can and do.

Married	<i>Anna Matilda Eliason, July 2, 1908.</i>
Occupation	<i>Teacher.</i>
Address	<i>(business) Agricultural College of Utah, Logan, Utah. (home) 217 E 4 North, Logan, Utah.</i>

I would prefer nothing, but as you ask it, here goes: 1896-1898, teacher B. Y. College; 1898-1900, teacher in Agricultural College of Utah; 1897-1900, member and president of Board of Education of Logan City; 1900-1901,

student in Harvard Graduate School; 1901-1902, student in Fredrick William University, Halle a/s. Germany; 1902-1903, student in Berlin University, Germany; 1903-1905, principal of Ogden City High School; 1905-1910, professor of economics in Agricultural College of Utah; 1907-1910, member and president of Board of Education of Logan City, Utah; 1909-1910, member and president of Utah State Library and Gymnasium Commission; 1908, president of Utah Teachers' Association; 1910, director of Logan Rapid Transit Company.

I have prepared two small volumes and the third is nearing completion, but they are not worth mentioning. Five years ago when I took hold of the work in economics at the college there were seventeen students in the subject and now there are one hundred and forty.

Unmarried	
Occupation	<i>Nursery salesman.</i>
Address	<i>General Delivery, Egg Harbor City, N.J.</i>

I left Harvard College at beginning of sophomore year of my class (1896) in good standing. In April, 1894, went to Haïté as a clerk for L'Usine Nationale, Petite Rivière-de-Nippes, a coffee buying depot operated by a New York corporation, and remained there for about six months. Incidentally I discovered that some time during 1883 or 1884, in one of the smallpox epidemics which occasionally occur in the West Indies, at Misagoâve, Haïté, Eugene Mitchell, a Harvard College or Lawrence Scientific School graduate of a class of the seventies (exact date not known by me) died of smallpox, and was buried at Misagoâve. Most of the time from 1895 to 1906 I was engaged in the coffee business, except such time as I was in the West Indies, having made trip in 1898 and 1901. My occupation has been nursery

salesmanship since January, 1907, aside from an engagement during the summer and fall of 1910 as an agent of the New York State Brewers' Association, working under the direction of the Brewers' Exchange of Rochester, N.Y. I have resided since spring, 1906, at Millington, Morris County, Wading River, Burlington County, and Egg Harbor City, Atlantic County, N.J.

CHARLES JOSEPH TILDEN

Born	<i>at Brookline, Mass., Oct. 3, 1873.</i>
Parents	<i>George Thomas, Alice Olmstead (Butler) Tilden.</i>
School	<i>Milton Academy, Milton, Mass.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>S.B.</i>
Married	<i>Mabel Katherine Myers, Oct. 14, 1902, New York, N. Y.</i>
Children	<i>Elinor, July 26, 1903; Carol, Aug. 10, 1907.</i>
Occupation	<i>Civil engineer and teacher</i>
Address	<i>1619 Cambridge Road, Ann Arbor, Mich.</i>

Spent the year following graduation as assistant in drawing

and descriptive geometry in the Scientific School, and the following six years in practical work in civil engineering in Boston, Pittsburg, Pa., and New York City, with the Boston Bridge Works, Keystone Bridge Works, J. R. Worcester, consulting engineer, and the New York Rapid Transit Commission. In the fall of 1903 went to Cornell University as instructor in civil engineering, and in February, 1905, came to the University of Michigan.

Since 1906, to be more specific, I have been assistant professor (1906-08) and junior professor (1908-) of civil engineering. My work has been especially in the fields of applied mechanics, structural design and strength of materials, together with the usual amount of routine and special committee work, etc., that falls to the lot of a university teacher. In addition to the regular duties in the university I have had a considerable amount of consulting and expert professional work in the way of making or criticising designs for structures of reinforced concrete, steel and timber, and making tests and reports on tests of various kinds of material and constructions.

I have, so far, written no books, though I have published several articles of a technical nature in the "Harvard Engineering Journal," the "Engineering News," the "Transactions of the American Society of Civil Engineers," etc.

Associate member, American Society of Civil Engineers, 1902, and am at present a member of the nominating committee of that organization.

Elected to membership in the Society of the Sigma Xi, 1907.

Parents	<i>Edward, Sarah Eddy (Sawtelle) Tobey.</i>
School	<i>Pittsfield High School, Pittsfield, Mass.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A. B. ; M. D., 1901 ; A. M., 1906.</i>
Unmarried	
Occupation	<i>Assistant in Bacteriology, Harvard Medical School.</i>
Address	<i>7 Bay State Ave., West Somerville, Mass.</i>

After receiving my degree from the College I entered the Harvard Medical, from which I received the degree of Doctor of Medicine. I have practised medicine at Nantucket and at West Somerville, Mass. I spent the mornings of 1903-1904 studying pathology, and those of 1904-1906 studying bacteriology and protozoölogy at the Medical School. For this I received the degree of Master of Arts. I was appointed demonstrator and research assistant at the Liverpool School of Tropical Medicine in May, 1906, where I remained until July, 1907. I was appointed assistant in bacteriology, Harvard Medical School, in September, 1907. In July, 1908, I gave the first course in tropical medicine ever given at Harvard.

My work in 1904-1906 resulted in five articles on bacteriological and protozoölogical subjects. While at Runcorn, England, six more came out, and since my return I have had published three research articles and three articles advocating the establishment of a department of tropical medicine at Harvard. One of these latter entitled "The Need for a School of Tropical Medicine in the United States," which first appeared in the "Journal of the American Medical Association," was later reprinted in the "Journal of Tropical Medicine," London. I find that my name helps to increase the number of Harvard men in the new edition of "American Men of Science."

My salary of \$300 from Harvard is too small for me to live on, and I am now looking for another place.

I am at present a teacher, I have been in the past a teacher, I expect to be in the future a teacher until time for me shall end. I have varied the monotony of this existence by spending — since graduation — some three years in advanced study, of which time two years were spent in Germany, chiefly at the University of Leipzig (three semesters). My work as a teacher has been entirely in schools of secondary (or high school) grade, as principal and as head of department.

I have written no books, — at least I haven't foisted any on the suffering public. I have held no offices of honor or trust, except in so far as my ordinary vocation may count as such. I have licked one school into shape and saved it from being disqualified as a high school.

I have remained single chiefly for the same reason that prevented Simple Simon from incorporating the pies. I am firmly convinced that an old bachelor is entitled to none of the courtesies of existence and ranks only one grade higher than a suffragist or a suffragette.

The New Bedford High School (none better) is the scene of my present labors, — as it has been for the past three years.

DAVID TOWNSEND

Born	<i>at South Natick, Mass., May 6, 1873.</i>
Parents	<i>George James, Lucy M. (Richards) Townsend.</i>
School	<i>Boston Latin School.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B. ; M.D., 1901.</i>
Married	<i>Mary Bacon Cruikshank, Nov. 1, 1902, London, England.</i>
Occupation	<i>Physician.</i>
Address	<i>9 Irving St., Brookline, Mass.</i>

After graduation I spent the years 1896–1900 in the Medical School. After finishing my course there I spent the year October, 1900, to November, 1901, in Europe, in the hospitals of London, Berlin, and Vienna. On my return

I started to practise my profession in Brookline, removing to Boston to 405 Marlborough Street in November, 1907. October, 1902, went to London, England, where I was married on November 1, returning to America Dec. 1, 1902, and resumed my practice. July to November, 1905, served as physician-in-charge of the Day Camp for Consumptives, Parker Hill, Roxbury, Mass. This was the pioneer camp of this sort in America and was conducted by the Boston Association for the Relief and Control of Tuberculosis. After the close of the camp I took a trip through New York State and the Middle West studying the sanatoria and the tuberculosis situation in these districts. December, 1905, and January, 1906, I again spent in Europe in the study of the sanatoria and the tuberculosis problem in England, Scotland, Germany, Switzerland, and France. On my return I resumed my practice, giving special attention to diseases of the chest. In June, 1907, I was again appointed physician-in-charge of the Day Camp of the Boston Association, at Mattapan. I served in this capacity until February, 1908, when the camp was closed. June 26, 1908, I was appointed assistant physician to the Boston Consumptives' Hospital in charge of the work of the hospital at Mattapan. Later when the hospital proper was opened I was appointed resident medical officer, serving in this capacity until March 25, 1910, when I resigned, owing to ill-health, due to overwork. April to October I spent in regaining my health. In October I again resumed work. I served one year as secretary, committee of arrangements, Massachusetts Medical Society, and am still on the committee.

For two years I was secretary and treasurer of Brookline Medical Club. I have also served as secretary to the Norfolk District Tuberculosis Committee; also as a member of the executive committee, Brookline Anti-Tuberculosis Society, and also on the council of this society.

For a little over three years I was graduate assistant, orthopedic clinic, Children's Hospital in Boston.

January, 1903, to September, 1906, assistant surgeon, orthopedic department, Boston Dispensary; September, 1906,

appointed assistant physician to the tuberculosis department, Boston Dispensary, and promoted to full physician in 1909, which position I still hold. March, 1908, appointed chief of the district physicians, Boston Dispensary, which position I still hold. Member nominating committee, Boston Dispensary; member board of directors, North End Diet Kitchen.

I have written several articles on the Day Camp which have been published in the Medical Journals, besides giving several lectures on the subject in this and other States.

Parents	<i>Isaac, Frances (Eckhardt) Ullman.</i>
School	<i>Sachs Institute, New York City.</i>
Years in College	<i>Three.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.; M.D., 1899 (Columbia).</i>
Unmarried	
Occupation	<i>Physician.</i>
Address	<i>Central Islip, New York.</i>

I left College at the end of my junior year, but obtained my degree by work in the Summer School, as I lacked but one course. Although I did not graduate until 1898, the faculty gave me my degree as of the Class of 1896.

I entered the College of Physicians and Surgeons of Columbia University in 1895 and graduated in 1899 with the degree M.D. During the following year I worked in a general hospital in New York City as interne, and then went into private practice for a year.

In 1902 I entered the State service at Willard, was transferred to Kings Park, L.I., and for the past three years have been at the Central Islip State Hospital for the care and treatment of the insane, where I hold the position of assistant physician.

Children	<i>Sophia French, July 23, 1910.</i>
Occupation	<i>Commissioner of Indian Affairs.</i>
Address	<i>(business) Indian Office, Washington, D.C. (home) Holliston, Mass.</i>

In the fall after graduation I entered the Graduate School,

but left it in a few months to become assistant in English at the Massachusetts Institute of Technology, staying there till 1899. At the close of the school year I went to work for the National City Bank, New York, and was there, or in the Accounting Department of the Union Pacific Railroad at Omaha, till 1901. For the next two years I taught again at the Institute of Technology as instructor in English; and then for two years worked in the Farmers' Loan and Trust Company, New York. In 1905 I entered the Government service as private secretary to Francis E. Leupp, Commissioner of Indian Affairs. Later I held a traveling and inspecting job for a while and then was appointed on Dec. 1, 1908, Assistant Commissioner of Indian Affairs by President Roosevelt. On June 15, 1909, I was promoted to the Commissionership by President Taft.

I believe that there is a profession of business administration, as well as of law or medicine, and with an appeal to ability and enthusiasm and human interest as great as those, and I am trying to be a member of it. In it one does not spend his life at one job, any more than a lawyer [hopes to] spend[s] his at one case.

Address	<i>(business) 19 Whitehall St., New York City.</i> <i>(home) New Paltz, N. Y.</i>

Went to Alaska in the rush of 1898 and stayed there three years and underwent a good deal of hardship. Was one of the owners of the "Sweetcake Mine," the first gold mine opened in Council City, the first mining camp in the Cape Nome country. We were the pioneers there, for we had taken out gold before the first discovery was made at Nome. Since that time have been in New York with varying fortune.

Married	<i>Ruth Bennett Hayes, June 10, 1903, Providence, R.I.</i>
Children	<i>Jonas, Oct. 15, 1904; Charles Lowell, Aug. 8, 1906; Philip Hubbard, May 20, 1910.</i>
Occupation	<i>Professor of American History, University of Missouri.</i>
Address	<i>513 Rollins St., Columbia, Mo.</i>

Since 1902 I have been here at the University of Missouri, beginning as instructor and rising to the proud and somewhat barren eminence of a full professor in 1907. Meanwhile the university has more than tripled in size and under a young and able president is developing very rapidly. As for publications, beyond the usual reviews and hack work I have put forth the chapters on Missouri to 1820 in "The South in the Making of the Nation" and "The Archives of Missouri" for the Archives Commission of the American Historical Association. I have served a term as secretary and as president of the local Harvard Club, am first vice-

president of the State Historical Society of Missouri, and a member of the Archives Commission of the American Historical Association.

In the last five years my record shows the usual number of ordinary events, including the building of a house — once is an experience, twice is foolishness — and a year off, 1908–09, for my health. The results of the latter were altogether satisfactory.

Married	<i>Mary Robinson Nelson, Dec. 25, 1890, at Roxbury, Mass.</i>
Children	<i>Enid Nelson, March 6, 1893.</i>
Occupation	<i>Teaching.</i>
Address	<i>(business) Russell School, Cambridge, Mass. (home) 49 Elmore St., Roxbury, Mass.</i>

After graduation I took up the work of teaching in the Russell School as its master, and continued my residence in Cambridge until April, 1908, when I moved to 49 Elmore Street, Roxbury, Mass., where I reside at present.

I have gone back and forth each school day from Roxbury to Cambridge, passing by the Washington Elm and "Fair Harvard," leaving the trolley between Fresh Pond and Lowell's home. Within a short distance of the schoolhouse is the home of ex-President Charles W. Eliot, and not infrequently I meet him with his wife early on a beautiful morning taking exercise upon their bicycles. His splendid bearing and presence show one how correct habits of life may prolong its span and lead to serenity and achievement in later life. To a "pedagogue," like myself, the example at my very door of "The Great Teacher," of world-wide fame, cannot fail to be a steady inspiration.

When I came to Harvard in 1894 I had been instructing youth for some twenty years. I came at a large sacrifice in a pecuniary way. To the student the money consideration is secondary, but he is asked frequently if it has paid. Through gaining a much broader mental view, through profitable contact with abler mind in special lines, and through the reserve power which I have felt from a friendly acquaintance with the University, its professors, libraries, and opportunities, I have felt fully repaid.

During 1897 I worked very hard and, after examinations, took my A.M. at Wooster University, Ohio. For the next four years every possible minute was devoted to preparation and examinations for the doctor's degree. It was a strenuous experience and I was very happy when Ph.D. was conferred upon me by Wooster University in June, 1901. As occasion has demanded or opportunity offered I have read such works or attended such lectures as seemed most helpful and profitable.

Harvard is a fountain of perennial youth, and though I must be one of the older "Boys of '96," I feel like one of the youngest whenever I come within her portals.

After serving as surgical house pupil at the Massachusetts General Hospital from December, 1899, to April, 1901, and being married in June, 1901, I started practice in Boston in November, 1901, with an office at 295 Beacon Street. In October, 1909, I moved to my present address. From December, 1901, to June, 1908, I was assistant to Dr. Edward Reynolds, whose practice is gynecology and obstetrics. Since June, 1908, I have practised these specialties on my own account. I have been on the staff of the Free Hospital for Women in Brookline since December, 1901, as surgeon to out-patients with a four months' service in the House, and for the past two years have been also pathologist. From September, 1902, to June, 1906, I was assistant in anatomy at the Harvard Medical School.

Address	<i>(business) Custom House, Federal Bldg., Denver, Col. (home) 4411 West Sixth Ave., Denver, Col.</i>

Fifteen years and I have not yet revolutionized the world. And so fade the dreams of youth. Teaching, farming and Government service have filled most of my years since graduation. For the past six years I have been in the Custom House at Denver; at present I occupy the position of examiner.

The work is very interesting but naturally not so strenuous as that at a border port.

We are rearing two sturdy youngsters who will undoubtedly pick up the threads of their parents' ideals wherever we happen to leave them. Collaterally I am secretary of an improvement club, I hold several offices in the local Congregational Church, and am president of a small but very active irrigation company. We are always glad to see Harvard men, especially members of the Classes of '96 and '97.

Clergyman.
1113 West Ave., Buffalo, N. Y.

After leaving Harvard I spent three years in the General Theological Seminary, New York. I was ordained deacon in the spring of '99, and priest in the spring of 1900. For the first three years of my ministry I was in charge of St. Stephen's Parish, Buffalo. During the years since then (eight and one-half at the time of writing) I have been rector of Grace Parish, Buffalo.

I have written no books as I have been too busy doing parish work, and probably could not write a real book if I had the time. As for offices, those that I have held have been connected with the routine work of the church in the city and diocese, and have not been such as to absorb the attention of my classmates. As to personal remarks, I will add only that I am happy trying to do something in a kind of work which always makes one "contrast the petty done, the undone vast."

1896-1897, in Harvard Graduate School and assistant in history; 1897-1898, in University of Pennsylvania Graduate School; 1898-1900, assistant in history, Harvard; 1901, instructor in history, Leland Stanford University; 1901-1902, instructor in government, Harvard; 1902-1909, instructor and assistant professor of history at the University of Chicago.

"I not only admired Warren in a high degree for his rare talent and looked forward with great expectations to his future achievements in the fields of history and literature, but I loved him warmly for his beautiful personal character and his rare devotion to all good and pure things. His sudden and early death is not only a terrible sorrow to every one who truly knew him, but is nothing less than a public calamity. He was the type of young American scholar whom we cannot easily spare at this juncture in our national life. As my mind runs back over the many years — yet all too few — that I have known him, I find it difficult to speak of him in adequate terms — so exceptional and noble were his qualities." — *E. D. M.*

From the time I left College until Jan. 1, 1906, I was engaged in the advertising business in Boston and in New York. On the date named, I entered the employ of the Stanley Motor Carriage Company at Newton, Mass., and have been there ever since. What with bringing up a large family and furnishing sustenance for them and building two new houses for them in the last few years, I have been fairly well occupied. I have found time, however, for two diversions.

First: I have written some plays in collaboration with a Yale man, one of which has been repeatedly assured, but only assured, of a production by a firm of New York managers, and another of which, a one-act piece, called "The Day That Lincoln Died," was produced by the stock company at the Bijou Theatre, Boston.

Second: I have amused myself by trying to invent a Globe-Wernicke kind of house with unit sections which could be added to take care of the succeeding accretions to my family.

After leaving Harvard Medical School and finishing my term as interne at the Boston City Hospital I spent two years in Europe studying chiefly at Heidelberg, Berlin, and Vienna, working exclusively in my special line diseases of the ear, nose, and throat. On my return to this country I settled in New York City in 1901, where I remained in prac-

tice of my profession until 1907, serving as visiting physician to various hospitals in that city.

In the fall of 1907 I came to New Orleans where I have been actively engaged in practice. I am visiting laryngologist and otologist to the Turo Infirmary; consulting laryngologist to the Tuberculosis Clinic and Hospital.

Other than a steady and satisfactory growth in my professional work I have no triumph to report.

Occupation	<i>Coal operator.</i>
Address	<i>(business) Land Title Bldg., Philadelphia, Pa. (home) Wyncote, Montgomery County, Pa.</i>

Went from Cambridge to Virginia, where I was employed as land agent for the Virginia Coal and Iron Company.

Later became interested in bituminous coal mining and coke manufacturing. Held various positions with the Virginia Coal and Iron Company and Stonega Coke and Coal Company, and in 1900 was appointed general manager of Stonega Coke and Coal Company. In 1904 was elected president of Stonega Company and also president of the Virginia Coal and Iron Company and some of their subsidiary companies, and moved to Philadelphia, where I have since lived.

In addition to managing the properties above referred to, during the past six years I have been placed in executive charge of bituminous coal properties in Illinois and Kentucky and some anthracite coal properties in Pennsylvania.

Occupation	<i>With Crocker-Wheeler Company, Ampere, N.J.</i>
Address	<i>(business) care of Crocker-Wheeler Company, Ampere, N.J.</i> <i>(home) 512 Belleville Ave., Glen Ridge, N.J.</i>

My first job after leaving Harvard was teaching in Heathcote School, Buffalo, N.Y., until Easter of 1897.

I then came to the Crocker-Wheeler Company of Ampere, N.J., with whom I still am.

For the benefit of the uninitiated I would say that we make the best electric generators and motors on the market and are the largest independent competitor of the General Electric, Westinghouse and Allis Chalmers Companies.

My work has always been in the manufacturing end of the company, in which I have had charge of various lines connected with the supervising of the output of the factory. It has not caused me to write any books or to deliver any lectures. Neither has it given me much time to pursue offices of honor and trust not directly connected with my work.

My spare time is spent quietly at my home in Glen Ridge, where I am always glad to welcome any classmate or, in fact, any old man from Harvard.

Married	<i>Lilla Hope Eastman, Aug. 18, 1902, Worcester, Mass.</i>
Children	<i>Jerome, July 13, 1903; Margaret, April 5, 1906; Ruth, Aug. 28, 1909.</i>
Address	<i>(present) 67 Bd. Cotte, Enghien-les-Bains, Seine et Oise, France.</i> <i>(home) care of Worcester Trust Co., Worcester, Mass., U.S.A.</i>

After leaving Harvard in 1896, I entered the Columbia Law School, taking the degree of LL.B. in 1899, after this I practised law in the office of E. Ellery Anderson in New York City, until 1901, when I went to Chicago, taking a position with Swift & Co. In February, 1902, after my

father's death, I returned to Worcester, Mass., where in August, 1902, I married Miss Lilla Eastman. In 1903 I entered the Harvard Medical School, where I spent three years, living during this time first at Waltham and later at Roxbury. In 1907 I came to France where I am now living at Enghien-les-Bains, near Paris. In the fall of 1907 I matriculated in the Faculty of Science of the University of Paris and spent a year doing laboratory work in embryology. Since then I have been leading the "simple life," keeping occupied in a small laboratory and workshop of my own.

Married	<i>Josephine Elizabeth King, Sept. 21, 1910, Westfield. Mass.</i>
Occupation	<i>Physician.</i>
Address	<i>East Longmeadow, Mass.</i>

Nothing in particular to write. My life is that of the average doctor in the country, work like the devil in the winter when the weather is cold and the going hard. In the summer, sit around in the shade and entertain friends, waiting for accidents and confinements or the weather to get so hot that my neighbors' children get sick and produce more business. However, I am well satisfied with my profession, as there are many pleasant social times in the life of the country doctor. I have taken part in local grange entertainments, now reading a paper on some medical topic or discussing a political subject. I have served as chairman of library trustees, chairman of the men's club entertainment committee, officiated at weddings and various other functions and altogether enjoyed life to its full during the past fifteen years.

Address	<i>(business) 84 State St., Boston, Mass. (home) 147 Park Ave., Arlington Heights, Mass.</i>

The cleverest biographer would be up against it to credit me with deeds worthy of record. However, I would call

attention to the fact that I have kept continuously out of jail since leaving College, and hope I can truthfully make a similar statement for many Class Reports to come.

OTIS CONVERSE WHITE

Born	<i>at Hopkinton, Mass., Jan. 21, 1874.</i>
Parents	<i>Otis Converse, Henrietta Wentworth (Walker) White.</i>
School	<i>Classical High School, Worcester, Mass.</i>
Years in College	<i>Four.</i>

Married	<i>Helen Louise Burtis, June 19, 1900, Worcester, Mass.</i>
Children	<i>Dorothy Burtis, March 22, 1904; Barbara Wentworth, July 23, 1907.</i>
Occupation	<i>Manufacturer.</i>
Address	<i>(business) 15-21 Hermon St., Worcester, Mass. (home) 8 Shepard St., Worcester, Mass.</i>

I fear that there is little that I can say about myself that would be of general interest to my classmates. I am president of the O. C. White Company of Worcester, Mass., manufacturers of electric fixtures; am also manager of the O. C. White Power Company, owning buildings with power for manufacturing purposes. These interests involve many details which require constant attention and which keep me pretty close to the neighborhood of Worcester. I have been fairly successful, and in good health, and feel that I have much more reason to be thankful than for complaint.

By way of recreation I belong to several clubs and I am fond of automobile driving. I have never gone into politics nor endeavored to reform the wicked and long-suffering public, but I have given considerable of my time and attention to masonry and am at present master of my lodge (Quinsigamond, A.F. & A.M.).

In short, without indulging further in egotism, I suppose I should be classed with that grade of business men who have not (thus far, at least) made a failure of their opportunities nor been a disgrace to their classmates.

GRAFTON WHITING

Born	<i>at Boston, Mass., Jan. 21, 1873.</i>
Parents	<i>Irving O., A. Geraldine (Grafton) Whiting.</i>
School	<i>Hopkinson's and at Concord, Mass.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A. B.</i>
Married	<i>Mary Stevenson Rattray, June 3, 1905, Quebec, Canada.</i>
Children	<i>Anna Geraldine, April 28, 1906; David Rattray, Oct. 10, 1908.</i>
Occupation	<i>With Library Bureau, Boston.</i>
Address	<i>(business) 43 Federal St., Boston, Mass. (home) 15 Strathmore Road, Brookline, Mass.</i>

During the past nine years I have been with the Library Bureau, manufacturers of office and library furniture, loose leaf and card records. My work for the last six years has been that of an expert in devising methods of factory costs and office accounting. I have written several papers on these subjects for use in our business.

In the fall of 1910 I planned a practical system for handling the applications for, and distribution of, the football tickets at Cambridge and took full charge of this work.

After business hours I am a combination farmer and fisherman for six months of the year, having purchased a small estate on the shores of Hingham harbor. The farming is principally raising stones, but when it comes to fishing ten or fifteen dozen smelt in two or three hours I consider a small catch.

WILLIAM FRENCH WILBOUR

Born	<i>at Little Compton, Newport County, R.I., May 1, 1874.</i>
Parents	<i>Isaac C., Amelia H. (French) Wilbour.</i>
School	<i>Friend's School.</i>

Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B. ; LL.B., 1899.</i>
Married	<i>Gertrude Holmes, Dec. 27, 1906, Grace Church, New York.</i>
Occupation	<i>Lawyer.</i>
Address	<i>(business) 280 Broadway, New York City.</i> <i>(home) 617 Fifth Ave., New York City.</i>

After leaving the Law School in 1899, and after spending a few months in Europe, I entered the law office of Anderson & Anderson, 35 Wall Street, New York City. Later I worked in the office of R. Burnham Moffat, Esq., and in 1902 accepted appointment in the Tenement House Department, Hon. Robert W. de Forrest then being Commissioner. From 1904 to 1908 I engaged continuously in the general practice of law in New York, and in February of the latter year was appointed assistant corporation counsel by Hon. Francis K. Pendleton, which office I still retain. My work for the city of New York has been confined chiefly to tax matters, and I am at present assigned to the Bureau for the Collection of Arrears, at 280 Broadway. It has been my privilege there to serve several of my resident classmates, some of them as victims of assessment, and some as counsel, unfamiliar with the department.

I was married on Dec. 27, 1906, to Miss Gertrude Holmes, daughter of the late John Holmes of New York, at Grace Church, and we are at present living at Pelham Heights, New York. We have no children.

When traveling in 1907 in Jamaica, West Indies, we encountered the earthquake which destroyed the city of Kingston. Although not in the city proper, we felt and saw much that was terrifying and dreadful. I served on the American Relief Committee at Port Antonio, and in a few days \$3,000 was raised, all contributed by American travelers, and this despite the resentment caused by the unpardonable reception of the American fleet by the British Governor of Jamaica. Having raised this fund, the committee proceeded to its disbursement for bread, ice, surgeon's supplies, and other necessities, which were daily dispatched to the stricken city as long as the money lasted.

CHARLES BURDITT WILLIAMS

Since leaving College I have been uninterruptedly with the Andrew J. Lloyd Company, and for the past few years have had charge of the photographic supply end of their business. The rest of my life during this period has been uneventful but pleasant.

JOSEPH EDMUND WOODMAN

Born	<i>at West Newbury, Mass., July 3, 1873.</i>
Parents	<i>Charles Henry, Mary Josephine (Poore) Woodman.</i>
School	<i>Phillips Andover.</i>
Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>S. B. ; A. M., 1900 ; Sc. D., 1902.</i>
Married	<i>Amy Baker Smith, Sept. 4, 1895, Pepperell, Mass.</i>
Children	<i>Malcolm White, Oct. 6, 1901 ; Olive, Jan. 10, 1906 ; Jean, June 6, 1911.</i>

Occupation*Professor of geology, New York University.***Address***New York University, University Heights, New York City.*

There was a place vacant in the department of geology when I graduated, and I stepped in. As a result I held the positions (1) of assistant in geology, 1896–1902; (2) instructor, Harvard Summer School, 1897–1905; (3) instructor, Radcliffe College, 1896–1902. The work left little time for research, hence the delay in getting graduate degrees.

In 1902 a mining school was founded in connection with Dalhousie University, Halifax, Nova Scotia, and I was asked to take the work in geology and to direct the school. This broadened out into a general engineering school, and was finally in part turned over to the Provincial Government in 1909. Having successfully completed the work for which I went, and finding seven years of expatriation sufficient, I returned to “the States,” succeeding Dr. J. J. Stevenson as professor of geology at New York University.

Ever since graduation I have practised the profession of mining geologist, with some success. In 1898–99 I was employed by the Nova Scotian Government in this capacity, and from 1906 to the present have been geologist in charge of iron investigations in Nova Scotia for the Dominion Department of Mines, Ottawa. In 1908 was retained in Canada’s greatest lawsuit—Dominion Iron and Steel Company, Ltd., *versus* Dominion Coal Company, Ltd. My work in the field has been largely in coal, iron, metallurgical limestones, gold, copper, tungsten.

Membership in numerous scientific societies brings with it some satisfaction as well as expense. The Harvard Club of New York supplies my social needs for the present.

I remain still a Republican in national politics, and a Congregationalist. Play golf a little and tennis more, but both poorly. Would rather “tinker” round a boat than anything else.

ROBERT SESSIONS WOODWORTH

Born	<i>at Belchertown, Mass., Oct. 17, 1869.</i>
Parents	<i>William Walter, Lydia Ames (Sessions) Woodworth.</i>

Married	<i>Gabrielle Marie Schj��th, April 23, 1901, Liverpool.</i>
Children	<i>Svenssen, 1904; Greta, 1906; William, 1908.</i>
Occupation	<i>Professor of psychology.</i>
Address	<i>Columbia University, New York City.</i>

Promotion to a full professorship; minor offices held in several scientific societies; many articles on psychological topics; and one or two books nearly ready; a house in the country near New York, and a growing family — that is about all that seems worth mentioning.

JOHN LORIMER WORDEN

Born	<i>at Mamaroneck, N.Y., Aug. 9, 1873.</i>

School	<i>Phillips Academy, Andover, Mass.</i>
Years in College	<i>Three.</i>
Admission Date	<i>September, 1893.</i>
Degrees	<i>A.B.; M.D., 1900.</i>
Married	<i>Berenice Crumb, June 11, 1891, St. Louis, Mo.</i>
Children	<i>Beatrice, June 13, 1902; Richard Farrar, Nov. 14, 1904.</i>
Occupation	<i>Physician</i>
Address	<i>Kirkwood, Mo.</i>

I have practised medicine in present location for the past ten years, varied only by an occasional vacation trip back to the old sod. Had the good fortune to be present at Decennial of '96, and hope to extend my acquaintance at the fifteenth anniversary celebration. Have held no office of honor or trust that I can remember; served two years as a member of the Board of Aldermen of this city, an office which scarcely falls within the aforesaid category on either count. Have written no books as I was early impressed with the wisdom of Ecclesiastes' comment on that subject.

Married	<i>Irene Tewkesbury, Oct. 15, 1898, Chicago, Ill.</i>
Children	<i>Irene, July 31, 1899; Henry Clay, 2d, May 17, 1903; Edwin Ensworth, Aug. 15, 1906.</i>
Occupation	<i>President Waters, Pierce Oil Company.</i>
Address	<i>(business) Waters, Pierce Oil Company, St. Louis, Mo. (home) St. Louis, Mo.</i>

Left college 1896. Until March, 1898, wrote to try literature; found it absorbing but poor pay (as never was before discovered, probably) so entered business. Have several books, verse and prose, also some musical compositions completed, but never felt hard enough against the public to try and inflict them with it. After six years became president Waters, Pierce Oil Company in June, 1905, and have been pretty busy since and expect to so continue for some time. Also am in some other things — director of national railways of Mexico, first vice-president Pierce Investment Trust Company, director Tennessee Central Railway, and some lesser offices in other businesses. Find golf about as good an occupation as any; also am finding it continuously more difficult to retain my hair. Have lost a good deal of my early illusions but not much of my early weight. Still believe an education can be got at Harvard if one starts young and keeps at it. Believe my iron constitution is getting somewhat rusty; also that wine, woman and song is a bad combination and recommend the elimination of song. Am inclined to believe J. J. Hayes wrote the Constitution of the United States and probably the Bible; base my opinion on his performance in the “Ninety Sixer.” Have not yet been convicted of any really serious crimes. Still speak to Walter McKittrick when I meet him and laugh when I think of Eddy Hurley. Am otherwise considered sane. Think that covers about everything except Charlie Pike.

John Lawrence Riker, 2D

Born	<i>at New York, N. Y., April 12, 1873.</i>
Parents	<i>Samuel L., Mary Anna (Stryker) Riker.</i>
School	<i>Wilson and Kellogg School.</i>

Years in College	<i>Four.</i>
Admission Date	<i>September, 1892.</i>
Degrees	<i>A.B.</i>
Married	<i>Carry Duncan Leverick, November, 1900.</i>
Children	<i>Francis L. Riker.</i>
Occupation	<i>Lawyer.</i>
Died	<i>March 25, 1909.</i>

Upon leaving College Riker entered the Columbia Law School, where he remained one year. He then entered his father's office and was admitted to the Bar in 1899. He then formed a partnership with H. N. Arnold, '96, for the general practice of law, which was dissolved in 1904, when he became a member of the New York Stock Exchange and formed the firm of Riker & Co., stock brokers. In 1908 he retired from the brokerage business and became a co-trustee with his father in the management of several estates. In March, 1909, he underwent an operation for appendicitis, and pneumonia setting in caused him to die very suddenly.

He was a member of the Harvard Club of New York and the Rockaway Hunt Club. The last six years he lived at Cedarhurst, L.I.

Horace Canfield

Horace Canfield died June 2, 1911, at St. Luke's Hospital, Spokane, Wash., as the result of an automobile accident near that city in the early morning of May 30. He had been playing in a golf tournament at Hayden Lake, Idaho. On his way back to Seattle he had gone to the Golf and Country Club outside of Spokane and the accident occurred on his return. The acetylene lights were working badly and when the chauffeur got out to adjust them Canfield, who was an experienced driver, slipped into his seat. He had not gone two hundred yards when the road swerved to the right, although apparently going straight ahead, and the car went over the bank.

While at Phillips Andover he had been keenly interested in tennis, at one time having the school championship in doubles. He took no part in athletics during his college life; in fact his four years in college were unmarked by any special incidents. Owing to his father's previous membership in Theta Delta Chi, he became a member of that fraternity in his freshman year and lived most of his college term at the club house.

After graduation he studied law at the Northwestern University, Illinois, receiving the LL.B. degree in 1899. For a while he was in the Chicago law office of A. R. Sheriff, '96. Later he was a member of the firm of A. J. Woodcock & Co. in the real estate business in Chicago.

Since 1905 Canfield had been living in Seattle, and preferred the Puget Sound country to any other, owing to his fondness for outdoor sports. He was one of the best golf players on the Pacific Coast, and frequently took a prominent part on the teams representing the Seattle Golf and Country Club. His principal business activity was caring for his mother's and his own investments. He was a member of the Harvard Club of Seattle, the University Club of Seattle, Seattle Golf and Country Club, the Seattle Hunt Club, the Seattle Athletic Club, and the Northwestern Graduate Association of Theta Delta Chi.

Canfield had traveled extensively, and owing to his companionable and sunny disposition had friends in large numbers scattered in various parts of the world.
